

The Century Grid: Discovering "Out of 100"

Cricket Academy Selection

Ishaan and Kavita want to join the cricket academy. Coach gives them a challenge!

"Show me how many strokes out of 100 you can defend!"

Coach's Challenge

Coach says: "Shade the strokes you defend out of 100!" Use the grid to show how many strokes you can defend.

Given:

Grid = 10×10 tiles

shaded = 50 % = ?

Solution:

$\text{Shaded} \div \text{Total} \times 100$

$50 \div 100 \times 100$

= 50%

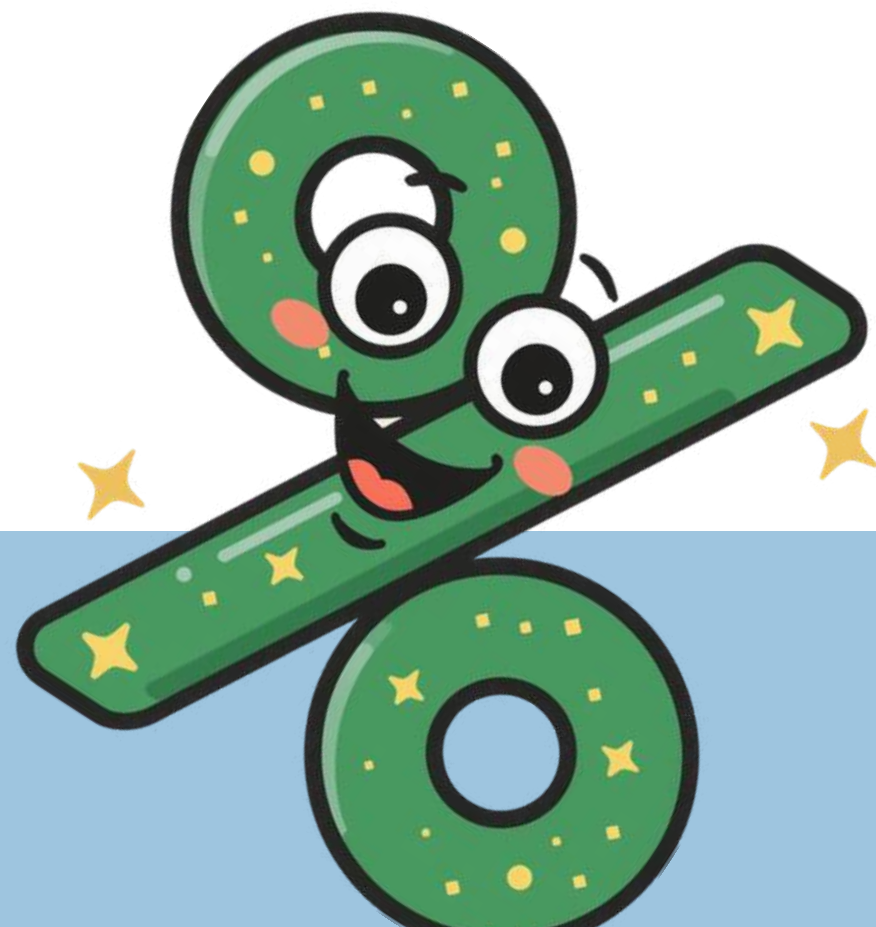

Answer:

Ishaan defended 50 strokes out of 100. That's 50%! Out of 100 means percentage!

What is a Percentage?

Percentage means 'out of 100'. The symbol is %!

100 tiles = 100%

100% Means Whole!

100% means all 100 tiles are shaded!
When every single square in our grid is
filled with color, we have the whole
thing - that's 100%!

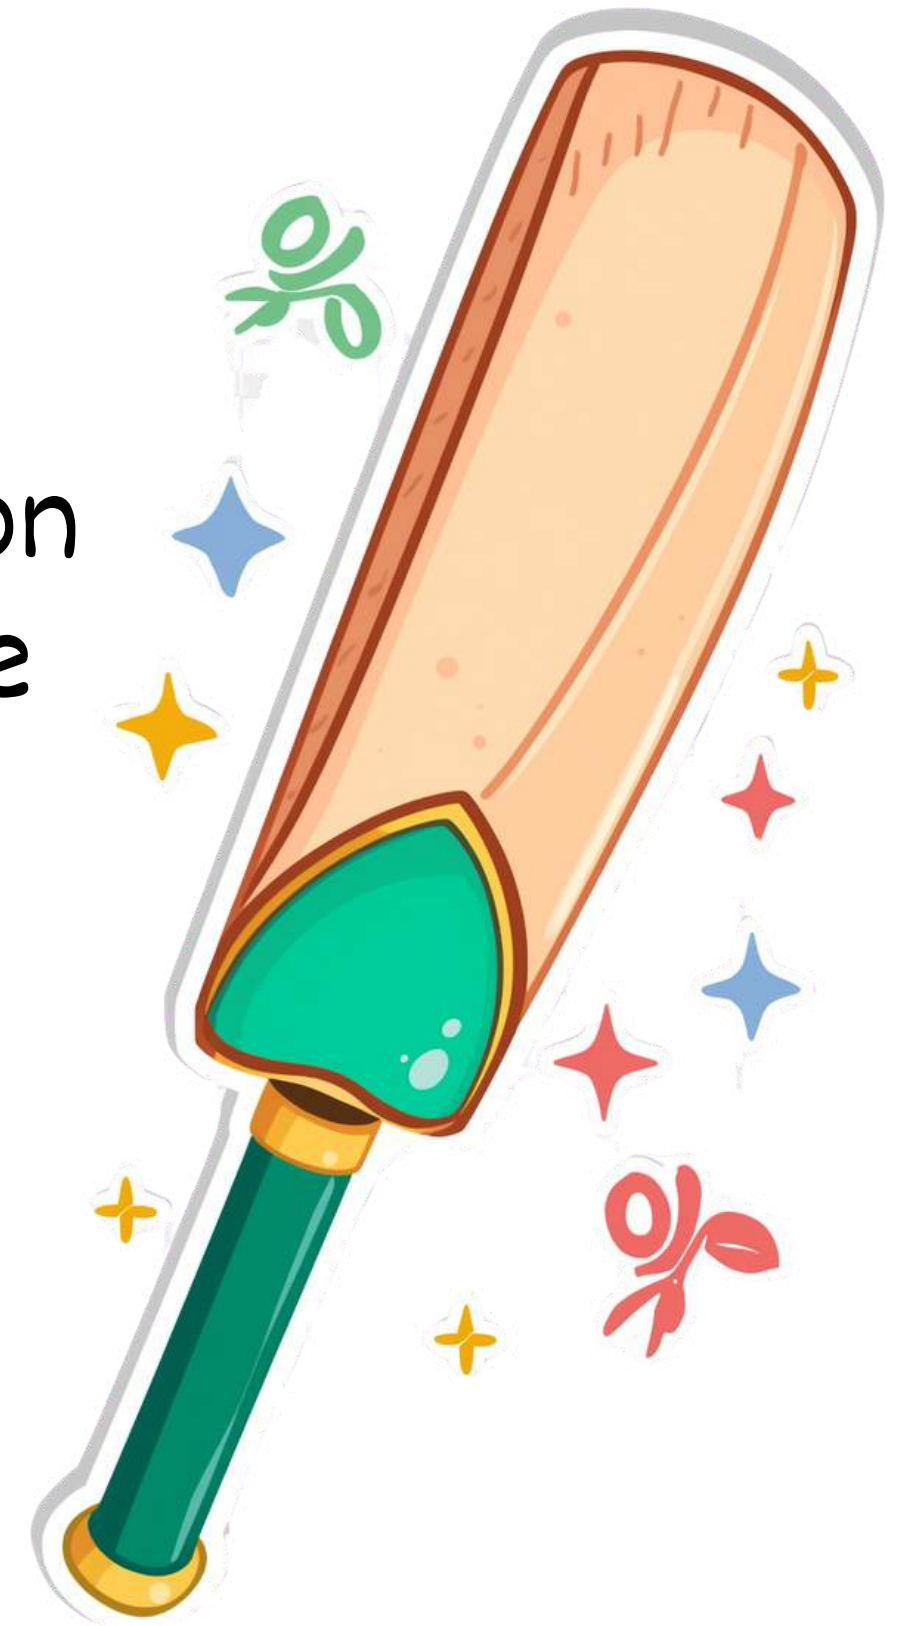

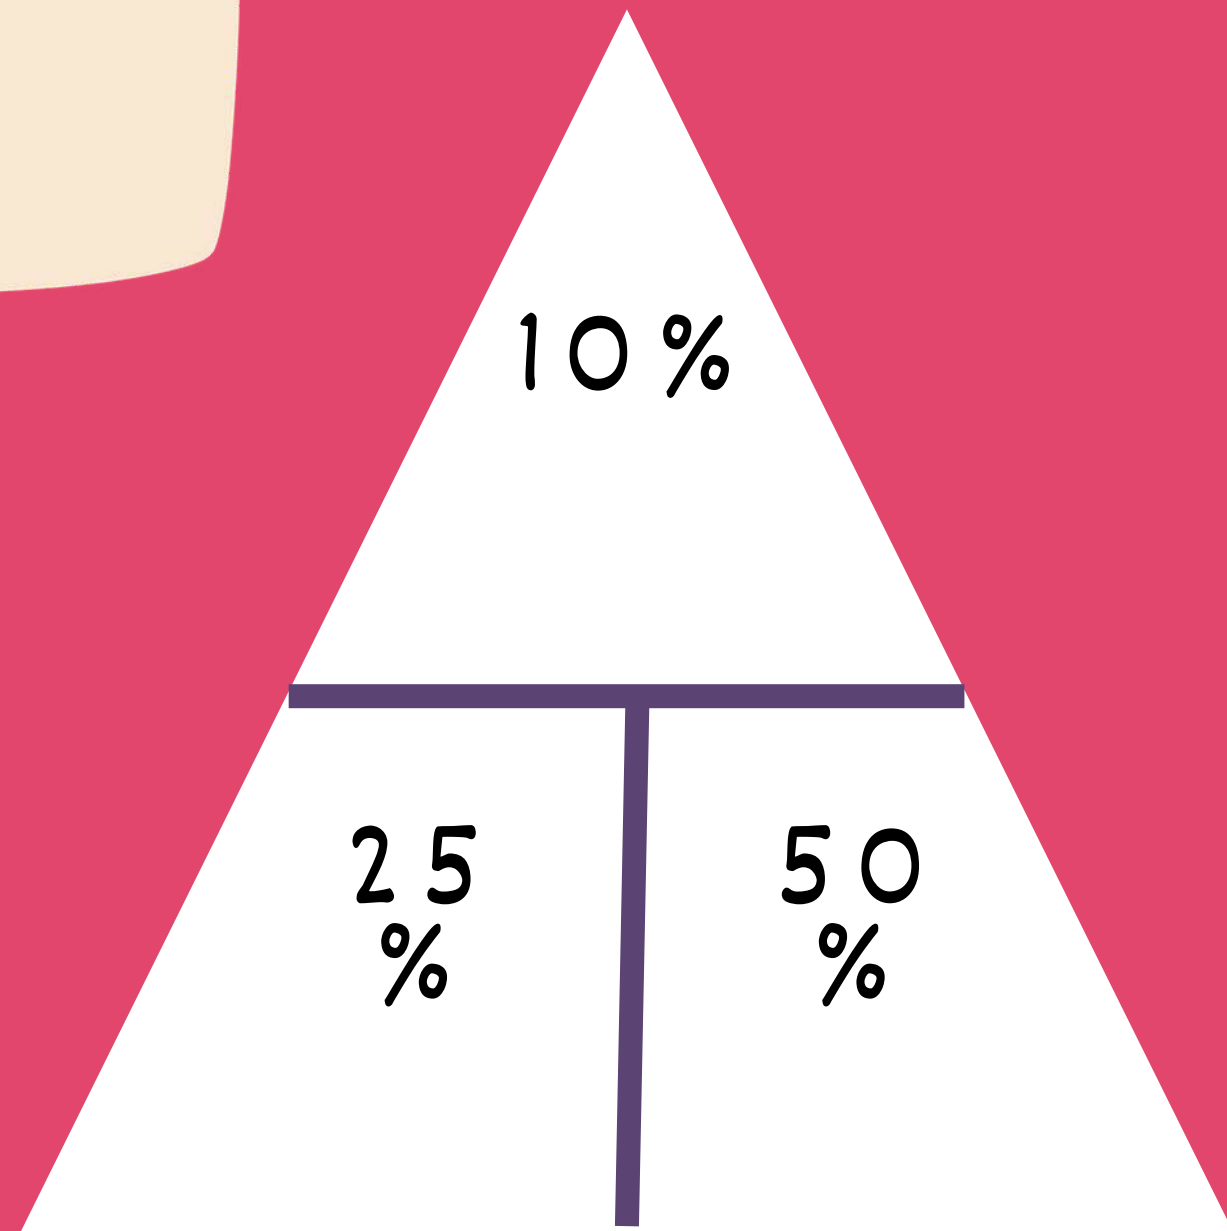

Half is 50%

Half of 100 tiles is 50 tiles.

50% means half!

When you shade exactly 50 squares on the grid, you have shaded half of the whole grid.

Percentage Grid Guide

Reading the Grid: 10%, 25%, 50%, 75%, 100%

Count shaded tiles
to find the percent!

Cricket Scoring: Virat's Century Goal

Virat wants to score 100 runs: that's 100%! If he scores 50 runs, he scored 50% of his century.

50 runs = 50% of 100!

Rangoli Grid

Rangoli uses 100-tile grids just like this! When we shade 25 tiles marigold yellow, that means 25%!

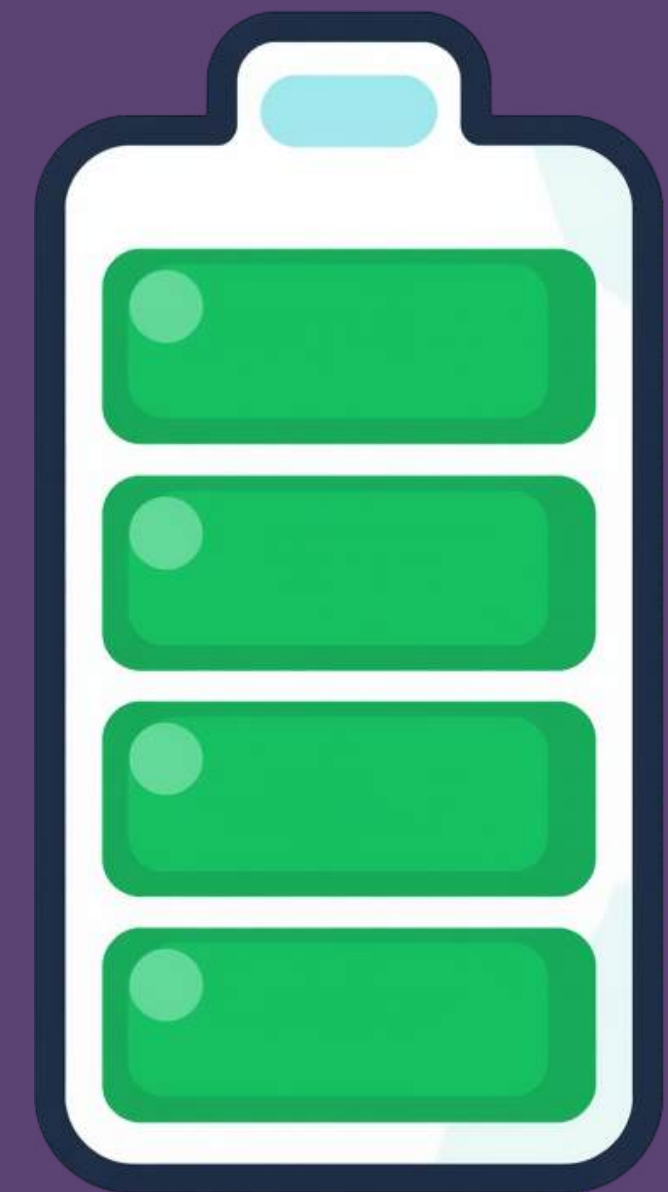

$$25 \text{ out of } 100 = 25\%$$

Battery Bars

Smartphones show battery in 10 bars. Each bar equals 10%! Watch your battery to know how much power is left.

3 bars = 30%

Time to create your own Rangoli design! Can you shade exactly 25% of the tiles? That means coloring exactly 25 tiles out of 100!

Goal:

Shade = 25% of tiles

Total = 100

Need = ?

Think:

25% = 25 out of 100

Count 25 tiles!

Tap to shade them

Try it!

Tap exactly 25 tiles on the grid to complete your beautiful Rangoli design!
Ishaan and Kavita are cheering for you!

Challenges 2 & 3

Let's practice more! Can you fix the grid and then celebrate by completing the design?

Challenge 2:

Fix it! 60% → 50%

Remove 10 tiles

Result: 50%

Challenge 3:

Celebrate! Shade ALL tiles!

Fill every square

= 100%

Goal:

Complete the Rangoli design with 100 shaded tiles for a festive celebration!

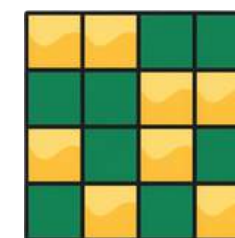

Quick Quiz: What Does % Mean?

What does the % symbol mean?

If 10 tiles are shaded, what percent is that?

Match these grids to 25%, 50%, or 100%!
