

LET'S LEARN ABOUT BUSINESS!

Reference Document: Grade 3 Financial Lit Business Plan Pitch Deck_compressed.pdf

Topic: Introduction to Entrepreneurship: Creating and Pitching a Business Plan

Target Audience: Elementary / Middle School Students

Objective: Students will understand what a business plan is, identify the core components of a business (Problem, Solution, Product, Money, and Marketing), and learn how to confidently pitch their ideas to others.

Section 1: What is a Business Plan?

Your Map to Success!

A **business plan** is like a map that shows your idea and how it can work! Think of it like drawing directions to a hidden treasure. Without a map, you might get lost. With a map, you know exactly where you are going and how to reach your goal successfully.

Why Do We Need a Business Plan?

Planning makes everything better! A solid business plan helps an entrepreneur in three major ways:

1. **Step-by-Step Guide:** It helps us know what to do next without getting confused.
2. **Financial Blueprint:** It map out clearly how to make money from our creative idea.
3. **Team Builder:** It gets other people (like teachers, parents, and friends) completely excited about your idea!

Section 2: The Core Components of a Business

Every great business plan is built using five essential building blocks. Let's break them down step-by-step:

1. The Problem (What's the Need?)

Every business starts by finding a problem that needs solving. Your business idea should help people with something they genuinely need! Good business ideas always come from real, everyday challenges.

Example Case: The School Snacks Problem

Kids are hungry and active at school, but they can't find tasty, fresh, and healthy snacks during lunch breaks!

2. The Solution (Your Idea)

Your product or service is the ultimate answer to the problem you found. You can approach this in two ways:

- **Strategy A:** Make a physical object or item that people want and need.
- **Strategy B:** Help others solve a difficulty with your unique skills or special service.

Example Solution: Yummy homemade cookies delivered fresh at lunch! They are delicious, healthy, and made with love—perfectly solving the school snack dilemma.

3. The Product (What Will You Sell?)

This is where your individual creativity shines. Your creation should be something you love to make or do! Fun examples include refreshing lemonade, custom handmade crafts, cookies, or artistic drawings.

4. Money Matters (Cost, Price & Profit)

To run a sustainable business, understanding how money flows is very important. Let's look at the basic financial terms used by real owners:

Term	What It Means	Example Amount
COST	The money you spend to buy raw ingredients, materials, or tools.	₹2
PRICE	The amount of money you charge customers to buy your finished product.	₹5
PROFIT	The sweet reward! The money you keep after paying off all your costs.	₹3

The Profit Formula:

$$\text{Price} - \text{Cost} = \text{Profit}$$

$$₹5 \text{ (Price)} - ₹2 \text{ (Cost)} = ₹3 \text{ (Profit!)}$$

5. Marketing (How Will People Know?)

Spread the word! Marketing helps everyone find out about your amazing business idea. You can utilize several cool strategies:

- **Posters:** Design bold, colorful signs to hang up safely around school or the neighborhood.
- **Word of Mouth:** Talk directly and enthusiastically to your friends, classmates, and family members.

- **Flyers:** Hand out small paper reminders with details and pricing.
- **Social Media:** Share your updates online (always make sure to have full help from adults!).

Section 3: Case Study & Application

Example Plan: Priya's Lemonade Stand

- **Problem:** Kids get incredibly hot and thirsty after playing outside on sunny days!
- **Solution:** Serve ice-cold, fresh *nimbu pani* (lemonade).
- **Product:** Pure homemade lemonade served in a clean cup for ₹5 each.
- **Money Math:** Cost = ₹2, Selling Price = ₹5, Profit = ₹3 per single cup.
- **Marketing:** Hang up vibrant hand-drawn posters by the playground and tell classmates.

Worksheet: Build Your Own Plan!

Now it's your turn to be the boss! Grab a pencil and map out your business idea by answering these five fundamental questions:

1. What real problem will your business solve?

2. What is your clever solution or idea?

3. Exactly what will you sell? (Describe your Product/Service)

4. Financial Plan (Fill out your anticipated numbers):

- My Estimated Cost: ₹ _____
- My Selling Price: ₹ _____
- My Final Expected Profit: ₹ _____

5. How will you market your product to find customers?

Section 4: Pitch Day Success

What is Pitch Day?

Pitch Day is the exciting event when you stand up confidently and present your business plan to a room full of people! It is your special chance to share your creative ideas and get others to say, "Wow! Great idea! So cool!"

Tips for an Unforgettable Pitch

A truly spectacular pitch tells a personal story. Share why you love your idea, demonstrate what makes it unique, and let your internal excitement shine out!

- **Show It:** Bring a real sample of your product or hold up a clear, colorful drawing of it.
- **Practice:** Set a timer and practice your sentences out loud multiple times before the actual day.
- **Speak Up:** Project your voice clearly and cleanly so people in the back rows can hear you well.
- **Smile:** Keep great eye contact, look welcoming, and remember to have plenty of fun!

Your Presentation Script Template

If you are nervous or don't know how to start, practice with this simple script layout:

"Hi everyone! I have a fantastic idea to share with you today. My brand new business is called [Insert Business Name] and I solve the real problem of [Insert Problem] by offering my special [Insert Solution]!"

It costs just ₹[Insert Price] to try out. Who would love to be my very first customer today?"

Next Steps to Success

Once Pitch Day wraps up, an entrepreneur's journey is just beginning! Always remember to:

1. **Listen carefully to feedback** given by your friends, classmates, and teachers.
2. **Keep improving and adapting** your business plan based on their helpful advice.
3. **Take bold action** and maybe launch your real-world micro-business soon!

Thank you! Ready to share your amazing ideas? You can do it!
