

Measurement Scavenger Hunt

Let's Play - Guess the Longest!

Look at these objects from your classroom. Can you guess which one is the LONGEST in each group? Point to your answer!

Pencil vs Crayon vs Ruler

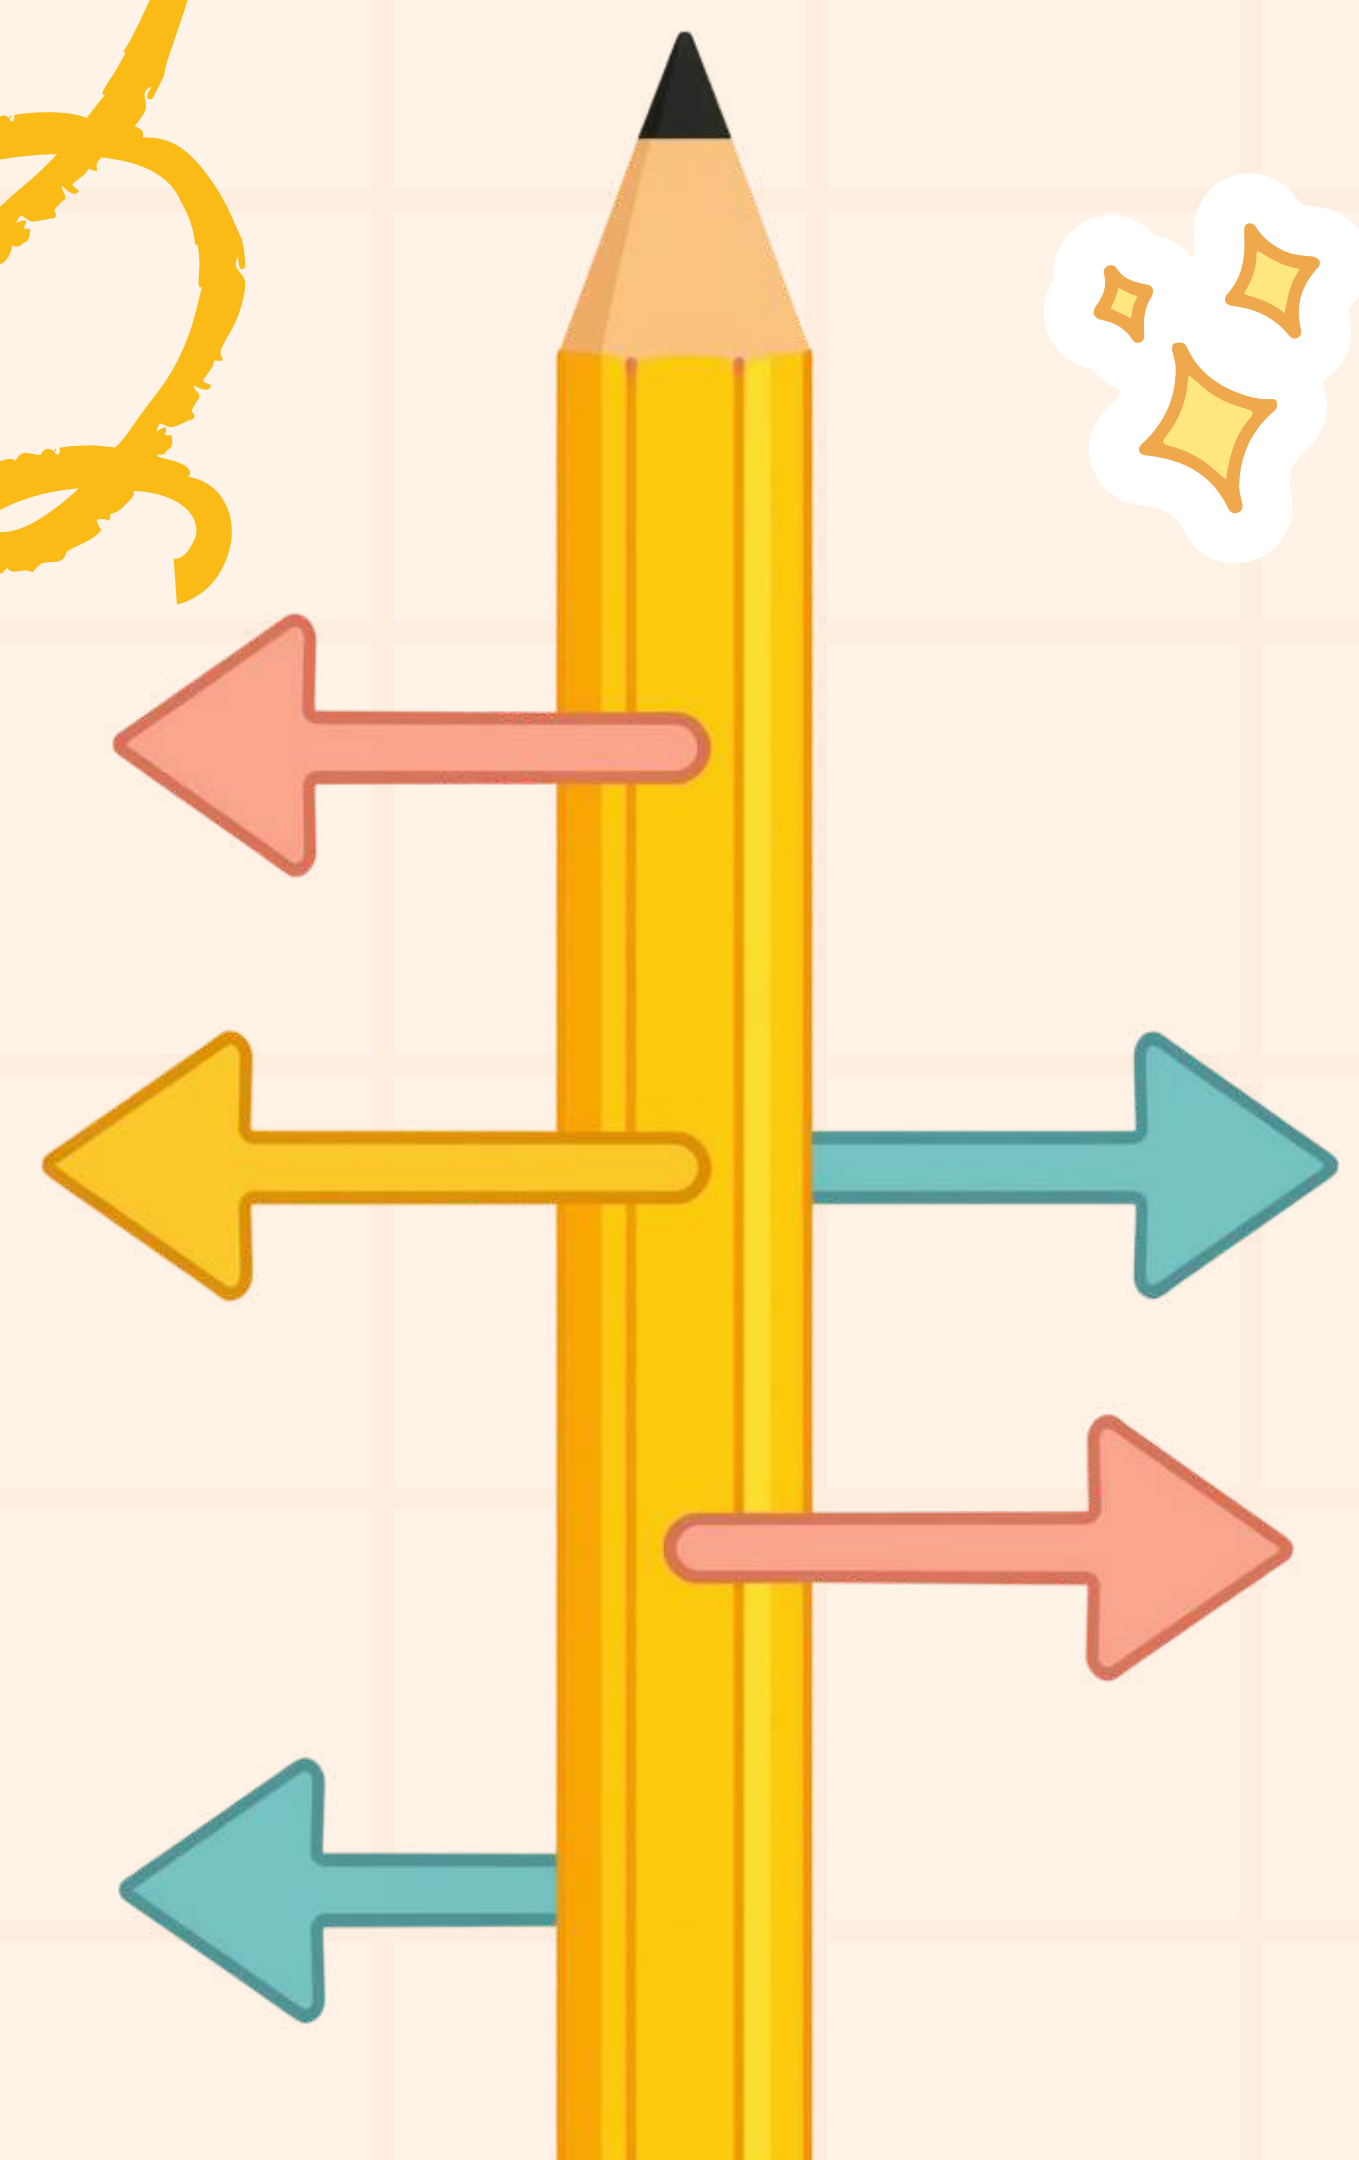

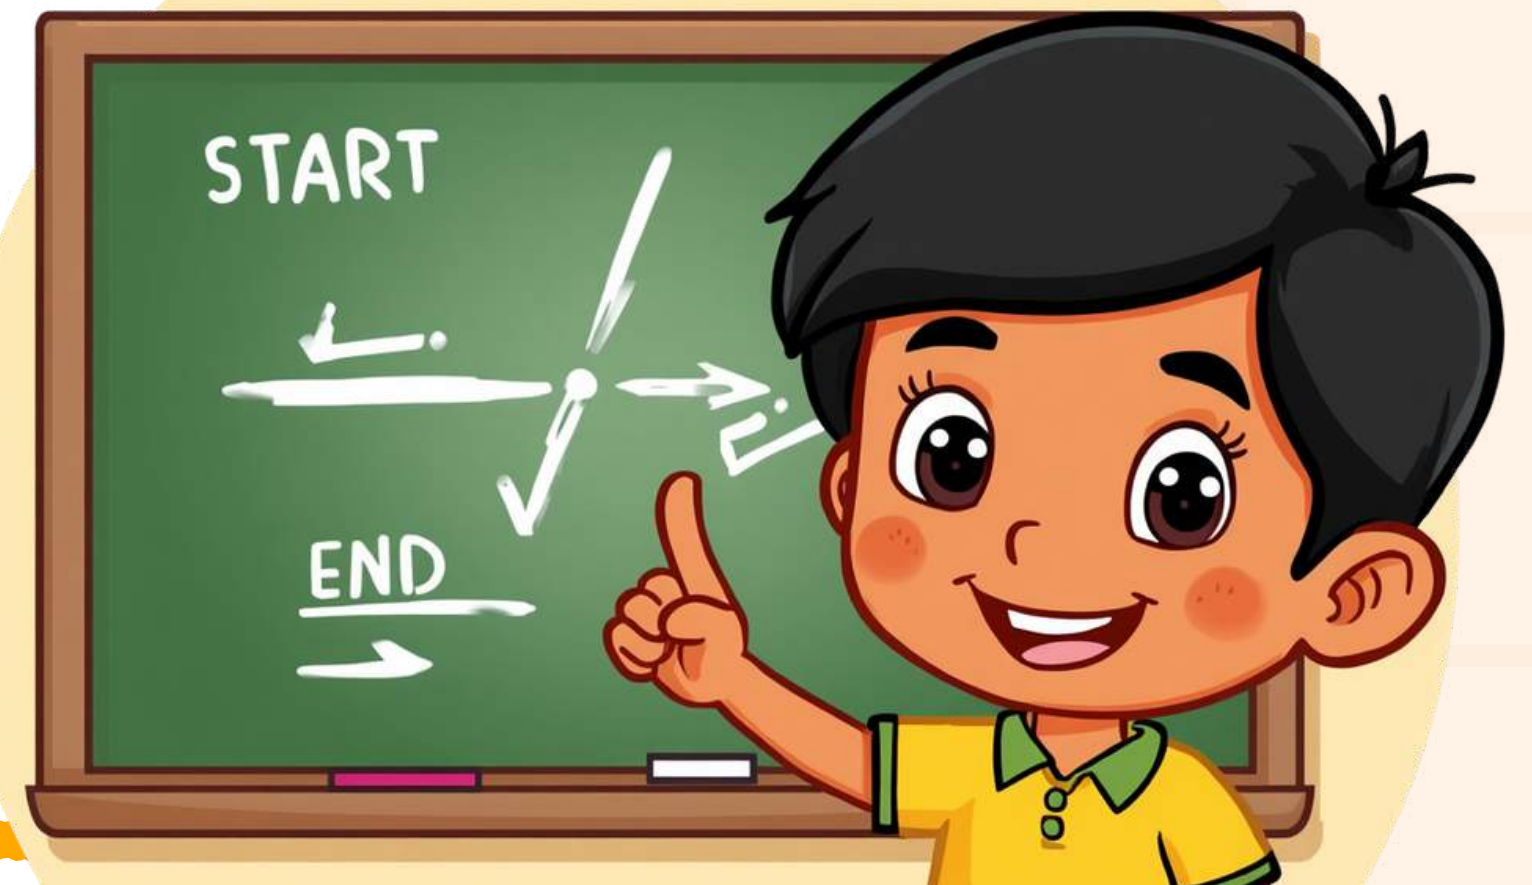

Duster vs Chalk box vs Chalk piece

Which one is the LONGEST?

What is Length?

Length is how long or tall something is from one end to the other!

Let's Compare!

When we put objects next to each other, we can see which is LONGER or SHORTER or the SAME LENGTH!

Our Measurement Words

Let's learn special words to talk about how long or short things are!

LONG / LONGER / LONGEST

SHORT / SHORTER / SHORTEST

TALL / TALLER / TALLEST

Measure with Your Hand Span!

Spread your hand wide. Place thumb at start. Count how many hand spans!

Example: "My notebook is 2 hand spans long!"

Use your hand span to measure!

Step 1: Spread your hand wide with your thumb and little finger apart.

Step 2: Place your thumb at the starting point.

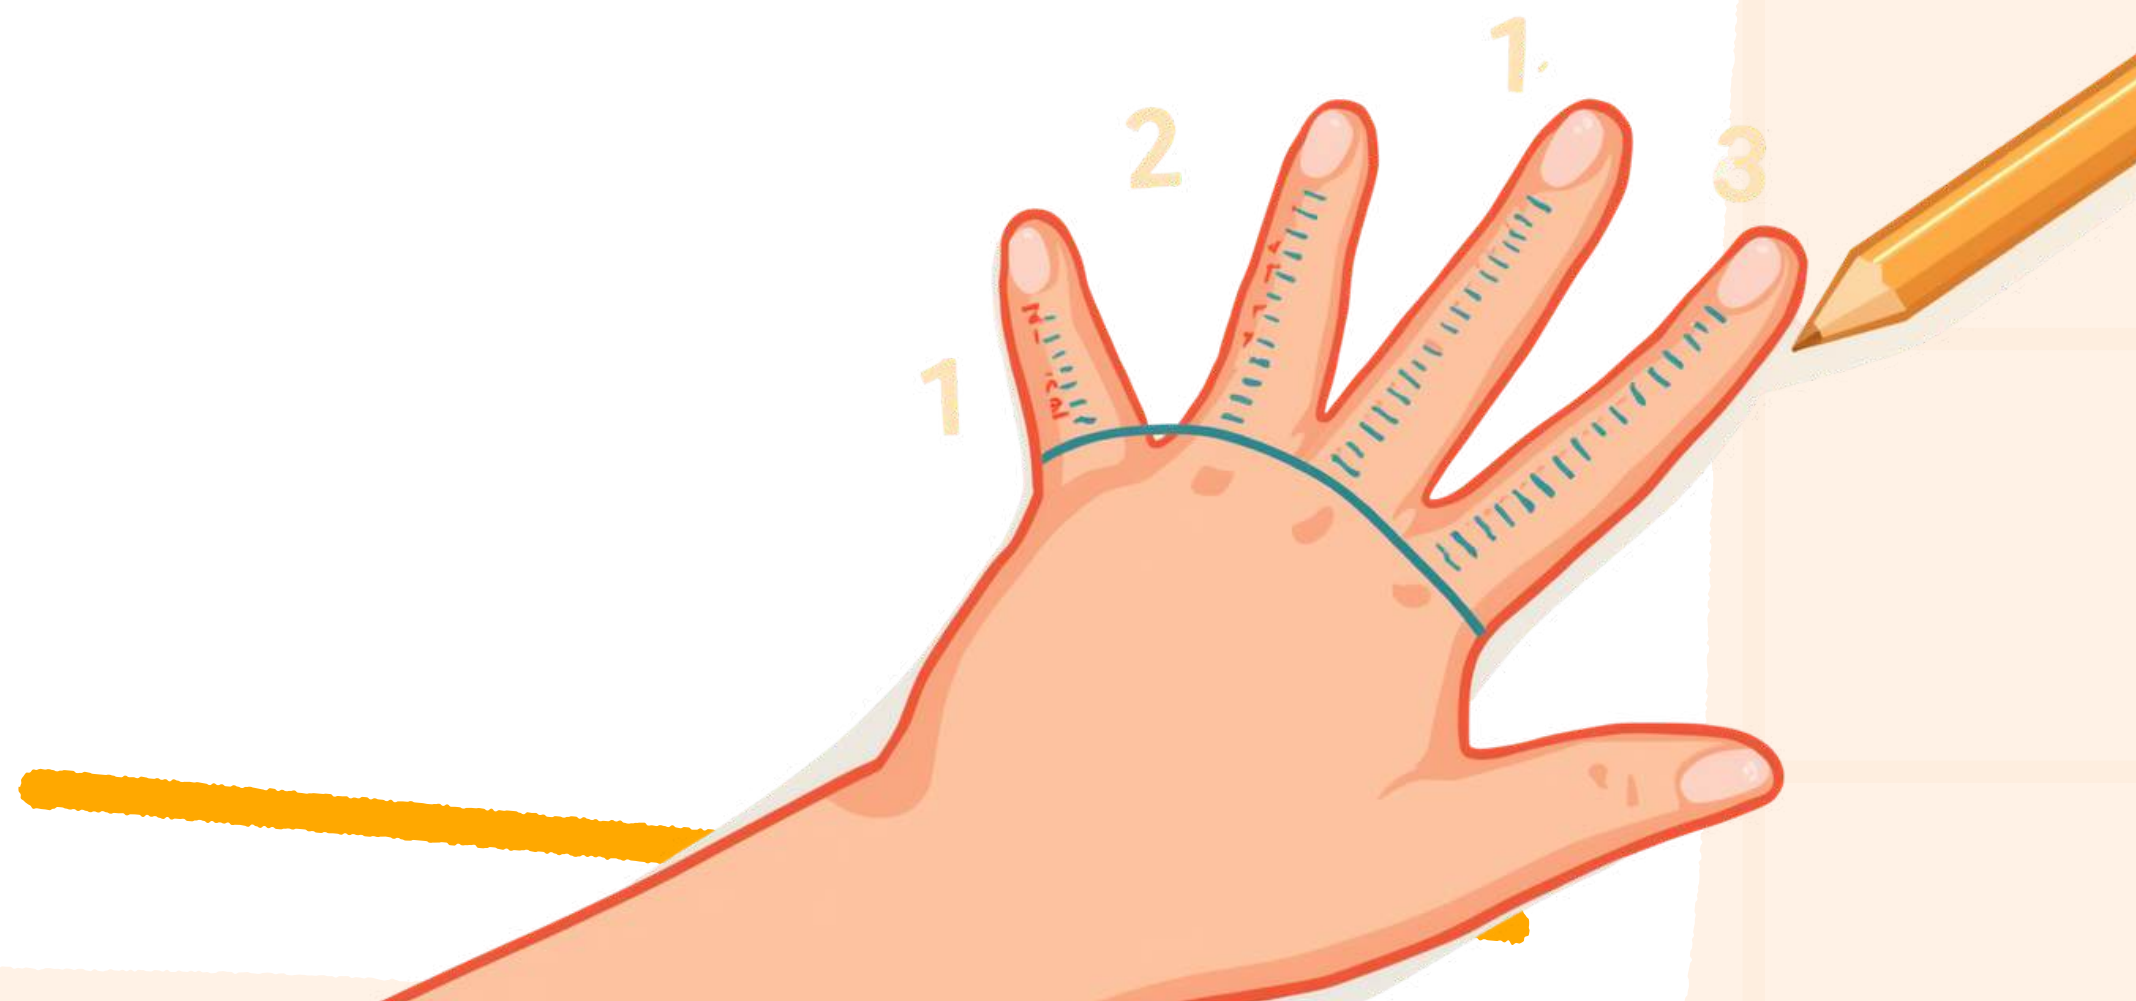

Step 3: Count how many hand spans to the ending point.

Measure with Your Fingers!

Place your finger flat on the object. Count how many finger widths!

Example: "My pencil is 3 finger widths long!"

Measure with Your Footsteps!

Walk heel-to-toe across the floor. Count your steps as you go! Be careful when you stand up!

Walk heel-to-toe in a straight line

Count each step carefully

"From the door to my chair is 6 footsteps!"

Did You Know?

Long ago in India, cloth merchants measured fabric using their arm – from elbow to fingertip. This was called a 'HAATH'!

H.I.A.S

Watch Me Hunt!

Watch your teacher show you how to be a measurement explorer!
Follow along and get ready for your own hunt!

Step 1: Find something **LONGER**
than your pencil

Step 2: Measure your notebook
using **HAND SPAN**

Count carefully!

Your Measurement Scavenger Hunt!

Here's your hunt card! Find these objects in your classroom and measure them carefully. Write down your answers!

Measure your pencil (finger widths)

Measure your book (hand spans)

Measure your desk (footsteps)

Now It's YOUR Turn to Hunt!

Follow these steps to become a measurement explorer! Take your Hunt Card and start your adventure. Remember to be careful and have fun!

Look at your Hunt Card and find each object

Measure carefully and write your answer

Compare with friends and share what you found!

44	2
22	2
199	15
150	5
112	5
215	15
118	
620	

What Did You Find?

- Share with your friends!
- "I measured my _____."
- It is ___ hand spans long.
- It is longer/shorter than _____."

Let's Check! Which is Longer?

Stretch your arms wide for the LONGER one! Look at the ruler and crayon below – which one is longer?

You Are Measurement Explorers!

Well Done! You learned to measure like the old merchants did!
Here's what we discovered today:

Length is how long something is from one end to the other

We can COMPARE objects to find longer and shorter

We measure with hand spans, fingers, and footsteps!

Try This at Home!

Keep exploring! Measure 3 things in your home using your hand spans and finger widths. Ask your family to help!

A vegetable (cucumber or beans)

Your tiffin box

Your chappal (slipper)
