

Pie Charts: Draw & Interpret with Fun!

Grade 4 Math Lesson • Master Circle Graphs Easily!

? What Is a Pie Chart?

A pie chart shows how **parts make a whole** — just like slices of a pizza or a chapati!

- Pie charts are **circle graphs**.
- Each slice shows a **part** of the total.
- All slices together make the **full circle (100%)**.

The Chapati / Roti Rule!

Think of a pie chart like a **roti cut into slices**! The bigger the slice, the more of that part you have. Just like when you share a tasty roti with your best friends!

Look! Which Snack is the Yummiest?

Let's look at our favorite snacks pie chart!

- **30%** **Samosas** are the biggest slice — most loved!
- **25%** **Jalebis** come second!
- **20%** **Pakoras**
- **15%** **Ladoos**
- **10%** **Namkeen** is the smallest slice!

How Do We Get to School?

Let's see how students travel every morning:

- **Walking:** 40% (Biggest slice!)
- **Bicycle:** 25%
- **Bus:** 20%
- **Car:** 10%
- **Other:** 5%

Let's Compare Fruits & Veggies!

Comparing two pie charts side-by-side:

- **Favorite Fruits:** Mango (40%), Banana (30%), Apple (20%), Orange (10%).
- **Favorite Veggies:** Carrot (35%), Peas (25%), Tomato (20%), Spinach (20%).

Notice how **Mango** is the top fruit, while **Carrot** leads the vegetables!

How to Draw Your Own Pie Chart in 4 Easy Steps!

1. **Step 1:** Choose your favorite things (snacks, toys, sports, fruits).
2. **Step 2:** Count how many of each item or category you have.
3. **Step 3:** Draw a circle and divide it into slices (bigger numbers get bigger slices!).
4. **Step 4:** Color each slice and label it clearly!

Student Practice Worksheet

Grade 4 Math: Pie Charts - Draw & Interpret

Name: _____

Date: _____

Question 1: What shape is a pie chart?

.....

Question 2: In a pie chart, what does the entire circle represent?

.....

Question 3: According to the snack pie chart in your lesson, which snack is the most popular?

.....

Question 4: Which snack has the smallest slice in the snack pie chart?

.....

Question 5: If a slice in a pie chart is bigger than another slice, what does that mean?

.....

Question 6: How do most students get to school according to the school travel chart?

.....

Question 7: True or False: All the slices in a pie chart must add up to 100%.

.....

Question 8: In the fruit chart, which fruit has a larger slice: Apple (20%) or Mango (40%)?

.....

Question 9: What is the first step in drawing your own pie chart?

.....

Question 10: In the favorite vegetables comparison, which vegetable had the biggest slice?

.....

Question 11: If 25% of students like Jalebi and 20% like Pakoras, which snack do more students prefer?

.....

Question 12: Why is a pie chart often compared to a pizza or a roti?

.....

Question 13: Draw & Color: If 50% of your class likes Ice Cream and 50% likes Cake, draw a circle below and split it into the correct slices!

Question 14: Fill in the blank: The slice for Walking (40%) is _____ (larger / smaller) than the slice for Bus (20%).
