

Clock Challenge

Time Races — Lesson Plan

Subject	Mathematics — Measurement & Time
Level	Primary (Ages 6–7)
Duration	45 – 60 minutes
Strand	Number Sense & Measurement
Curriculum Link	Telling time to the hour (o'clock)

Sample Clock Times Taught in This Lesson

7 o'clock

12 o'clock

3 o'clock

9 o'clock

Lesson Overview

In this engaging lesson, students explore telling time to the hour (o'clock) through a relatable story: **Arjun missed his school bus!** Using two friendly clock-hand characters — **Chotu** (short red hour hand) and **Lambu** (long blue minute hand) — students learn to read analogue clocks, connect times to daily events, and build confidence through a fast-paced Clock Challenge Race.

1. Learning Objectives

#	Objective	Bloom's Level
1	Identify the parts of an analogue clock (face, numbers, hour hand, minute hand).	Remember
2	Distinguish between the short hand (Chotu) and the long hand (Lambu).	Understand
3	Read and state the time when the minute hand points to 12 (o'clock times).	Apply
4	Match o'clock times to familiar daily events (bus, lunch, sleep, etc.).	Apply
5	Answer time-reading questions within a timed challenge.	Evaluate
6	Draw clock hands to show a given o'clock time.	Create

2. Curriculum Links & Standards

Area	Detail
Mathematics Strand	Measurement and Data — Time
Key Concept	Telling time to the hour using analogue clocks
Prior Knowledge	Counting to 12; recognising numbers 1–12 on a clock face
Next Steps	Half-past times; digital clock notation; 5-minute intervals
21st Century Skills	Problem-solving, critical thinking, quick recall

3. Materials & Resources

- **Digital Slides:** "Clock Challenge: Time Races" slide deck (16 slides, Canva)
- **Demonstration Clock:** Large classroom clock or printable clock face with moveable hands
- **Worksheet:** Clock drawing worksheet — students draw hands for given o'clock times
- **Reward Stars:** Printed star stickers or stamps for correct Challenge answers
- **Timer:** 20-second countdown timer for each Challenge question
- **Stationery:** Pencils, red and blue crayons (to colour Chotu and Lambu)
- **Vocabulary Cards:** Cards showing: clock face, hour hand, minute hand, o'clock

4. Key Vocabulary

Term	Definition	Example in Context
------	------------	--------------------

Clock Challenge: Time Races — Lesson Plan

Clock face	The round surface showing numbers 1–12 in a circle.	"Look at the clock face — numbers go around in a circle!"
Hour hand (Chotu)	The short hand; points to the current hour.	"Chotu is short and red. He tells us the hour!"
Minute hand (Lambu)	The long hand; when pointing to 12 it means o'clock.	"Lambu is long and blue. When he's at 12, it's o'clock!"
O'clock	A time when the minute hand points exactly to 12.	"The clock shows 3 o'clock — Lambu is at 12!"
Hour	A unit of time; there are 24 hours in a day.	"School starts at 9 o'clock in the morning."

5. Lesson Procedure

Phase 1 — Hook & Story Introduction

■ 5 min

1. Show Slide 1 (title slide). Ask: "Has anyone ever missed the school bus?"
2. Show Slide 2: Arjun missed the school bus! Ask: "Why do you think he was late?"
3. Introduce the idea: if Arjun had known how to read a clock, he would have been on time.
4. Tell students: "Today we are going to learn to read clocks — just like clock detectives!"

■ **Teacher Tip:** Use an animated, enthusiastic voice. The story hook motivates even reluctant learners.

Phase 2 — Direct Instruction: Parts of the Clock

■ 10 min

1. Show Slide 3 (Meet the Clock). Point to the clock face, the 12 numbers, and the circular arrangement.
2. Explain: Numbers 1–12 go clockwise; each has its own special place.
3. Show Slide 4 (Hands on the Clock). Introduce Chotu (short, red = hour) and Lambu (long, blue = minute).
4. Repeat together as a class: "Chotu is SHORT. Lambu is LONG."
5. Use a large demonstration clock — physically move the hands while students observe.
6. Check understanding: "Which hand is longer?" / "Which hand is shorter?"

■ **Teacher Tip:** Have students stretch one arm high (Lambu) and one arm low (Chotu) as a body mnemonic.

Phase 3 — Teach O'clock Concept

■ 8 min

1. Show Slide 5 (What is O'Clock?). Emphasise: "When Lambu points to 12, it is always o'clock!"
2. Demonstrate with the demo clock: place Lambu at 12, move Chotu to different hours.
3. Ask the class to call out the hour each time you move Chotu.
4. Connect to daily life: "What do we do at 3 o'clock?" etc.

■ **Teacher Tip:** Chant together: "Lambu at twelve — it's o'clock time!" Repeat 3× with clapping.

Phase 4 — Guided Examples (5 Times)

■ 10 min

1. Slide 6: 3 o'clock — "School starts!" Chotu→3, Lambu→12. Students read together.
2. Slide 7: 7 o'clock — "School bus time!" Chotu→7, Lambu→12.
3. Slide 8: 12 o'clock — "Lunch time!" Both hands point to 12.
4. Slide 9: 1 o'clock — "After lunch!" Chotu→1, Lambu→12.
5. Slide 10: 9 o'clock — "Time to sleep!" Chotu→9, Lambu→12.
6. After each slide: class choruses the time. Check on the demonstration clock.

■ **Teacher Tip:** After Slides 6–10, show Slide 11 (Daily Life Times) for real-world reinforcement.

Phase 5 — Clock Challenge Race

■ 10 min

1. Show Slide 10 (Clock Challenge Race). Explain rules: 5 questions, 20 seconds each, earn stars.
2. Q1: Show clock at 3:00 — choices A) 3:00 B) 4:00 C) 5:00. Students hold up fingers (1/2/3).

3. Q2: Show clock at 9:00 — choices A) 8:00 B) 9:00 C) 10:00.
4. Award star stickers for correct answers. Celebrate effort: "Well done! Very good!"
5. Optional: add 3 more teacher-created questions using the demonstration clock.

■ **Teacher Tip:** Keep energy high! Use a countdown timer visible on the board. Give stars for everyone who tries.

Phase 6 — Recap Quiz

■ 7 min

1. Show Slide 12 (Recap Quiz). Read each question aloud slowly.
2. Q1: Clock shows 5:00 → A) 5 o'clock B) 6 o'clock C) 12 o'clock (Answer: A)
3. Q2: Lambu→12, Chotu→8 → A) 12 o'clock B) 8 o'clock C) 4 o'clock (Answer: B)
4. Discuss wrong answers kindly. Re-demonstrate on clock if needed.
5. Students complete individual worksheet: draw hands for 6 o'clock times.

■ **Teacher Tip:** Circulate during worksheet time. Prompt with: "Where is Lambu first? Now where does Chotu go?"

Phase 7 — Wrap-Up & Homework

■ 5 min

1. Show Slide 13 (Wrap-Up & Homework). Celebrate: "Great Job Today!"
2. Ask 2–3 students to share one o'clock time they learned.
3. Assign homework: look at a clock at home 3 times; tell a family member the time.
4. Optional extension: draw a clock showing bedtime and morning wake-up time.
5. Close with Slide 14: "Thank you for joining the Clock Challenge!"

■ **Teacher Tip:** Invite parents to ask their child 'What time is it?' at different points in the evening.

6. Differentiation Strategies

Learner Group	Strategy
Support / ELL	Use colour-coded clocks consistently (red = short, blue = long). Pair with a stronger partner. Focus on 3 times only (7, 12, 3 o'clock). Use sentence frames: "The short hand is at ____."
Core / On-Level	Complete all 5 times in guided practice. Worksheet with 6 clocks to label. Participate in all Challenge questions with the 20-second timer.
Extension / Advanced	Introduce 'half-past' as a bonus concept. Write a short timetable for their school day using o'clock times. Draw 4 clocks showing their daily schedule with sentences.
Kinaesthetic	Use arms as clock hands (one arm straight up, one arm out). Walk around the classroom finding clock printouts posted at different locations.
Visual	Provide a reference card with Chotu and Lambu clearly labelled in red and blue. Use high colour contrast in all visual materials throughout the lesson.

7. Assessment For / Of / As Learning

Type	Method	Timing	Evidence
For Learning (Formative)	Observe hand signals during guided examples; quick whole-class choral responses.	Phases 2–4	Teacher observation notes
As Learning (Self-assess)	Students self-check worksheet answers using the class anchor chart on the board.	Phase 6	Self-corrected worksheet
Of Learning (Summative)	Recap Quiz (2 questions, Slide 12) plus Worksheet (6 clock drawings).	Phases 6–7	Completed worksheet
Extension	Can the student write the time shown AND draw hands for a stated time?	Phase 7 / HW	Homework clock drawing

8. Extended Question Bank

Use these additional questions for early finishers, warm-ups, or exit tickets.

#	Question	Answer / Guidance
1	Look at a clock where Chotu is at 6 and Lambu is at 12. What time is it?	6 o'clock
2	I wake up at 7 o'clock. Where does Chotu point?	To the number 7
3	At 12 o'clock lunch time, where are BOTH hands?	Both point to 12

Clock Challenge: Time Races — Lesson Plan

4	Chotu is between 4 and 5. Is it 4 o'clock? Why / why not?	No — Chotu must point exactly to a number for o'clock
5	Draw a clock showing 2 o'clock. Which hand did you draw first?	Lambu at 12, then Chotu at 2
6	I go to bed at 9 o'clock. My friend goes at 10 o'clock. Who sleeps earlier?	Me — 9 o'clock is before 10 o'clock
7	Name two times in this lesson where Lambu pointed to 12.	Any two from: 7, 12, 3, 1, 9 o'clock
8	True or False: At 5 o'clock, the long hand points to 5.	False — Lambu always points to 12 at o'clock

9. Student Worksheet — Draw the Clock Hands

Name: _____ Date: _____ Class: _____

Instructions: Draw the **short hand (Chotu)** in **RED** and the **long hand (Lambu)** in **BLUE** to show each time given.

 3 o'clock	 7 o'clock	 9 o'clock
 12 o'clock	 1 o'clock	 5 o'clock

Bonus: Write the time when you wake up every morning: _____ Draw it on the back of this sheet!

10. Homework Note for Parents / Guardians

Dear Parent / Guardian,

Today your child learned to tell time to the hour (o'clock) using an analogue clock. They met two friendly clock-hand characters: **Chotu** (the short hour hand, in red) and **Lambu** (the long minute hand, in blue). Please help reinforce this at home:

- Ask your child what time it is at different points in the evening.
- Let them find all the o'clock times on a wall clock or watch.
- Draw a clock together and take turns quizzing each other.
- Look out for clocks in books, on TV, and in the kitchen!

Thank you for supporting your child's learning! ■
