

■ Probability — What Are the Chances?

A fun lesson for young learners | Planrs Academy

Meet **Riya** and her tiffin box! Every day, Riya wonders what yummy treat is waiting inside. Will it be a mango, a laddoo, or a guava? This is exactly what **probability** is all about — understanding *what might happen* and *how likely* it is!

■ CERTAIN	■ IMPOSSIBLE	■ POSSIBLE
Will ALWAYS happen! • The sun rises every morning • After Monday comes Tuesday • Dropped roti falls down	Will NEVER happen! • A cow flying in the sky • Ice cream being hot • A dosa flying like a kite	MIGHT happen — or might not! • It might rain at lunch • Aaji might make khichdi • Getting a mango in tiffin

■ More Likely — What Happens More Often?

When one outcome has **more chances** than another, we say it is **more likely**. The more items of a kind, the higher the chance of picking that kind!

Situation	More Likely Outcome	Why?
Bag: 4 bananas + 1 apple	Picking a banana	4 out of 5 are bananas
Bag: 3 red + 1 blue marble	Picking a red marble	3 out of 4 are red
Bag: 5 laddoos + 1 barfi	Picking a laddoo	5 out of 6 are laddoos
Weather in December	Cold, not hot	December is usually cold

■ Classroom Activity — Let's Sort!

Cut out the event cards below and place each one in the correct column. Discuss with your partner!

CERTAIN ■	POSSIBLE ■	IMPOSSIBLE ■

--	--	--

Event cards to sort:

Sun will rise	Ice cream is hot	It might rain	Buffalo singing	Getting laddoo	After Monday comes Tuesday
---------------	------------------	---------------	-----------------	----------------	----------------------------

■ Riya's Tiffin Box Activity

Riya's tiffin box has **4 mangoes** and **1 guava** inside. If she picks one fruit *without looking*, which is more likely to come out?

■ MANGO (4 out of 5)	■ GUAVA (1 out of 5)
■ More Likely!	Less Likely

■ Recap Quiz

#	Question	Answer
1.	The sun will shine tomorrow.	CERTAIN — it always happens!
2.	A buffalo can fly.	IMPOSSIBLE — this can never happen!
3.	It might rain today.	POSSIBLE — it could happen, but not certain!
4.	After Sunday comes Monday.	CERTAIN — days always follow in order!
5.	Ice cream can be hot.	IMPOSSIBLE — hot ice cream doesn't exist!

⇒ ■ My Own Examples

Draw or write your own examples in the boxes below!

■ CERTAIN Draw something that always happens!	■ POSSIBLE Draw something that might happen!	■ IMPOSSIBLE Draw something that can never happen!
