

Safe Web Quest

AI & Digital Literacy - Grade 2

| The Internet Jungle Adventure

Meet **Digi Didi and Arjun!** They are exploring the magical "Internet Jungle" on their school tablet. Just like a big bazaar or your local *sabzi mandi*, the internet has many helpful shops but also some tricky ones.

The Golden Rule: Just like you hold Mummy or Papa's hand in a crowded market, you must be careful online!

| Green Flag Websites (Safe)

These are "Green Castle" sites where you can learn and play safely.

- ✓ Look for the **Padlock icon** next to the address
- ✓ Check that the address starts with **https://** (The 'S' stands for Safe!)
- ✓ Clean pages with **no scary pop-ups**
- ✓ Known logos like **NCERT** or **DIKSHA**

Examples: ncert.nic.in, diksha.gov.in, BYJU'S, Vedantu, and YouTube Kids.

Red Flag Websites (Unsafe)

These are "Dark Cave" sites. If you see these, **STOP!**

- ✗ **"YOU WON A PRIZE!"** - Flashing ads and prize pop-ups
- ✗ **"YOUR COMPUTER HAS A VIRUS"** - Scary messages telling you to click
- ✗ **No Padlock** - Broken locks or strange addresses (like NCer12Free.xyz)
- ✗ **Asking for Secrets** - Sites asking for Aadhaar, OTP, or home address

Personal Information is Private

Never share these 4 things with strangers online:

1. Full Name

2. Home Address (Ghar ka Pata)

3. Phone Number (Mobile or Landline)

4. School Name & Class

The Trusted Adult Rule

If a website makes you feel **scared, confused, or asks for information**, tell a trusted adult immediately:

- Mummy or Papa
- Dada or Dadi
- Your Teacher
- Elder Bhaiya or Didi

Web Safety Wizard Pledge

1. I will always look for the padlock before using a website.
2. I will never share my personal information without asking first.
3. I will tell a trusted adult if something feels wrong.
