

SCRATCH JR — MAKE IT MOVE!

Fun, Creative & Easy Coding for Young Learners!

WHAT IS CODING?

Coding is telling a computer what to do by giving it instructions. Just like telling a friend how to play a game!

Computers follow every instruction you give them

Anyone can learn to code — even YOU!

MEET SCRATCH JR!

Scratch Jr is a fun app where you can create stories and games by coding! It is easy to use — just drag colourful blocks to make characters move, talk, and dance. Anyone can be a coder!

Why Learn Coding?

Develops problem-solving skills

Encourages creativity and imagination

Helps understand technology

Builds confidence in young learners

Makes learning fun and interactive!

SCRATCH JR CHARACTERS!

**Choose your favourite character
to bring to life!**

Scratch Jr has lots of fun characters — animals, kids, and more! Pick the one you love and start coding your very own story or adventure.

www.scratchjr.org

A cartoon illustration of a young boy and a young girl standing together and looking at a tablet. The boy, on the left, has dark skin, curly black hair, and is wearing a green t-shirt, red shorts, white socks, and teal sneakers. The girl, on the right, has dark skin, black hair in a bun with a pink polka-dot bow, and is wearing a yellow t-shirt, teal shorts, and pink sneakers. They are both smiling. The tablet is white with a silver Apple logo. The background is a solid light beige color. There are small decorative elements: a purple square with a white 'x' on the right and an orange square at the bottom right corner.

 Jump — Leap up and come back

 Repeat — Do it again and again!

Each colourful block tells your character what to do. Drag and drop them to build your code!

How to Make Your Character Move

Step 1: Open Scratch Jr on your tablet or device

Step 2: Tap on your favourite character to select it

Step 3: Drag the "move forward" block to the coding area

Step 4: Connect the block to the green flag block

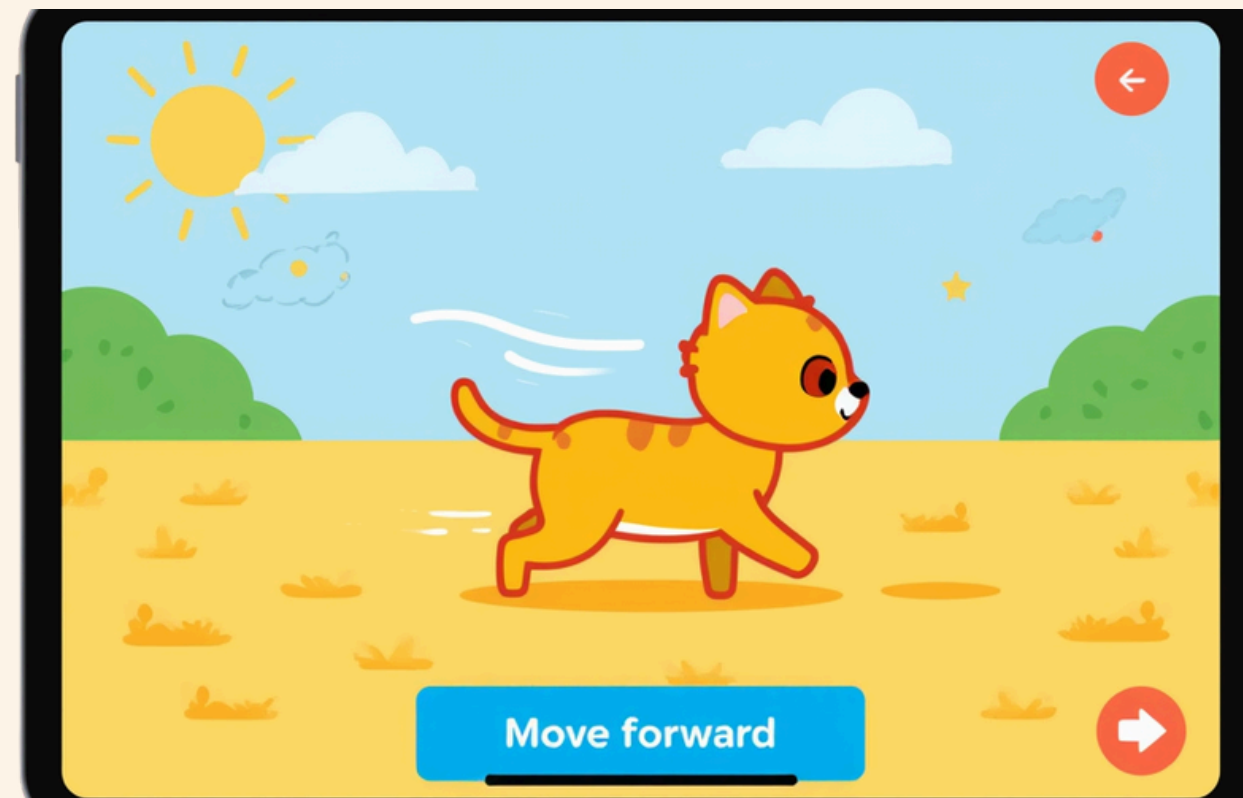

Step 5: Press the green flag and watch it move!

DEMO: MOVE FORWARD!

Watch your character move forward when you use this block!

Drag the Move Forward block  Press the green flag  See your character go!

DEMO EXAMPLE 2: TURN AROUND!

Use the turn block to make your character look another way!
Drag the turn block to your coding area, press the green flag,
and watch your character spin around. Try turning left or
right!

Sequence 1: Move & Turn!

Move Forward → Turn → Move Forward

Drag the move block, then a turn block, then move again. Watch your character walk and look a new way!

Sequence 2: Jump & Sound!

Jump → Move Forward → Sound

Make your character jump, then walk forward, then play a fun sound. Put blocks together to create cool actions!

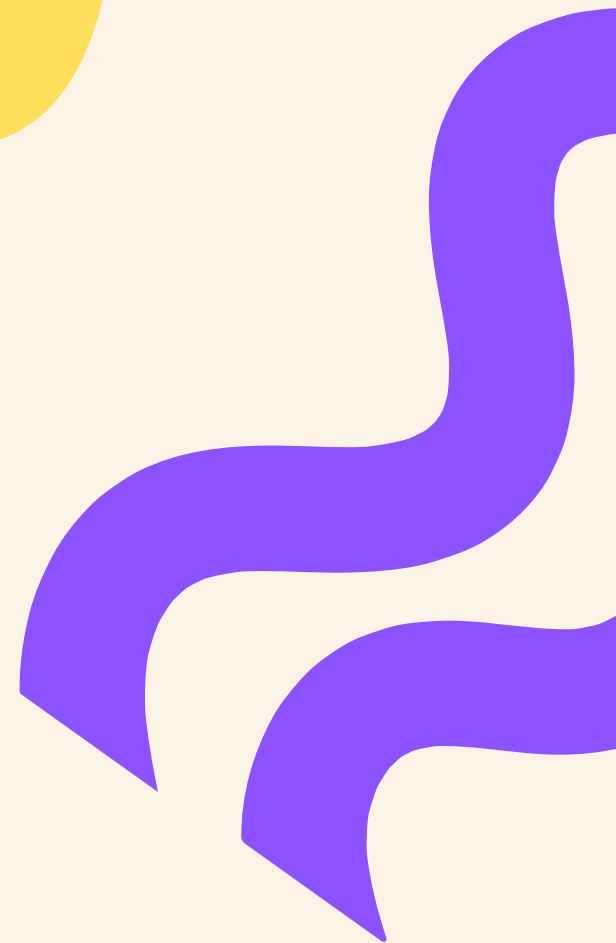

REPEAT AND LOOPS!

Use the repeat block to do things again and again! Loops help your character keep moving without adding lots of blocks.

Repeat block wraps around your move blocks

Move forward + Repeat = keeps going and going!

Tips for Being Creative

Try new characters in Scratch Jr

Mix sounds and movements together

Tell a story with your code

Share your creations with friends

Experiment and have fun coding!

Fun Coding Ideas

Try these fun projects in Scratch Jr! Use blocks to make your character do amazing things. Let your imagination run wild!

Make your character
dance to music!

Show your character
exploring a jungle!

Build a story with two
characters!

Create a mini race
game with friends!

Make it rain with sound
effects!

Make your character
jump and spin!

Summary: What Did We Learn?

Coding means giving
instructions

Scratch Jr uses colourful blocks

Blocks make characters move and turn

Repeat blocks do actions again and again

Creativity makes coding super fun!

Great work today! You are now a coding superstar. Keep exploring and have fun with Scratch Jr!

Where to Try Scratch Jr

- 🌐 Visit scratchjr.org to explore the app!
- 📱 Download free from the App Store or Google Play.
- 🎓 Find beginner tutorials on the Scratch Jr website.
- 📺 Watch fun how-to videos online with a parent.

Getting Started!

Ask your teacher or parent to help you get started! They can download the app, set up your first project, and explore Scratch Jr together with you. Happy coding!

THANK YOU &
KEEP CODING!

Thank you for learning with us! Keep coding and have fun!
