Fun with Indian Coins | Grade 2 Lesson Plan & Worksheet

Hello Teachers and Parents! Welcome to a fun, simplified guide to introducing Indian coins to Grade 2 children. This lesson focuses on four basic coins: **₹1, ₹2, ₹5, and ₹10**. Through simple visual definitions, interactive activities, and story contexts, kids will learn to count, order, and make amounts confidently!

☀ Section 1: What is a Coin?

A **coin** is a small, round piece of metal used as money to buy tasty treats, colorful erasers, and fun toys! In India, our money is managed by the **Reserve Bank of India (RBI)**.

Let's look at how coins are different from paper notes:

Coins

- Made of strong **metal**
- Small and **round**
- Lasts a very long time!
- Values: **₹1, ₹2, ₹5, ₹10**

Notes

- Made of **paper**
- Shape is **rectangular**
- Can tear or wear out faster
- Values: **₹10, ₹20, ₹50...**

Teacher / Parent Tip: Give children a real pile of mixed coins and paper notes. Let them touch and sort them into two piles: "Hard Metal" and "Soft Paper".

👁️ Section 2: Meet India's Coins!

Let's meet our four friendly everyday coins:

One Rupee Coin

Color: Silver

Design: National Lion Symbol

✨ Buy: 1 Small Candy!

Two Rupees Coin

Color: Silver

Design: Beautiful Peacock Motif

✨ Buy: 1 Small Eraser!

Five Rupees Coin

Color: Golden Yellow

Design: Shiny Five-Petal Flower

✨ Buy: 1 Yummy Samosa!

Ten Rupees Coin

Color: Gold outside, Silver inside!

Design: 15 rays/spokes

✨ Buy: 1 School Notebook!

🍦 **Fun Ice-Cream Fact:** The ₹10 coin is bi-coloured—just like two-flavoured ice cream! It has a golden outer ring and a silver inner circle.

🪜 Section 3: Ordering Coins

🧑 Ascending Order (Smallest to Biggest)

Like climbing up the stairs! 🐾

₹1 → ₹2 → ₹5 → ₹10

(Candy → Eraser → Samosa → Notebook)

Descending Order (Biggest to Smallest)

Like sliding down a playground slide! 

₹10 → ₹5 → ₹2 → ₹1

(Notebook → Samosa → Eraser → Candy)

Section 4: Counting Coins

A) Counting Identical Coins (Same Coins)

When all the coins look exactly the same, we can count them rapidly or skip-count!

Coin	How Many?	How to Count	Total Value
₹1	5 coins	1 + 1 + 1 + 1 + 1	₹5
₹2	4 coins	2, 4, 6, 8 (Skip by 2)	₹8
₹5	3 coins	5, 10, 15 (Skip by 5)	₹15
₹10	2 coins	10, 20 (Skip by 10)	₹20

B) Counting Mixed Coins (Different Coins)

Super Hint: Always start counting from the biggest value coin first! It's much faster!

- ₹5 + ₹2 + ₹1 = $5 + 2 + 1 = 8$ 👉 ₹8
- ₹10 + ₹5 + ₹1 = $10 + 5 + 1 = 16$ 👉 ₹16
- ₹2 + ₹2 + ₹2 = $2 + 2 + 2 = 6$ 👉 ₹6

Fun Story Problems

Story 1: Rohan has two ₹5 coins and one ₹2 coin. How much does he have?

$5 + 5 + 2 = 12$. Rohan has ₹12!

Story 2: Priya has one ₹10 coin and three ₹1 coins. How much does she have?

$10 + 1 + 1 + 1 = 13$. Priya has ₹13!

Section 5: Making Amounts in Different Ways

Did you know you can make the same value using different combinations of coins? Let's check it out:

Target Amount	Way 1	Way 2	Way 3
₹5	One ₹5 coin	₹2 + ₹2 + ₹1	Five ₹1 coins
₹10	One ₹10 coin	Two ₹5 coins	Five ₹2 coins
₹8	₹5 + ₹2 + ₹1	Four ₹2 coins	₹5 + three ₹1 coins

Section 6: Money Chant!

The Coin Counting Song

*One rupee, two rupee, five and ten,
These are India's coins - say it again!
Silver, silver, golden, and two-tone too,
Count them up - what can you do?*

Activity: Clap once for every number word! Sing it faster and faster!

Section 7: Quick Quiz Time!

Q1. Which coin is golden/yellow in colour?

- A) ₹1 coin B) ₹2 coin C) ₹5 coin D) ₹10 coin

Q2. Which coin has TWO different colours?

- A) ₹1 B) ₹2 C) ₹5 D) ₹10

Q3. True or False: A ₹10 coin is worth more than a ₹5 coin.

- A) True B) False

Q4. Arjun has two ₹5 coins and one ₹2 coin. What is the total?

- A) ₹7 B) ₹9 C) ₹12 D) ₹10

Q5. A samosa costs ₹5. Kabir gives a ₹10 coin. Is it enough?

- A) No, he needs more money.
 B) Yes! And he gets ₹5 change back.

Section 8: Take-Home Worksheet

Name: Class: Date:

Part A: Fill in the Blanks

1. A coin is made of hard
2. The ₹5 coin is in color.
3. The ₹10 coin has different colors.
4. The coin with the beautiful peacock motif is the rupee coin.

Part B: Let's Count the Total!

- Three ₹5 coins + One ₹2 coin =
- Two ₹10 coins + Two ₹1 coins =
- Four ₹2 coins + Three ₹1 coins =
- One ₹10 + One ₹5 + One ₹2 + One ₹1 =

Part C: Make the Amount!

Target Amount	Way 1	Way 2
Make ₹8		
Make ₹15		
Make ₹20		

Part D: Real-Life Word Problems

1. Meena wants to buy a pen for ₹5. She has one ₹2 coin and four ₹1 coins. Does she have enough money?

Workbook Space:

2. Raju has one ₹10 coin. He buys a sweet candy for ₹1. How much change should he get back?

Workbook Space:

3. Diya has three ₹2 coins and two ₹1 coins. She wants to buy a colorful eraser for ₹5. Can she buy it?

Workbook Space:

Teacher's Answer Key

Quiz Answers:

Q1: C (₹5 is golden) | **Q2:** D (₹10 is bi-colour) | **Q3:** A (True, $10 > 5$) | **Q4:** C ($5+5+2 = 12$) | **Q5:** B (Yes, $10 - 5 = ₹5$ change)

Worksheet Answers:

Part A: 1. metal | 2. golden/yellow | 3. two | 4. ₹2

Part B: 1. ₹17 | 2. ₹22 | 3. ₹11 | 4. ₹18

Part C (Sample Combinations):

- ₹8: (₹5 + ₹2 + ₹1) OR (₹2 + ₹2 + ₹2 + ₹2)
- ₹15: (₹10 + ₹5) OR (₹5 + ₹5 + ₹5)
- ₹20: (₹10 + ₹10) OR (₹10 + ₹5 + ₹5)

Part D (Word Problems):

1. Yes! She has $2 + 1 + 1 + 1 + 1 = ₹6$, which is more than ₹5.
2. Change = ₹9 ($10 - 1 = 9$).
3. Yes! She has $2 + 2 + 2 + 1 + 1 = ₹8$, which is more than ₹5.
