

MATHS: ESCAPE ROOM EDITION!

The Magical Mathscape

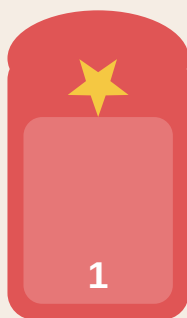

*Can you solve the puzzles and escape?
Your maths brain is the only key!*

PLANRS ACADEMY · GRADE 1

Mission Board

Chamki the firefly is trapped inside Maths Haveli!
Solve all 5 puzzles and earn the
Maths Detective Badge!

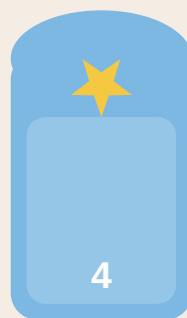

Room 1

Room 2

Room 3

Room 4

Room 5

Your Mission:

- ◆ Solve every puzzle room
- ◆ Help Chamki escape Maths Haveli
- ◆ Earn your Maths Detective Badge!
- ◆ You have 30 minutes. Go, Detective!

Room 1 — The Warm-Up Room

How many idlis do you see?

Count and add! Fill in the total:

■ **Chamki says: "Meena has 5 idlis. Aaji gives her 3 more. She counts on from 5 — six, seven, eight! Now she has 8 idlis!"**

Count-on number line:

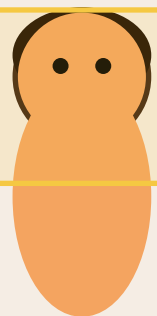

Gold boxes = count-on numbers! Start at 5 and count on 3 more...

Lock 1 is open! Colour in your star above!

I got the answer because I counted carefully. ✓

Colour in a star for each room you complete!

Room 2 — The Concept Room

Aaji gives Rohan more idlis!

$$5 + 3 = 8$$

Rohan starts with 5 idlis:

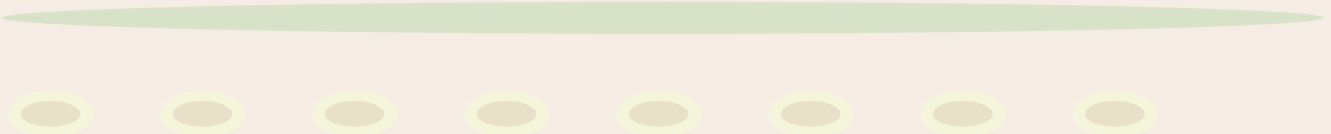

Aaji gives 3 more:

+

Now Rohan has 8 idlis in all!

Room 2 Practice

$$4 + 3 = ?$$

4 laddoos :

+ 3 more

Rohan has laddoos in all!

■ **Hint:** Start at 4 and count on 3 more:

4 ... five ... six ... seven! So $4 + 3 =$ _____

Room 3 — The Puzzle Room

Solve these puzzles to open Lock 3!

1 $5 + 2 = ?$

Story: Rohan has 5 chaklis from stall A and 2 from stall B. How many in all?

2 $4 + 2 = ?$

Story: Rohan has 4 diyas on the left and 2 on the right. How many in all?

3 $3 + 4 = ?$

Story: Rohan has 3 monkeys and 4 more join them. How many in all?

You are doing amazing! Keep counting and adding! ■

Remember: Adding means putting two groups together to make ONE bigger group!

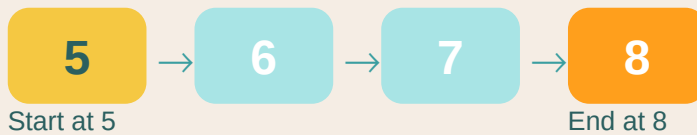

Room 4 — The Trick Room

This is the TRICK ROOM! Read very carefully...

$$5 + \underline{\quad\quad\quad} = 8$$

■ **Think like a detective:**

I know $5 + ? = 8$. I start at 5 and count on until I reach 8: 6, 7, 8...

I counted on 3 steps! So $5 + 3 = 8$

The missing number is:

■ **Story:** *There are 3 monkeys on the temple wall.*

4 more monkeys come. How many monkeys are there in all?

$$3 + 4 = \underline{\quad\quad\quad}$$

+

Well done! Lock 4 is open! You cracked the Trick Room! ■

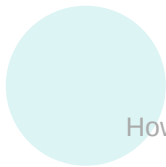

Room 5 — The Final Room / Escape!

Chamki is free! Now she wants to share gulab jamuns!

Chamki has 10 gulab jamuns:

How will she share? Draw your plan below!

Draw your sharing plan here! —■

How many gulab jamuns in each group? Write the addition sentence!

My addition sentence: _____ + _____ = 10

(There are many right answers! Try a different one too!)

■ BONUS — Can you make your OWN puzzle?

Think of a story using numbers you know. Write or draw it below!

My own puzzle: _____

Colour in all 5 stars — you solved all 5 rooms! ■

You Earned the Maths Detective Badge!

Congratulations! You escaped Maths Haveli!

All 5 locks are open and Chamki is free!

You are a true Maths Detective. Give yourself a big cheer! ■

Maths Detective: _____

Date: _____

My Score: _____ / 5 Rooms Completed!

■ PLANRS ACADEMY — TAKE-HOME CARD

■ WHAT I LEARNED TODAY:

Adding means putting two groups together to make one BIGGER group!

■ TRY AT HOME:

Count the chapatis on your plate tonight.
Ask someone to put more. How many now?

■ TODAY'S MATHS WORD:

ADDITION — joining two groups together!

■ MY SCORE TODAY:

Rooms completed: ___ / 5 Stars earned: ___ / 5
