

Our Digital Citizenship Pledge

Welcome to the Digital World!

We all explore and learn in the digital world every day! From fun games to exciting lessons, technology helps us discover new things and connect with friends.

Tablets, computers, and the internet are part of our everyday learning. Let's explore together how to use them safely and happily!

What Is Digital Citizenship?

Being a digital citizen means using computers, tablets, and the internet safely and kindly. It's about making good choices when we use technology!

Think of it like being a good friend — online and offline! Just like we share, take turns, and speak nicely to friends at school, we do the same when using devices.

Why Does Digital Citizenship Matter?

Over 90% of kids use digital devices to learn and play every day! Being a good digital citizen helps us stay safe, make friends, and learn amazing new things. When we use technology kindly and carefully, everyone has a better time online!

How Can We Be Good?

Being a good digital citizen is easy! Just follow these four simple rules every day. Remember to be kind to others, protect your personal information, ask for help when needed, and use your devices wisely for learning and having fun!

Be Kind Online

Keep Info Private

Ask an Adult

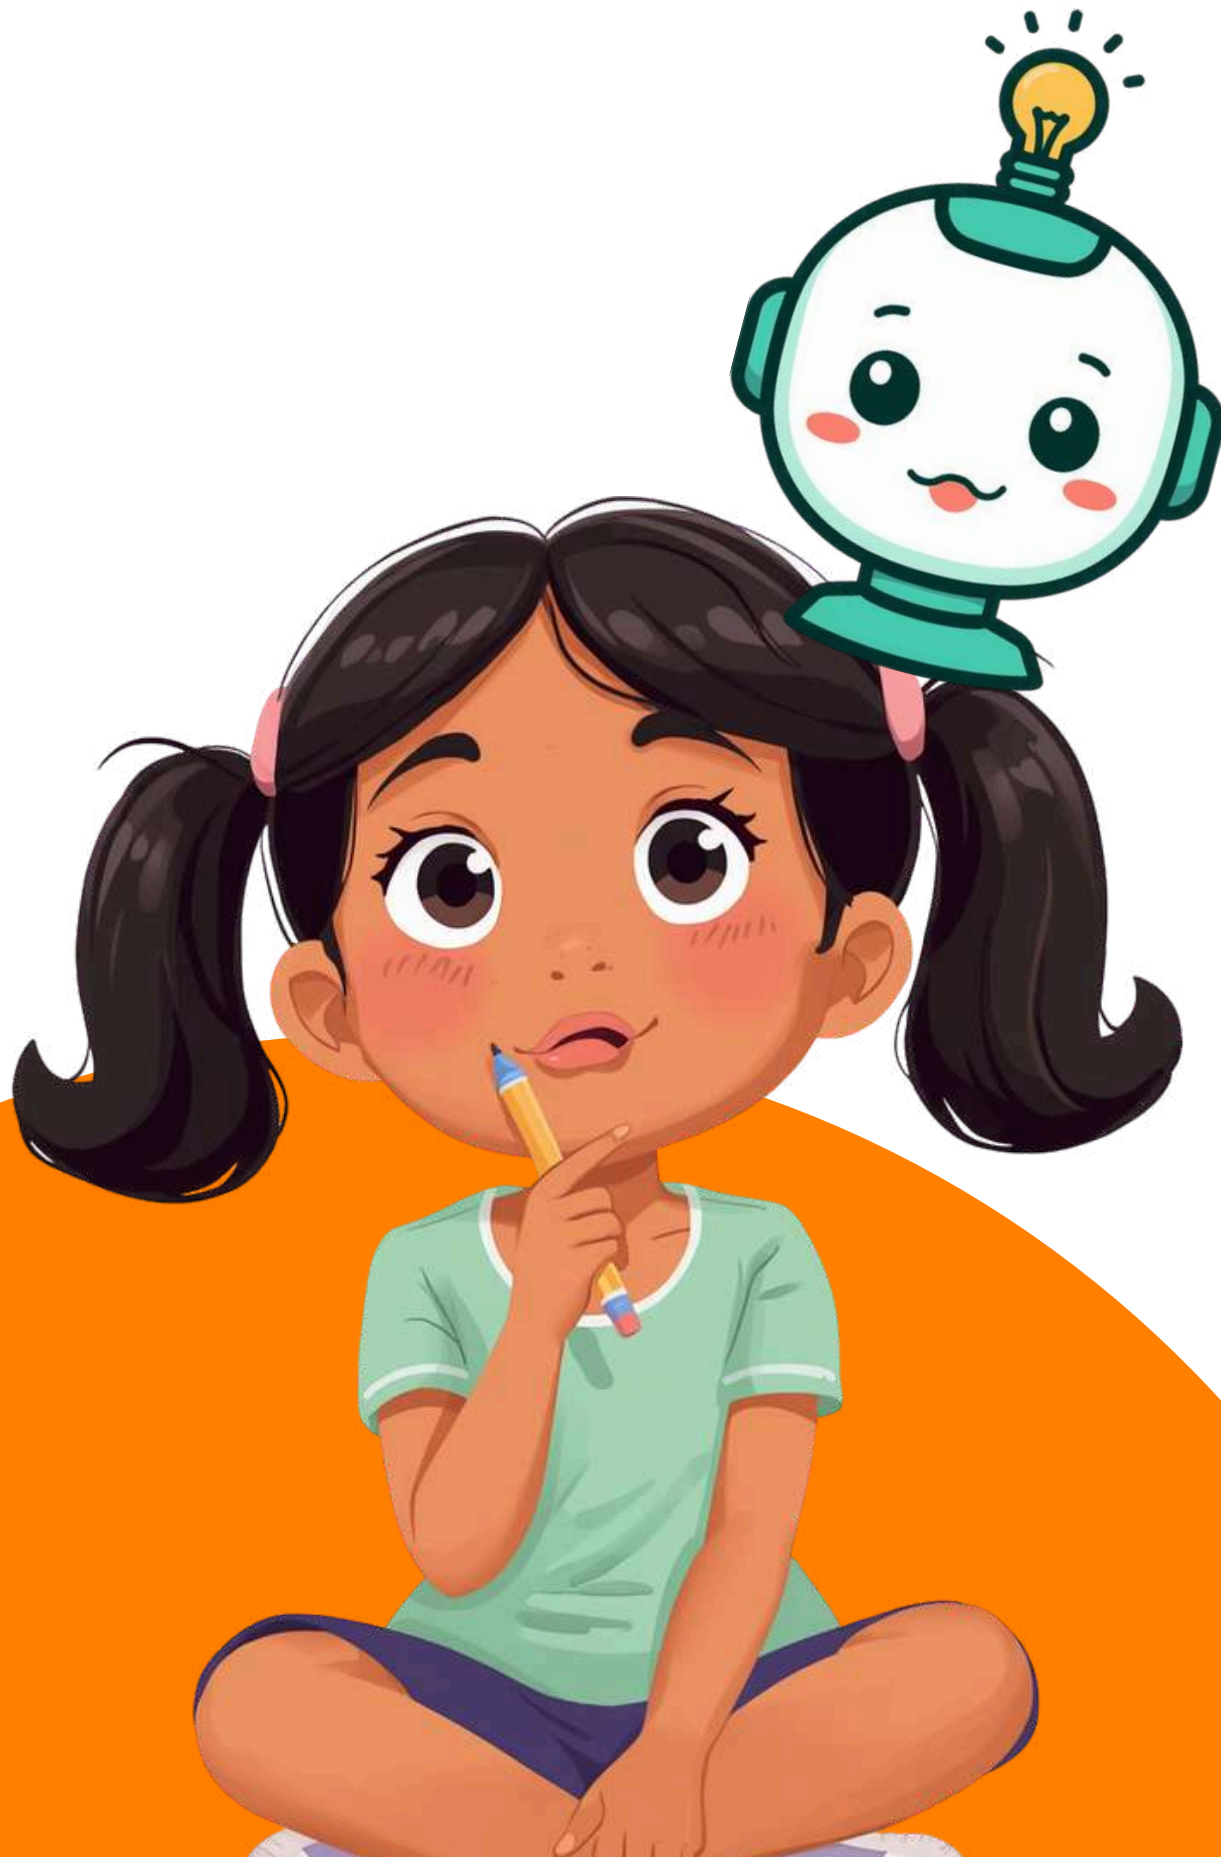

Learn and Play

What Is AI and Digital Technology?

AI means smart computers that help us learn and play! AI stands for Artificial Intelligence. These clever helpers can talk to us, answer questions, and make learning fun with games and activities.

Examples you might know: Voice assistants like Alexa or Google that answer your questions, educational games that teach you math and reading, and apps that help you draw and create!

Staying Safe with AI & Digital Tools

When we use computers, tablets, and smart tools, we need to stay safe! Here are some important tips to remember every time you go online or use digital devices.

Always ask an adult before using new apps.

Don't share passwords or personal info.

Be careful what you click or download.

When unsure, ask a grown-up for help!

Our Digital Citizenship

Pledge — Part 1

Today we begin our special promise to be good digital citizens. This pledge helps us remember how to behave kindly and safely whenever we use computers, tablets, or the internet.

I promise to be kind and respectful when using the internet and devices.

I will treat others online the way I want to be treated.

Our Digital Citizenship

Pledge – Part 2

I promise to keep my personal information safe and private.

This means I will not share my name, address, phone number, or passwords with strangers online. My personal details are special and belong only to me and my family!

Our Digital Citizenship

Pledge — Part 3

I promise to ask for help when I don't understand something online.

It's okay to not know everything! When something confuses me or seems wrong, I will always talk to a trusted adult like my teacher or parent. Asking for help keeps me safe!

Following classroom rules for devices.

Helping friends use tech safely.

Reporting problems to teachers.

Being a team player with technology!

Practicing Our Pledge at School

At school, we practice being good digital citizens every day! We follow the rules our teachers give us for using tablets and computers. This helps everyone learn better and stay safe.

When we see something wrong or confusing online, we always tell our teacher right away. Teachers are there to help us! Being a good digital citizen at school makes learning fun for everyone.

Use devices only with permission from parents.

Take breaks from screens to play and rest.

Talk with parents about online experiences.

Share what you learn and see with family.

Practicing Our Pledge at Home

Home is a great place to practice being a good digital citizen! When we follow these simple rules at home, we stay safe and have more fun with our devices.

Remember, your family is always there to help you! Talk to your parents about what you see and do online. They want to keep you safe and happy.

Being a good digital citizen helps you stay safe, learn more, and make friends! Here are the wonderful benefits of using technology kindly and responsibly every day.

What You Can Do

**Staying Safe and
Happy Online**

**Making New Friends
Respectfully**

**Learning New Things
Every Day**

**Helping Others Use
Technology Well**

Remember This Quote

"Treat others the way you want to be treated — online and offline."

This golden rule helps us be kind and respectful in everything we do, whether we're playing with friends at school or chatting online!

Let's Take the Pledge Together!

Are you ready to be a great digital citizen? Let's make our pledge!

Take the Pledge!
