

**MAKE A NIGHT LIGHT!  
FUN DIY ELECTRONICS  
& CRAFT  
PLANRS ACADEMY |  
SESSION 1 | GRADE 1**

## Meet Our Story Friend

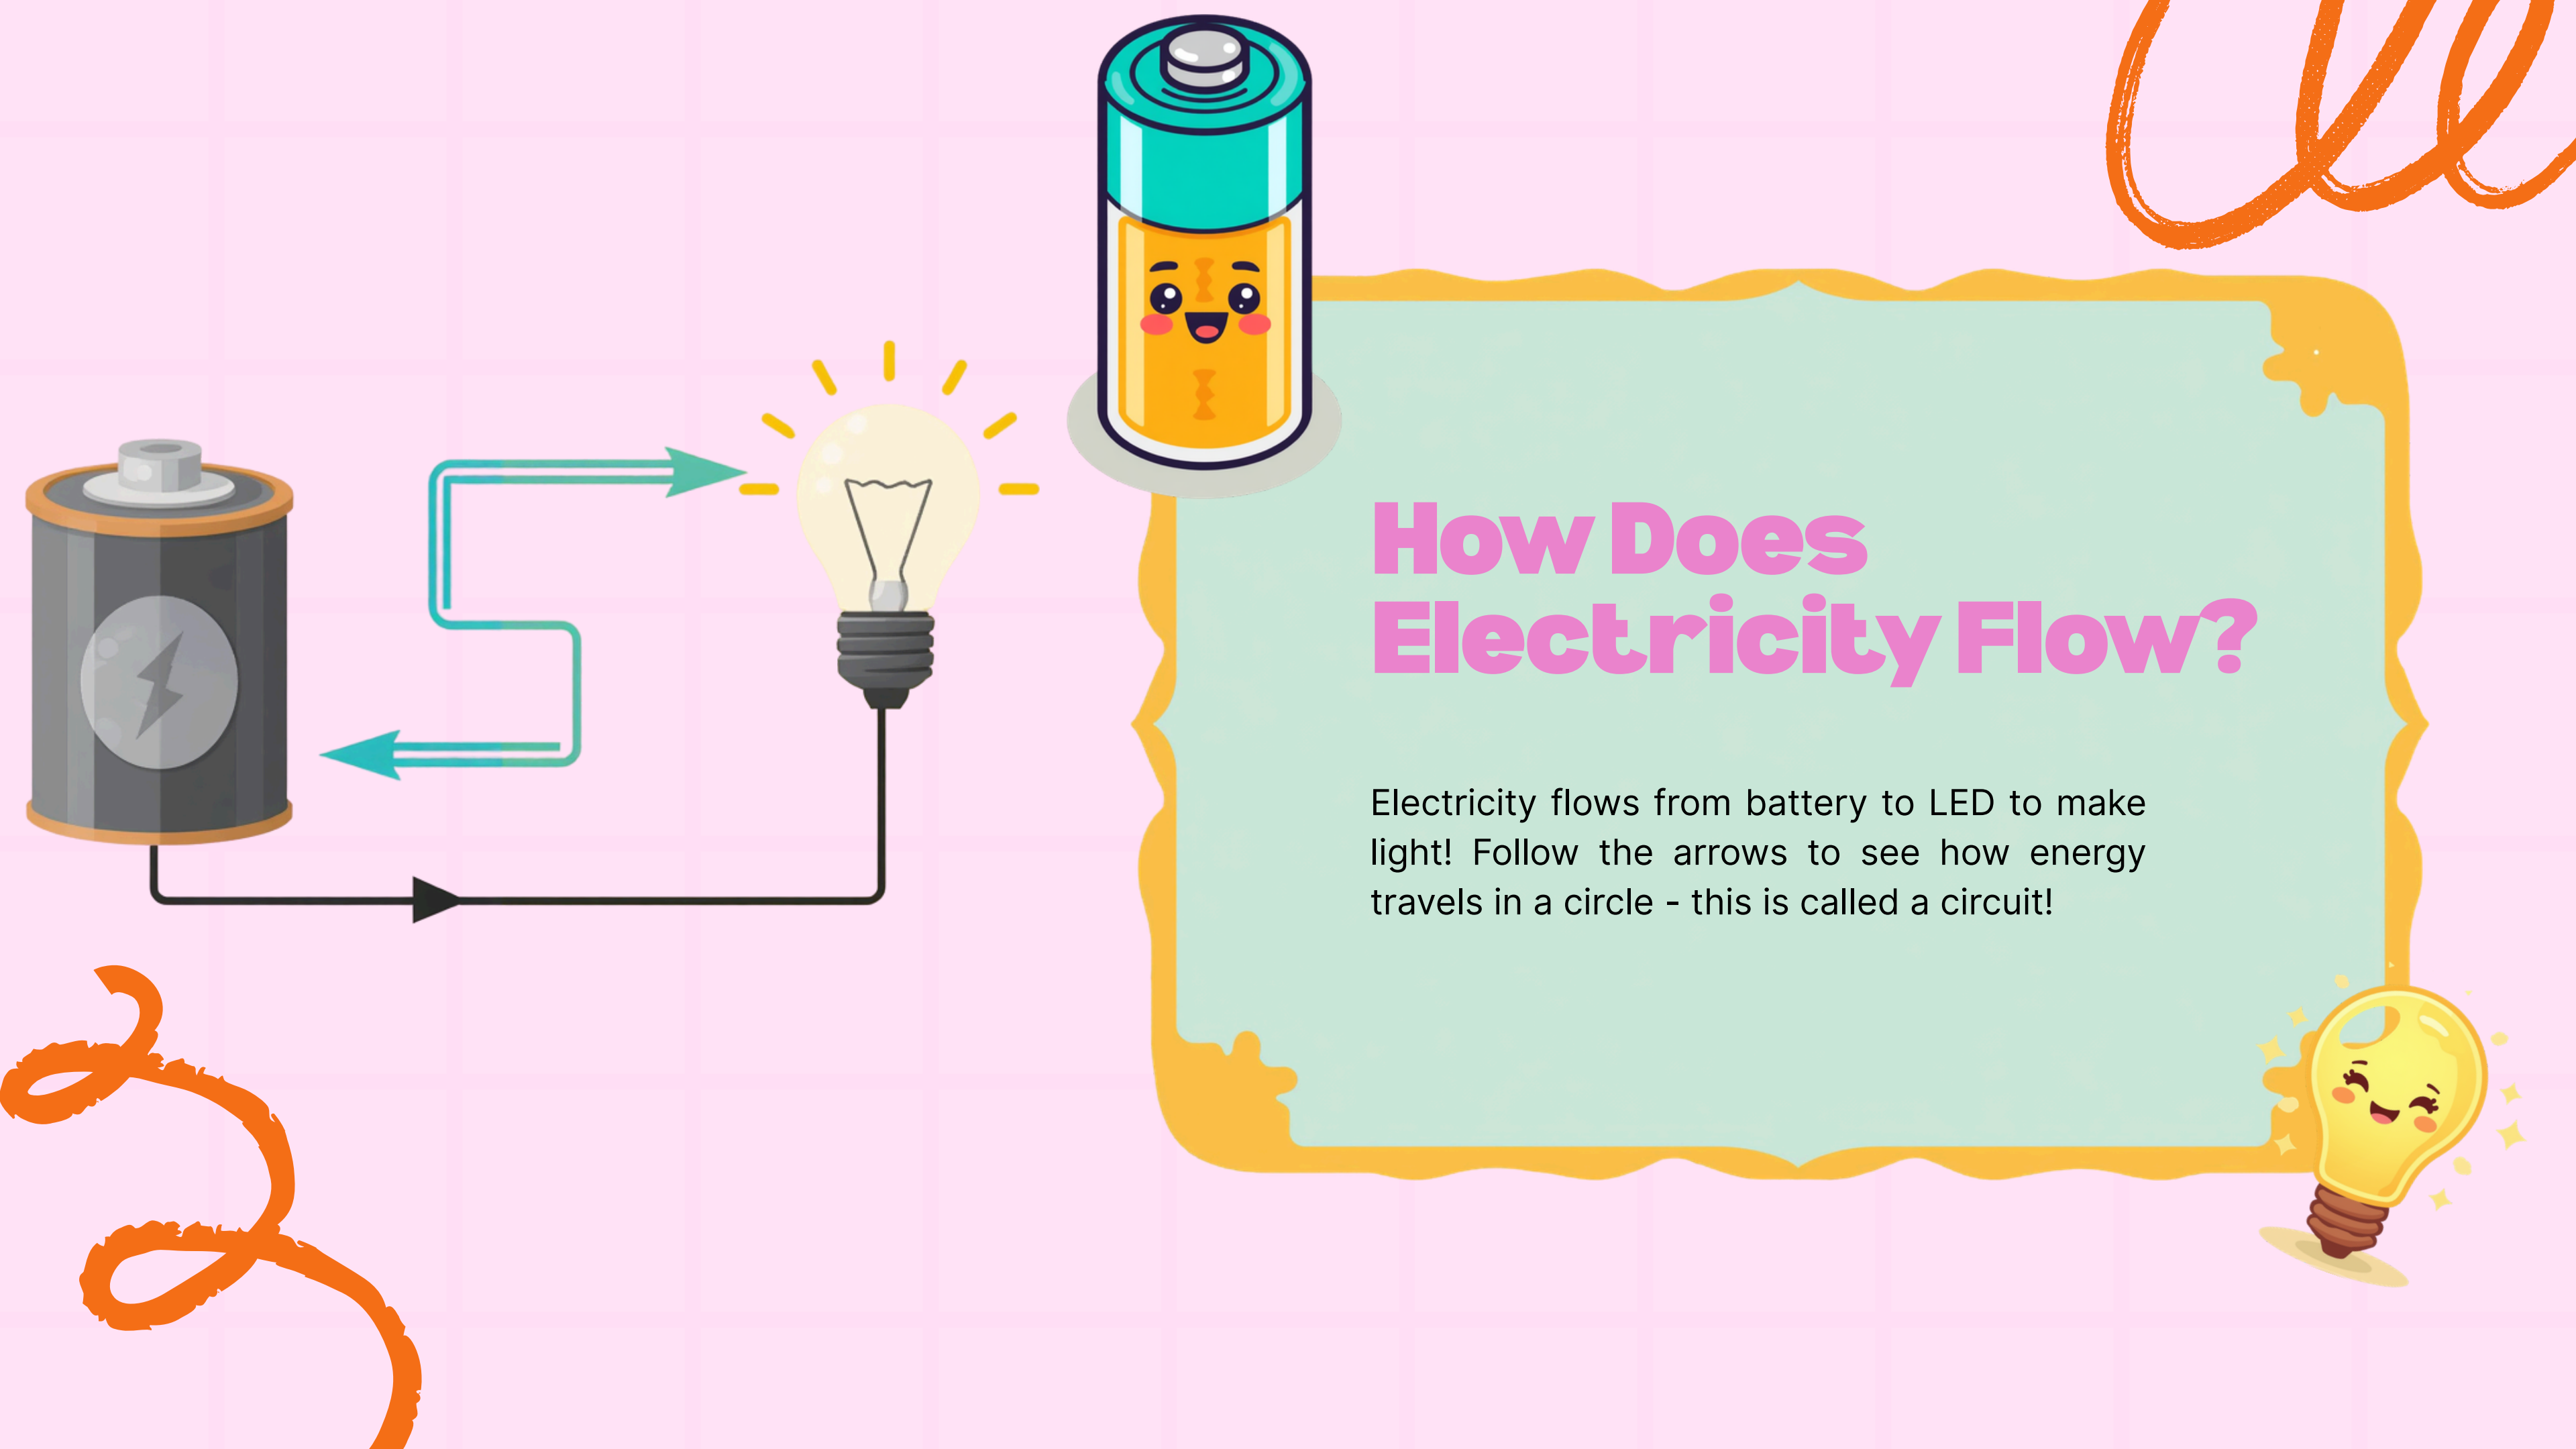

small Priya was scared of the dark at night. But then she remembered Deepavali diyas and Jugnu fireflies! "Let that light come !" she smiled happily.

# What Makes the Light Glow?

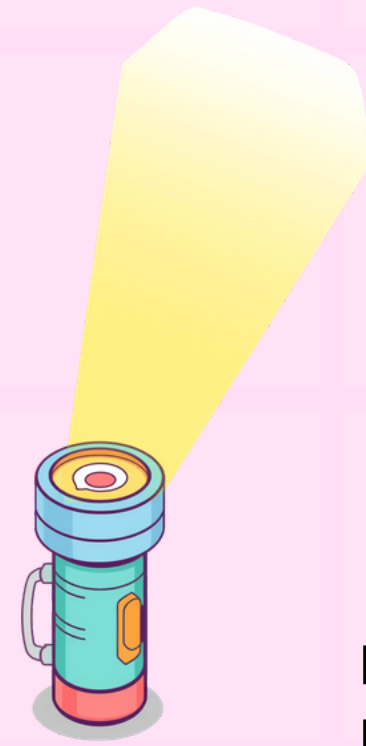

"The battery gives power to the small LED. Connect the long leg to + and short leg to -."

# How Does Electricity Flow?

Electricity flows from battery to LED to make light! Follow the arrows to see how energy travels in a circle - this is called a circuit!

# See How Light Passes Through!

Light passes through some things!  
Let's see which materials let light  
shine through and which ones block it.

Transparent  
Sweet Box

Translucent  
Paper Chai Cup

Opaque Jar - Light  
Cannot Pass!

Sweet box box

# Keeping It Safe!

Always follow these safety tips when making your night light. Safety first, bachche!

**Cover with tape  
(Insulation)**

**No big batteries  
or tools**

**Keep hands dry and  
clean**

# Clever fixTime! Upcycling Materials

**Old Horlicks Jar**

**Transparent  
Sweet Box**

**Rangoli Paper**

**Paper Tea cup**

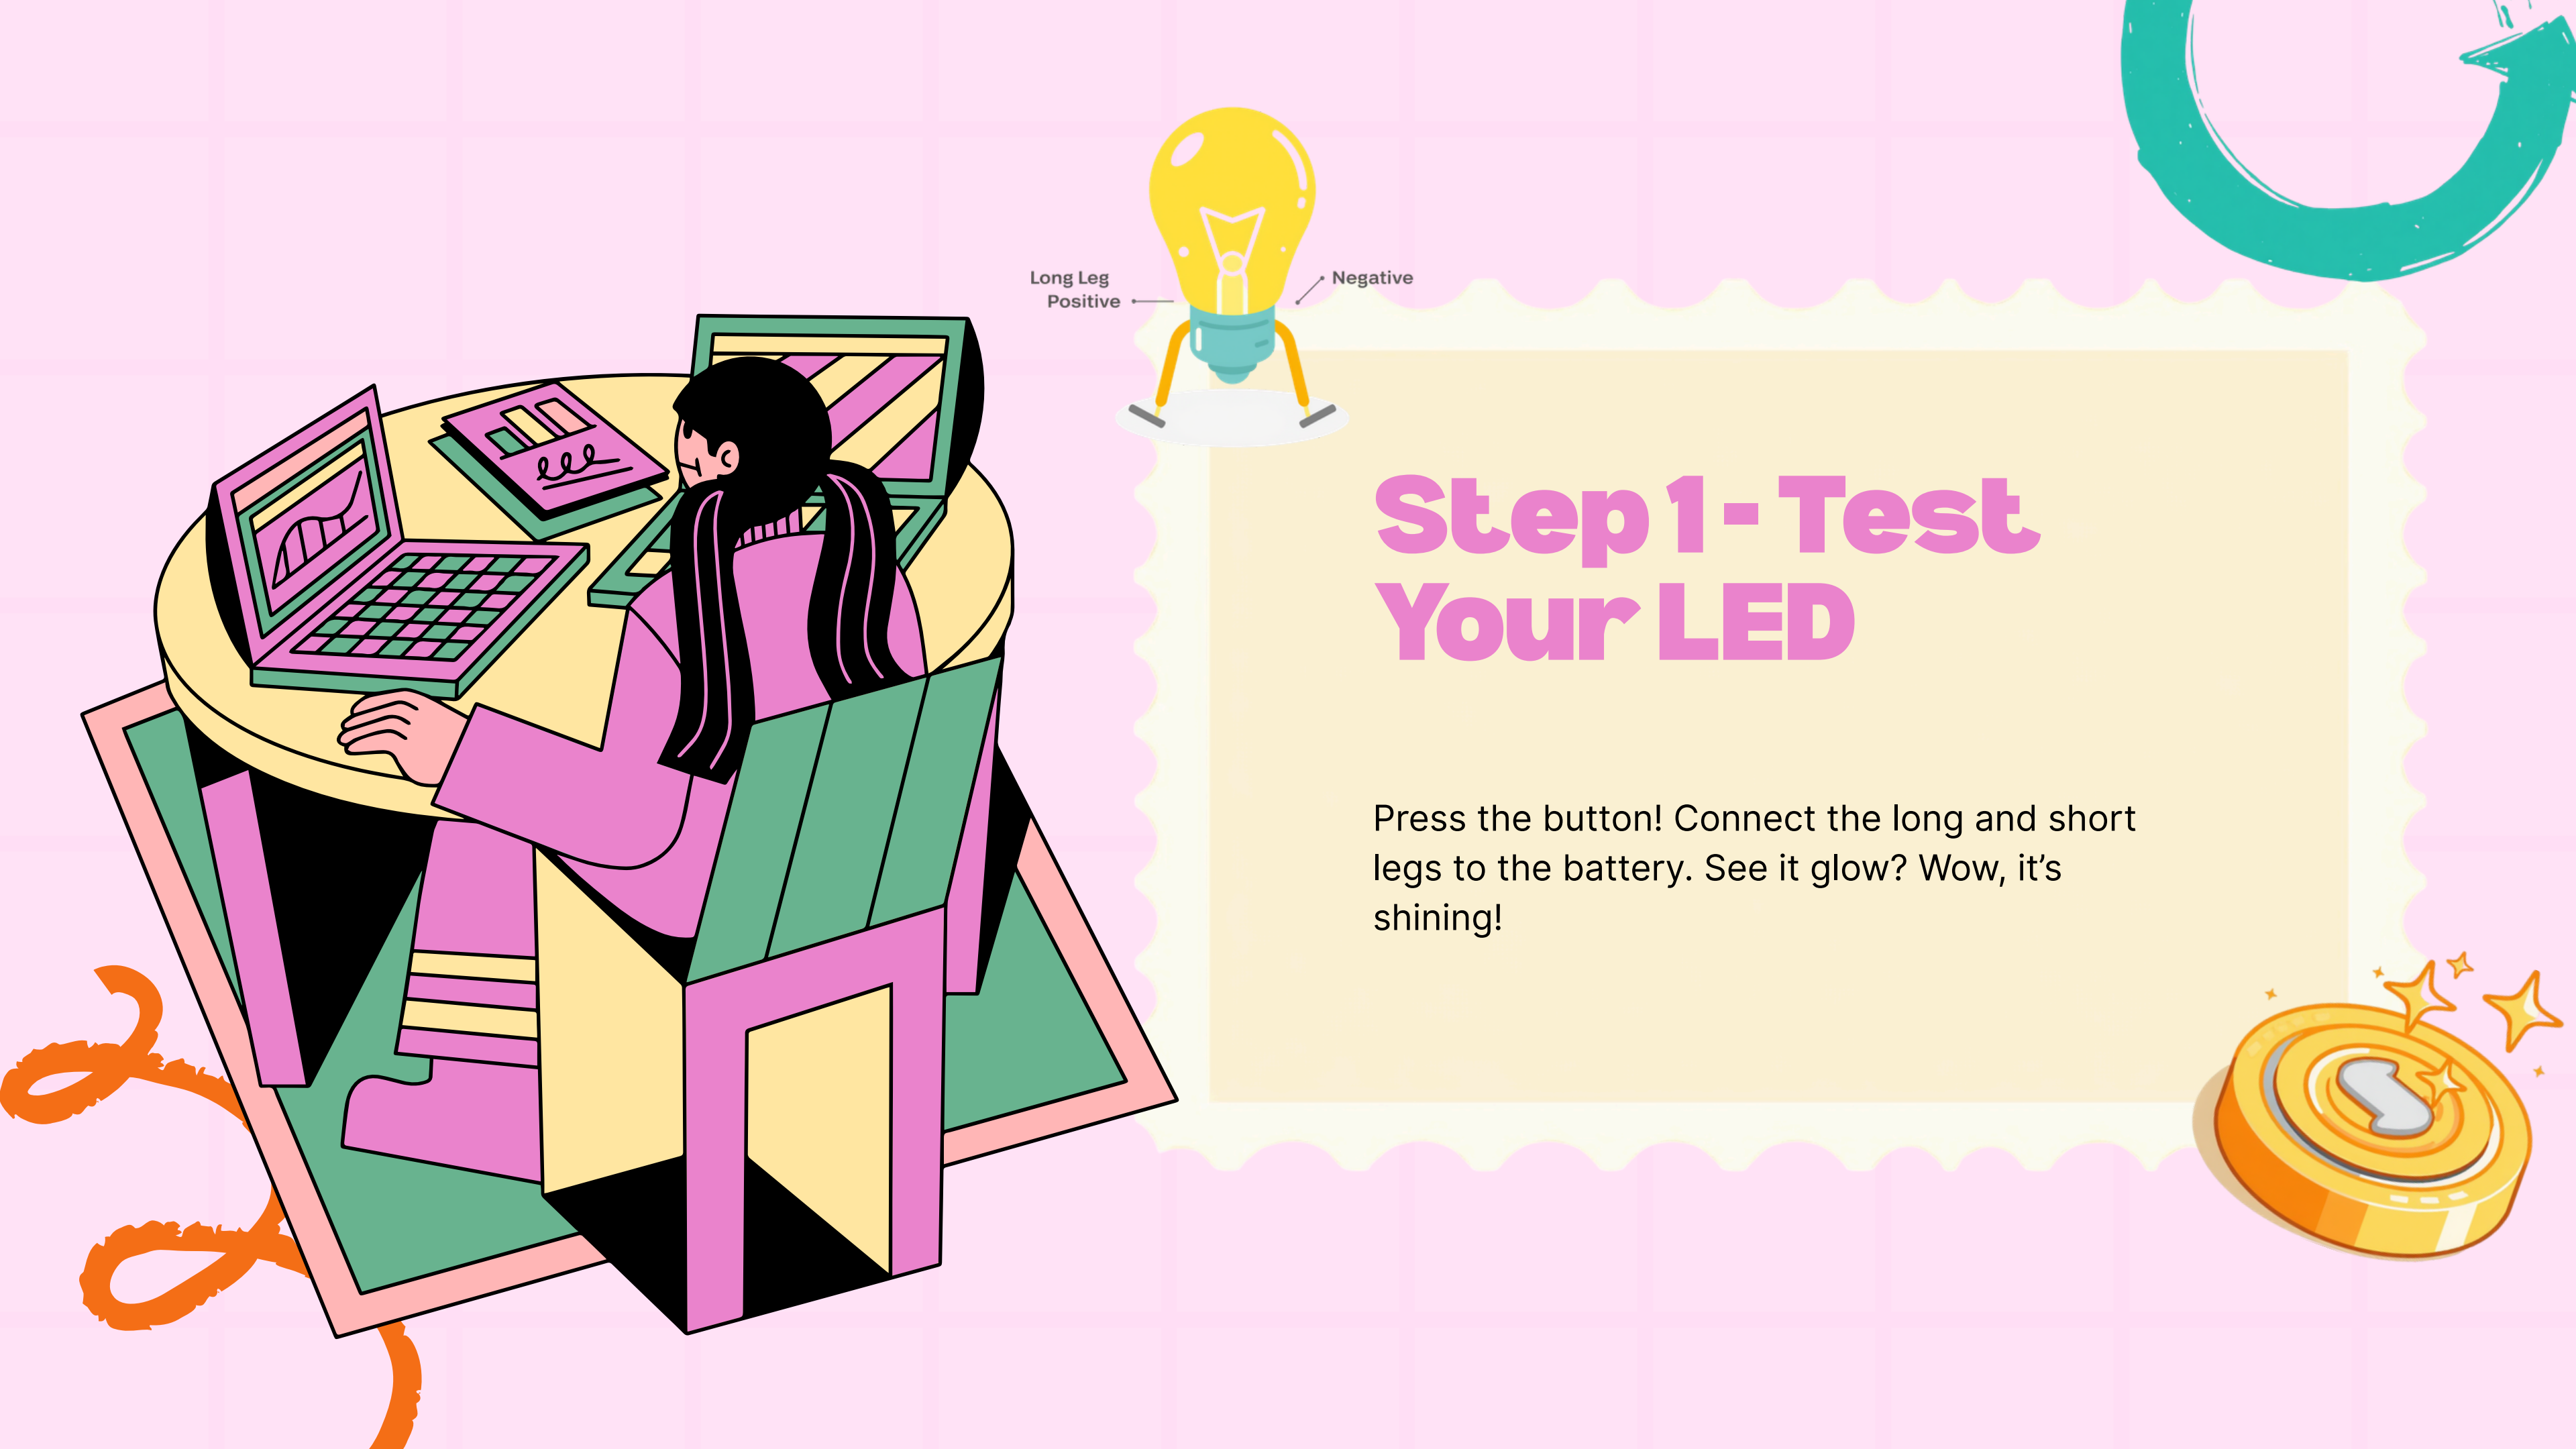

**Colorful Stickers**

**Creative Reuse -  
Clever fix**

Long Leg  
Positive

Negative

## Step 1 - Test Your LED

Press the button! Connect the long and short legs to the battery. See it glow? Wow, it's shining!

## Step 2 - Decorate Your Jar!

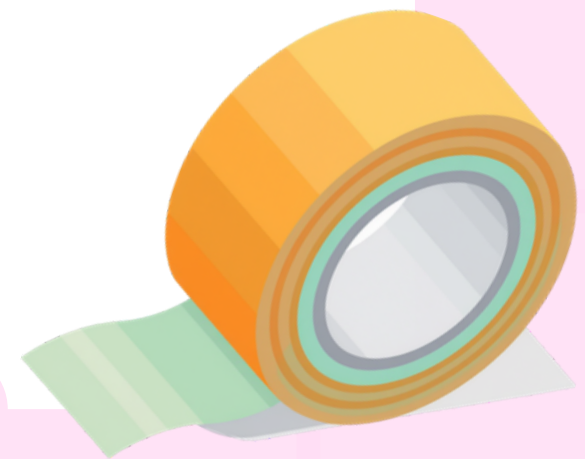

Stick colorful patterns like Diwali Rangoli on your jar! Use paper cut-outs, stickers, and bright colors. Make it YOUR special night light!

## Step 3 - Fix the Light Inside

Place LED and battery inside jar safely. Tape the connections tight! Close the jar and make it neat. "Attach it carefully!"

# The Magic Moment!

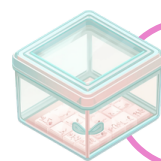

Turn off the lights and see the magic glow!  
Your night light is ready to shine! Wow! How beautiful !

# Quiz Time! Which One Lets Light Pass?

Look at the three containers below.  
Which one lets light shine through?  
Point to the correct answer!

**Transparent  
Sweet Box**

**Paper Tea Cup✓**

**Opaque Jar**

## Quiz Time! What Makes the Light Glow?

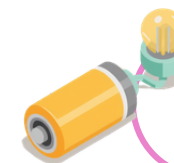

What gives energy to the light? Look at the pictures below and pick the correct answer!

**Battery (Electricity source)✓**

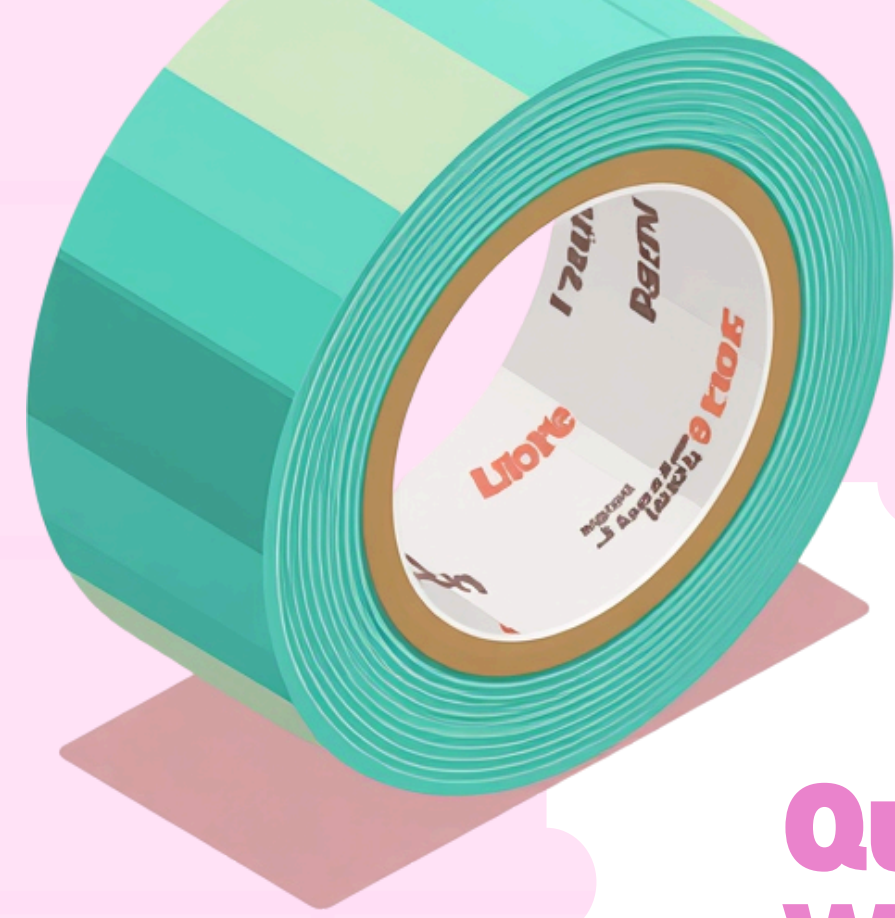

**LED (Small Light)**

**Closed Circuit (Wire loop)**

## Quiz Time! How Do We Keep It Safe?

Which one is safe to touch? Look at the wires below and pick the right answer!

**Taped Wires  
(Safe!)**

**Untaped Wires  
(Not Safe!)**

**Always use tape for  
safety!**

# Well Done! Show and Tell

Great job! Show your night light to Daadi and family. Night light keeps you safe and happy. Thank You! Let's clean up together!
