

Course:	Digital Self-Portrait in Tux Paint	Session:	Session 1	Duration:	30 Minutes
Depth:	Beginner	Software:	Tux Paint (Free / Offline)	Delivery:	Computer Lab + Guided Video

★ LEARNING OBJECTIVES

LO 1	RECALL	Name at least THREE tools in Tux Paint (Paint Brush, Stamp, Magic, Eraser, Save).
LO 2	IDENTIFY	Identify the parts of a face to draw: eyes, nose, mouth, ears, hair, eyebrows, neck.
LO 3	APPLY	Use the Paint Brush tool to draw a self-portrait by clicking and dragging on the canvas.
LO 4	SELECT	Choose colours from the palette matching their own skin tone, hair, and clothing.
LO 5	SAVE	Save their artwork using the Save button in Tux Paint and identify their saved file.
LO 6	CONNECT	Describe ONE thing that makes their portrait unique — tilak, bindi, dupatta, topi, plaits, etc.

◆ BLOOM'S TAXONOMY ALIGNMENT

L1 Remember	L2 Understand	L3 Apply	L4 Analyse
Name all tools on the Tux Paint toolbar	Explain what each tool does	Draw a self-portrait step-by-step	Compare your portrait with a friend's

■ KEY CONCEPTS WITH INDIAN EXAMPLES

CONCEPT 1 What Is Tux Paint? • A free, child-friendly computer drawing programme with big bright buttons. • Tux the Penguin is the friendly mascot who guides you! • Indian Analogy: Like a magical colour pencil set that never runs out! • Just like a drawing book and colour pencils in art class — but DIGITAL. • Works fully OFFLINE — no internet needed in the classroom.	CONCEPT 2 What Is a Self-Portrait? • A picture YOU draw of YOURSELF — you are both artist and subject! • Indian Icon: Raja Ravi Varma painted portraits of Indian people — today YOU do the same, digitally! • Riya draws her two plaits with red ribbons. Chintu draws his topi. • Arjun draws his tilak. Meena adds her bindi. Priya draws her pattu pavadai. • Key message: There is no wrong portrait — only YOURS!
---	---

CONCEPT 3

Tux Paint Tools (5 Tools)

- **PAINT BRUSH:** Click and drag to draw — like dipping a brush in rangoli colour!
- **COLOUR PALETTE:** Click a colour square — like choosing from a rangoli powder box!
- **ERASER:** Removes mistakes — like the rubber in your pencil box!
- **MAGIC TOOL:** Adds sparkles and effects — like glitter on a rangoli design!
- **SAVE:** Stores your picture — like putting your drawing in your school bag!

CONCEPT 4

Mouse Skills for Beginners

- **CLICKING:** Press mouse button once — like knocking on a tiny door!
- **DRAGGING:** Press and KEEP pressing while moving — this is how we draw!
- **COLOUR SELECT:** Click a colour once — now your brush is that colour!
- **UNDO:** Click the curved-back arrow to remove last mark — our magic fixer!
- **Indian Analogy:** The computer mouse is our Panchatantra helper!

■ SESSION OUTLINE WITH TIMING (Total: 30 Minutes)

PHASE	TIME	ACTIVITY & CONTENT	FORMAT	FACILITATOR NOTES
Phase 1 Hook & Warm-Up	5 min	'Meet Tux the Penguin!' story. Riya's pencils are broken — Tux saves the day! Face warm-up: 'Touch your nose! Touch your eyes!'	Animated Intro Video	Start with STORY not tools. Tux Paint open on all computers before students enter. Fun, fast, energetic!
Phase 2 Tool Intro	5 min	Teacher/video points to each tool. Students click each once to hear Tux Paint click sounds. 'Tool exploration' = 30 sec free clicking.	Screen Demo Video	Point physically to each tool. Only 5 tools introduced. Use Indian analogies for every tool.
Phase 3 Guided Drawing	12 min	Teacher draws LIVE on projector, students copy. 6 steps: face shape → eyes → nose/mouth → ears/neck → hair → special feature.	Live Demo + Student Activity	'Watch me first, then you try' for every step. Allow students to choose OWN colours. Celebrate every portrait!
Phase 4 Free Decoration	5 min	Students add colours, try Magic Tool and Stamps. Add anything to make portrait special. Teacher circulates and encourages.	Independent Activity	NO instructions — only encouragement. Do NOT correct student work. Ask 'Tell me about your portrait.'
Phase 5 Save, Share & Celebrate	3 min	Teacher helps all save portraits. Students say ONE thing that makes their portrait unique. Award 'Digital Artist' badge. Gallery on projector.	Wrap-Up + Badge Award	Save BEFORE gallery. Badge awarded to ALL (participation). Send 'Today I Made' note home with screenshot if possible.

— GUIDED DRAWING STEPS (Phase 3 Detailed)

1

■ Draw Your Face Shape

- Select the Paint Brush tool from the left panel.
- Look at the bottom row and click a skin tone colour (choose YOUR shade!).
- Draw a big oval or circle in the centre of the white canvas.
- Tip: Go slowly — click and drag in a smooth circle. Use Undo if needed!

2

■ Add Eyes & Eyebrows

- Change to a dark brown or black colour by clicking the colour palette.
- Draw two small circles or ovals for the eyes.
- Add two arched lines above the eyes for eyebrows.
- Touch your own eyes first! Look in the mirror. Where are YOUR eyes on your face?

3

■ Add Nose & Mouth

- Keep the dark colour for the nose. Draw a small bump or triangle shape.
- For the mouth, draw a curved line going UP (a smile!).
- Optional: Add a red colour for lips or a big smile with teeth.
- Touch your nose! Touch your mouth! Now draw what you feel!

4

■ Add Ears & Neck

- Switch back to your skin tone colour.
- Draw two small rounded shapes on the SIDES of the oval face for ears.
- Draw a short rectangle below the face for the neck.
- Indian detail: Add small dots inside the ears for earrings or jhumkas!

5

■ Add Hair

- Click on a hair colour (black, brown, dark brown).
- Draw your hairstyle: long straight hair, curly hair, short hair, plaits, or bun.
- Indian styles: Two plaits with ribbons, pony tail, turban/pagdi, or a bun with a flower!
- There is no wrong hairstyle — draw what YOU have!

6

■ Add Special Features!

- This is the most exciting step — make it UNIQUELY YOU!
- Use a red dot for BINDI or TILAK on the forehead.
- Add GLASSES with two circles connected by a line.
- Use the Magic Tool for sparkles, or Stamp Tool for flowers and stars!
- Dupatta, topi, skull cap, gold earrings — anything that makes you special!

■ INDIAN CONTEXT REFERENCES LIBRARY

Accessories & Features

Tilak / bindi on forehead, Plaits with ribbons, Skull cap / topi, Turban / pagdi (Sikh students), Dupatta / chunni, Pattu pavadai, Jhumka earrings, Bangles / kangan

Art References	Raja Ravi Varma (portrait painter from Kerala), Madhubani painting (Bihar), Rangoli — colour & pattern making, Warli art (Maharashtra tribal art), School art mela / craft exhibition
Tool Analogies (Indian)	Rangoli powder box = Colour Palette, Drawing book = Digital canvas, Colour pencil = Paint Brush, Rubber eraser = Eraser Tool, School bag = Save button
Skin Tone Guidance	All skin tones are beautiful — from very fair to very deep. Use Tux Paint warm browns, tans, and golden shades to represent Indian skin authentically. Never prescribe a colour.
Character Names	Riya, Arjun, Meena, Chintu, Priya, Kabir, Ananya, Tara, Rohan, Lakshmi — reflect North, South, East & West Indian diversity in all assets.
Family & Home	Amma / Aayi / Maa (mother), Papa / Baba / Appa (father), Dadi / Paati / Ajji (grandmother) — encourage sharing portrait with family at home.

✍ TONE AND STYLE GUIDE

■ Tone - Primary: Excited, warm, nurturing, wonder-filled, playful. - Secondary: Clear, patient, step-by-step, non-intimidating. - Avoid: Technical, cold, rushed, condescending. - Feel like a fun older sibling who loves computers AND art!	■ Language - Max 10 words per instruction sentence. - Active voice: 'Click on the brush tool!' - Use WE/YOU: 'Now let us choose a colour for our hair!' - Use wonder words: 'Ooh! Look what the Magic Tool does!'	■ Visuals - Flat-design illustrations ONLY — no stock photography. - Minimum 40% girl characters across all assets. - Diverse Indian regional appearances and accessories. - Show ACTUAL Tux Paint interface — no mockups allowed.	■ Voice-Over - Max 100 words per minute (slow and very clear). - Indian-accented English preferred and encouraged. 3–4 second pause after EVERY instruction (children need time to act!). - Always name WHERE to look: 'the blue brush button on the LEFT side'.
--	---	--	--

✗ THINGS TO AVOID (All Submissions Checked Against This List)

✗	Blank canvas without guidance	Always show teacher's portrait in progress as reference. Young learners feel lost on an empty screen.
✗	Technical vocabulary without explanation	No 'cursor', 'interface', 'software'. Say 'the little arrow on screen', 'the drawing page', 'the computer drawing programme'.
✗	Fast mouse movements in demo videos	All mouse actions must be slow and deliberate — maximum 2 cm per second. Learners cannot follow fast movements.
✗	Prescribing skin tone colour	Never say 'use peach colour.' Always say 'choose a colour that looks like YOUR skin.' This respects all Indian skin tones.
✗	Showing only one hairstyle or feature	Represent diverse Indian children — long plaits, short hair, curly hair, turbans, topis, bindis, tilaks, etc.
✗	Saying 'that is wrong' about any drawing	Every self-portrait is valid. Say 'Let us try the undo button and try again!' Never say a drawing is wrong.

X	Gender-stereotyping art or tools	Do not say 'girls draw pretty flowers'. Art has no gender rules in Planrs Academy content.
X	Expecting realistic or perfect portraits	Simple oval face + dots for eyes = a self-portrait. Celebrate ALL levels of output. This is a beginner session.
X	Skipping the Save step	Saving is a critical digital literacy skill. It MUST be demonstrated explicitly in every session.
X	Assuming prior computer experience	Treat every child as if this is their FIRST time using a mouse. Explain mouse use in Phase 2 explicitly.
X	Western-only art references	Always lead with Indian art references (Raja Ravi Varma, Madhubani, Warli) before any Western reference.
X	Sessions requiring internet access	Tux Paint works fully offline. All content must assume NO internet connection in the classroom.

■ MINIMUM EXPECTATIONS PER OUTPUT TYPE

6A. Hook Introduction Video — 'Meet Tux the Penguin!'

- Duration: 45–70 seconds • Characters: Tux Penguin + 1 Indian child (e.g., Riya)
- Story: Riya's pencils are broken — Tux saves the day with Tux Paint!
- Tux Paint opening screen MUST appear in the video — not a mockup
- Voice-over: Warm, excited English, max 80 words • English subtitles mandatory
- End hook: 'Let us open Tux Paint and start drawing!' • File: MP4, min 720p

6B. Tool Introduction Screen-Cast Video

- Duration: 3–4 minutes • Actual Tux Paint interface (not a mock-up)
- Tools covered: Paint Brush, Colour Palette, Eraser, Stamp, Magic, Save
- For each tool: Name → Point → Click → Hear sound → Brief explanation
- Minimum 2 Indian analogies used • Circle highlight / arrow on active tool
- Screen-capture at 1080p or higher • English subtitles mandatory

6C. Step-by-Step Guided Drawing Video (Main Content)

- Duration: 10–12 minutes • All 6 steps from Section above covered
- Split-screen format: teacher drawing + Tux Paint canvas visible together
- Pace: 90 seconds minimum per step • 'Watch me first, then you try' model
- Show selecting multiple skin tones (brown, tan, golden) for inclusivity
- Undo button shown and explained at least once • 1 verbal encouragement per step

6D. Printable Reference Card (Offline Support)

- 1 page, A4 landscape • Labelled diagram of Tux Paint interface with 6 tools
- Simple blank face outline with labels (eye, nose, mouth, ear, hair, neck)
- 6 numbered steps listed briefly • Indian feature icons: tilak, bindi, plaits, topi
- Min font: 13pt labels, 18pt headings • Must be usable in black & white print

6E. Digital Artist Certificate / Badge

- A5 or A4 printable / digital share format
- Title: 'Digital Artist — Planrs Academy' • Space for portrait to be pasted
- Message: 'I made my Digital Self-Portrait using Tux Paint!'
- Tux Penguin + stars + Indian child illustration • Blank line for child's name
- Parent prompt at bottom: 'Ask me about my digital portrait!'

6F. Teacher / Facilitator Guide (1-Pager)

- Single A4 PDF, landscape preferred
- Must include: Objectives, Timing, Tools Setup, Step-by-Step, Key Questions, Common Tech Issues & Fixes, Differentiation Tips, Home Connect
- Tech checklist: install Tux Paint, test mouse, open programme, set up projector
- Written for a teacher with NO ICT background — zero jargon
- Minimum 5 common technical problems with solutions • Reviewed by 1 classroom teacher

✓ SUCCESS CRITERIA

A. Content Design Success Criteria (Pre-Launch)

- ✓ All 6 Learning Objectives are addressed and demonstrable within the 30-minute session.
- ✓ All 5 Tux Paint tools (Brush, Colour, Eraser, Magic, Save) are introduced and demonstrated clearly.
- ✓ All 6 face-drawing steps are included in the guided drawing video at correct pace.
- ✓ At least 3 Indian context examples appear in the session content (not generic).
- ✓ All output types (6A–6F) meet every minimum specification listed above.
- ✓ Tone & Style Guide compliance checked across ALL assets before submission — zero exceptions.
- ✓ Tux Paint compatibility tested on Windows, Linux / Ubuntu, and Raspberry Pi.
- ✓ Reviewed and approved by: 1 Curriculum Specialist + 1 Early Years Teacher + 1 ICT Facilitator + 1 Accessibility Reviewer.
- ✓ Pilot test conducted with ≥5 learners before full platform release.

B. Student Learning Success Criteria (Post-Delivery)

- ✓ ≥ 80% of learners complete a recognisable self-portrait within the 30-minute session.
- ✓ ≥ 90% of learners successfully use the Paint Brush tool to draw on the canvas.
- ✓ ≥ 75% of learners independently select their own skin-tone colour from the palette.
- ✓ ≥ 80% of learners include at least 4 face parts in their completed portrait.
- ✓ ≥ 70% of learners include 1 personal or cultural detail (bindi, tilak, hair style, accessories).
- ✓ ≥ 85% of learners successfully save their work (with or without teacher help).
- ✓ ≥ 90% of learners can name at least 2 Tux Paint tools after the session.

C. Engagement & Product Success Criteria

- ✓ Session drop-off rate < 10% (learners who disengage mid-session).
- ✓ 'Digital Artist' badge claimed by ≥ 95% of learners who complete the session.
- ✓ Teacher feedback survey score ≥ 4.0 / 5.0 for 'Ease of Delivery' and 'Age-Appropriate Pacing'.
- ✓ ≥ 50% of learners share portrait with parent (verified via 'Today I Made' take-home).
- ✓ Zero reported technical issues blocking > 20% of learners — triggers immediate content review.
- ✓ Content flagged for revision if ≥ 30% of portraits are incomplete after the session.

✓ PRODUCTION CHECKLIST & DOCUMENT CONTROL

CURRICULUM

- 6 Learning Objectives written & mapped
- 5 Key Concepts with Indian examples
- Session Outline: 5 phases + timing
- Indian Context References Library curated
- Tool analogies (Indian) for all 5 tools

CONTENT ASSETS

- Hook Intro Video script written
- Tool Screencast storyboard approved
- Guided Drawing Video (12 min) scripted
- Printable Reference Card designed & B&W; tested
- Digital Artist Certificate designed
- Teacher Facilitator Guide drafted & reviewed

QUALITY GATES

- Tone & Style Guide compliance checked
- All 12 'Things to Avoid' absent
- Mouse speed in videos verified (slow)
- Skin tone diversity in all visuals
- Regional diversity audit passed
- Tux Paint on Windows/Linux/RPi tested
- Accessibility review completed
- Pilot test with ≥5 learners done
- Curriculum Lead sign-off obtained
