Grade 1 | Logic Series

If-Then Thinking Game

Magic Rules of Mowgli

Session 1: Coding Without Computers

Follow the Leader!

Get ready for a fun game with Magic Rules! In this game, we aren't just playing; we are learning the secret language of computers.

How it works:

When I give you an If-Then command, you follow along!

Example: "If I say 'clap your hands', then you clap your hands!"

Listen carefully and move fast! This is how we start thinking like a Logic Wizard.

What is If-Then?

If-Then is like a secret language used to give instructions!

The Two Parts:

1. **The "If" part:** This is the **CONDITION** (what happens first).
2. **The "Then" part:** This is the **ACTION** (what you do next).

Example: If you see a red light, then stop!

Logic Wizard Tip: Always look for the "If" first!

Magic Rules in Everyday Life!

Did you know we use If-Then logic every single day in India?

1. If it rains during monsoon, then we open umbrellas!
2. If the pressure cooker whistles 3 times, then turn off the gas!
3. If the school bell rings, then stand in line for prayers!
4. If it is Diwali, then light diyas!

Logic is all around us! From the kitchen to the school assembly, we follow If-Then rules.

Mowgli's Jungle Rules

Welcome to the jungle adventure! To survive in the wild with Mowgli, you must listen to the Magic Rules very carefully.

Jungle Game Commands:

-  If you see a tiger, then freeze!
-  If you hear a monkey, then jump up!
-  If you spot a snake, then curl up!

 **Challenge: Can you follow 3 commands in a row?**

Create Your Own Magic!

Now it is your turn to be the Logic Wizard!

In pairs, invent your very own If-Then rule for your friend.

Examples from your friends:

💬 **Arjun:** "If I clap, then you spin!"

💬 **Sana:** "If I wave, then you hop!"

💬 **Ishan:** "If I stomp, then you freeze!"

What is your rule?

If I _____ then you _____

How Do Robots Think?

Computers follow If-Then instructions just like you! When you play this game, you are learning how to talk to robots.

✓ Success Check:

- ✓ I can complete: "If I am hungry, then I _____"
- ✓ I know the If comes before Then.
- ✓ I can follow 3 commands in the Jungle Game.
- ✓ I can create my own If-Then rule.

LOGIC WIZARD

Keep looking for If-Then rules everywhere you go!
