

HUMAN NUMBER LINE RACE

Number sequencing and fun with numbers 1 to 20 !

Rocket Launch Countdown!

Let's count down from 20 to 1!

* Join the Countdown!

Stand up tall, raise your hands, and count down together! When we reach 1, shout "BLAST OFF!" and jump high like a rocket launching into space!

* "Let's count again!"

20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1... BLAST OFF! Now count up: 1 se 20 tak!

Meet the Number Line

Imagine Chennai Central Railway Station with coaches S1 to S12 lined up on the platform! Just like train coaches are arranged in order, numbers also follow a sequence on a number line. Coach S7 comes AFTER S6 and BEFORE S8. The number line helps us see which numbers come before and after!

S6 → S7
(Before - Before)

S7 Coach
(In the Middle)

S7 → S8
(After- After)

Ascending and Descending Order

Small to Big / Big to Small

**ASCENDING**

Going UP the Stairs!

small to big! Like school assembly line from shortest to tallest, cricket jersey numbers 1, 2, 3... or apartment floors going up!

DESCENDING

Going DOWN the Stairs!

big to small! Like ISRO rocket countdown 10, 9, 8... 0! Or kirana shop stacking tins from heaviest to lightest!

**REMEMBER!**

Staircase Trick for Numbers

↑ Going UP = Ascending (1, 2, 3, 4, 5...)
↓ Going DOWN = Descending (10, 9, 8, 7, 6...)
Arrows help us remember the direction!

Before and After : Understanding Before and After Numbers

* Ration Shop Queue

Token 6 comes BEFORE Token 7
Token 8 comes AFTER Token 7

* Counting Rhyme

"TWO" comes AFTER "One"
"TWO" comes BEFORE "Three"
One → Two → Three
(1 → 2 → 3)

Greater Than / Less Than Big / Small

The Crocodile Mouth Trick :

The hungry crocodile always eats the BIGGER number!

Example 1: Riya has 15 laddoos, Arjun has 9 laddoos
 $15 > 9$ (15 is Greater)

Example 2: Team A scored 12 runs, Team B scored 17 runs

$17 > 12$ (17 is Greater, 12 is Less)

Remember: The crocodile mouth opens toward the bigger number!

Magar Machh –
Crocodile Trick

Big Greater Than $>$

Small
Less Than $<$

Main Activity: Human Number Line Race!

Get ready for the most exciting number game! Two teams will compete:

🍌 Team Mango vs 🥥 Team Coconut

Each child holds a number card from 1 to 20. Listen carefully and arrange yourselves in the correct order as fast as you can!

ROUND 1: Ascending Race

Arrange from smallest to biggest! From Small to Big
1, 2, 3... 20!

ROUND 2: Descending Race

Arrange from biggest to smallest!
20, 19, 18... 1!

ROUND 3: Mystery Challenge

Shout BEFORE or AFTER when your number
is called!

Number Line

Sankhya Rekha – Numbers arranged in order on a line, just like train coaches at Chennai Central!

Ascending Order

Small to Big – Going UP! Small to big, like climbing stairs: 1, 2, 3, 4, 5...

Descending Order

Big to Small – Going DOWN! Big to small, like rocket countdown: 10, 9, 8, 7...

Before & After

Before and After – What comes before 5? (4!) What comes after 5? (6!) Like queue tokens!

Greater & Less Than

Big and Small – The crocodile mouth always eats the bigger number! $15 > 9$ means 15 is Big !

Closing: Number Chant and Take-Home Fun!

Number Chant: "1, 2, 3... 20! Let's count again with family!" (1, 2, 3... 20! We will count again with family!)

Take-Home Task: Teach your family these fun number games!

Great job, Number Experts! Keep counting and have fun with numbers every day! Shabaash, Sankhya Experts!
