

MUTUAL FUNDS & DIVERSIFICATION

Let's Learn About
Smart Saving!

WHAT IS A MUTUAL FUND?

Money Teamwork!

A mutual fund is like a big piggy bank where many people put their money together. An expert called a fund manager helps decide the best ways to use this money!

Pool Together: Friends combine their pocket money into one big fund.

Expert Help: A smart manager decides where to invest the money.

Share Rewards: When the fund grows, everyone gets their fair share!

DON'T PUT ALL EGGS IN ONE BASKET!

Diversification means spreading your money across different things. Just like carrying eggs in separate baskets, if one basket falls, you still have eggs in the others!

If one investment doesn't do well, others can still succeed and protect your savings.

Smart investors never put all their money in just one place!

REAL LIFE EXAMPLES

Diversification is everywhere around you! Just like mutual funds spread money across different investments, we spread things in our daily life too. Let's see some fun examples!

Different subjects in school – Math, Hindi, Science, Art!

Different players in a cricket team – batters, bowlers, fielders!

Different snacks in your tiffin – paratha, fruits, and biscuits!

Different games to play – cricket, carrom, hide and seek!

WHY MUTUAL FUNDS ARE GREAT!

Mutual funds are like having a smart helper for your money! They make saving and growing your money easier and safer for everyone, even kids!

Small amounts can grow big over time, like planting a tiny seed!

Expert money managers take care of your investments for you.

Less risky than putting all eggs in one basket!

SMART SAVING TIPS

Learning to save money early is like planting a seed that grows into a big tree! Here are some tips to help you become a smart saver.

Start early – even your pocket money counts!

Be patient – money grows slowly like a plant.

Keep learning and ask questions about money.

YOU'RE A SMART SAVER NOW!

Remember: Diversification means spreading your investments to stay safe and grow together! Just like having different fruits in your basket, your money is happier when it's in different places!

**KEEP SAVING, KEEP
GROWING, KEEP
DIVERSIFYING!**
