

■ AI & DIGITAL: PASSWORDS & PRIVACY ■

Cipher's Password Lab — Grade 2 Lesson Guide

Course	AI & Digital — Passwords & Privacy
Grade	Grade 2 (Ages 7–8)
Duration	30 Minutes
Depth	Beginner
Platform	Planrs Academy
Language	English Only

■ LEARNING OBJECTIVES

- **LO1: What Is a Password?**
A password is a secret key that protects your digital things.
Only you (and a trusted adult) should know your password.
- ■

LO2: Strong vs. Weak Passwords
Short easy words = WEAK. Long mixed letters + numbers = STRONG.
Never use your name, birthday, or pet's name as a password.
- **LO3: The Golden Rule**
"LONG + MIXED UP + SECRET" — and share ONLY with a trusted adult.
- **LO4: What Is Private Information?**
Name, school, address, phone, photo = PRIVATE — never share online!
- **LO5: The Sharing Test**
3 questions: Would parents approve? Should a stranger know this? Did a trusted adult say okay?

LO6: What To Do When Something Feels Wrong

STOP — do not click. CLOSE — shut the screen. TELL — a trusted adult immediately.

■ WHAT IS A PASSWORD?

A **password** is a secret word or mix of letters and numbers that **only YOU know**. It is like the lock on your school bag or the secret knock you made up with your best friend. Passwords protect your digital things — like your school tablet account or your learning app.

Secret key to your account

A secret knock with a friend

Lock on your school bag

Code on a secret notebook

Your home door lock

■■ Indian Example: The PIN on Papa's phone, the lock on your building gate, the code your school uses to log in to the learning ta

■■ STRONG vs. WEAK PASSWORDS

Not all passwords are equally safe! A **weak password** is easy for someone to guess. A **strong password** is long, uses a mix of letters and numbers, and is hard to guess — even by someone who knows you well.

"dog"		VERY WEAK — only 3
"aarav"		VERY WEAK — just a n
"1234"		VERY WEAK — everyo
"Rohan7"		MEDIUM — 6 chars, 4
"Sunflower7Kite!"		STRONG — long, mix
"BlueMango42!"		STRONG — 12 chars

■ Aarav's Password Lesson

Aarav's first password was "aarav123" — his own name and lucky number.
His sister Priya said: "Anyone who knows you could guess that!"
They changed it to "Mango7Kite!" — long, mixed, and totally unexpected.
Now Aarav's tablet is properly protected!

■ LONG	At least 8 characters — the longer the better!
■ MIXED UP	Use letters AND numbers AND symbols if possible
■ SECRET	Tell NOBODY — except a trusted parent or guardian

■ WHAT IS PRIVATE INFORMATION?

Some information is **PRIVATE** — it belongs only to you and your trusted family. Sharing private information online can let strangers find out where you live, what school you go to, or how to contact your family. This is unsafe.

■ PRIVATE — Never Share Online!	■ SAFE — General Info Only
Your full name (e.g. Meera Sharma)	Your favourite colour (e.g. blue)
Your school name and class	Your favourite animal or food
Your home address	A general interest like reading
Your phone number or parents' number	Your favourite sport or game
Your photo or video	(Always check with a trusted adult first!)
Your roll number or teacher's name	

■■ Meera's Story: An app said "Enter your school name and class to win a prize!" Meera said: "Wait — my school name is PRIVATE!"

■ THE 3-QUESTION SHARING TEST

Before sharing anything online, always ask yourself these **3 questions**. If the answer to ANY of them is **NO** — do NOT share!

1■■	Would I be comfortable if my parents saw this?
2■■	Is this something a stranger should know about me?
3■■	Did a trusted adult (parent or teacher) say it is okay?

■■ The Watchman Rule: Just as the building watchman does not let strangers in without your parents' permission, YOU should not

■ SAFE OR NOT SAFE? — Flip Card Activity

Read each situation. Is it **SAFE** ■ or **NOT SAFE** ■? Circle your answer, then check below!

Using a password like "Sunflower7Kite!"

■ **SAFE** — Long and mixed!

Using "1234" as your password

■ **NOT SAFE** — Way too easy!

Telling your best friend your password

■ **NOT SAFE** — Keep it secret!

Sharing your favourite colour online

■ **SAFE** — General info is okay

Typing your home address into an app

■ **NOT SAFE** — Address is private!

Telling Amma about a strange message

■ **SAFE** — Always tell an adult!

Uploading your photo to win a prize

■ **NOT SAFE** — Never share photos!

Using "meera" as a password

■ **NOT SAFE** — Never use your name!

■ THE GOLDEN PASSWORD RULE

■ THE GOLDEN PASSWORD RULE ■

"LONG + MIXED UP + SECRET"

Share **ONLY** with a trusted parent or guardian — **NEVER** with friends or strangers

Riya's Story: "My Password Chant!"

Riya learned a song to remember the Golden Rule:

"Long and mixed and secret too — that is how a password works for you!"

She claps on LONG, mixes her fingers on MIXED, and puts her finger to her lips on SECRET. Try it with your class!

■ WHAT WOULD YOU DO? — Scenario Challenges

Read each situation carefully. Choose the **BEST** answer and circle it. The correct answer is highlighted in green!

An app says: "Enter your home address to win a prize!" What do you do?

A) Type in your address quickly!

B) Close the app and tell a trusted adult immediately ✓

C) Ask your friend to type their address instead

D) Share only your street name

Ishaan's friend asks: "Tell me your tablet password!" What should Ishaan do?

A) Tell the friend — they are trustworthy!

B) Write it on a note and give it over

C) Politely say "No — passwords are private" and tell his parents ✓

D) Change to a simpler password so he can remember it

A message pops up: "Click here to get a free gift! Send your photo!" What do you do?

A) Click the link and upload your photo

B) STOP, CLOSE the screen, and TELL a trusted adult ✓

C) Send the photo — free gifts are safe

D) Ask your friend if they think it is okay

DO's AND DON'Ts — Password & Privacy Rules

✓ DO

- ✓ Make passwords long (8+ characters)
- ✓ Mix letters AND numbers in passwords
- ✓ Keep your password secret always
- ✓ Tell a trusted adult if something feels wrong
- ✓ Close apps that ask for private info
- ✓ Ask a parent before sharing anything online
- ✓ Change your password if someone finds it out
- ✓ Look for the lock icon on safe websites

✗ DON'T

- ✗ Use your name or birthday as a password
- ✗ Share your password with friends
- ✗ Type your address into unknown apps
- ✗ Upload your photo for "prizes" online
- ✗ Click unknown links or pop-ups
- ✗ Keep secrets from your parents about online activities
- ✗ Use "1234" or "abc" as a password
- ✗ Share your school name or class online

STOP. CLOSE. TELL. — Your 3 Safety Steps

If ANYTHING online feels wrong — a strange message, someone asking personal questions, or a pop-up asking for your information — remember these **3 steps**:

1**STOP**

Do not click, type, or answer anything.
Step away from the screen.

2**CLOSE**

Close the app, tab, or screen
immediately. Do not go back to it.

3**TELL**

Go to a parent, guardian, or teacher
RIGHT AWAY. Tell them exactly what
happened.

Riya's Smart Move

Riya was playing a game when a message appeared:

"You won! Enter your name and address to claim your prize!"

Riya remembered: STOP. CLOSE. TELL.

She closed the game and told her mother straight away. Well done, Riya!

■ CLASSROOM ACTIVITY — Password Lab Challenge

Work as a class! Your teacher will call out a password. Write **S** (Strong) or **W** (Weak) in the box. Answers are at the bottom — no peeking! ■

"cat"	[]	"Aarav7"	[]
"BlueSky22!"	[]	"1234"	[]
"Kite9Mango!"	[]	"priya"	[]
"Sun12Flower!"	[]	"school"	[]
"GreenTree56#"	[]	"abcd"	[]

Answers: 1. W | 2. W | 3. S | 4. W | 5. S | 6. W | 7. S | 8. W | 9. S | 10. W

■ RECAP: WHAT WE LEARNED TODAY

- **What is a Password?**
A secret key that protects your digital account.
Like a lock — only you and a trusted adult should know it.

- ■

Strong vs. Weak Passwords
STRONG = long (8+ chars), mixed (letters + numbers + symbols).
WEAK = short, your name, "1234", or any easy word.

- **The Golden Rule**
LONG + MIXED + SECRET. Share ONLY with a trusted adult.

- **Private Information**
Name, school, address, phone, photo = PRIVATE.
Never type private info into an app without asking first.

- **The Sharing Test**
3 questions before sharing anything online.
If any answer is NO — do NOT share.

**Stop. Close. Tell.**

If anything online feels wrong — STOP, CLOSE, and TELL a trusted adult.

MY SAFETY PLEDGE**■ My Safety Pledge ■**

I will make my passwords LONG, MIXED UP, and SECRET.

I will never share private information online without asking first.

I will never share my password with friends — only with a trusted adult.

If something online feels wrong, I will STOP, CLOSE, and TELL.

■ LONG + MIXED + SECRET = Safe Password! ■

Sign your name here

■ CONGRATULATIONS — YOU ARE NOW A PASSWORDS & PRIVACY CHAMPION! ■

Share what you learned with your family today — teach them the Golden Rule!
