# ADDITION WAR CARD GAME

# COURSE OVERVIEW

Welcome to Addition War Card Game! This hands-on maths game is designed for Grade 1 students (ages 5-7). In just 30 minutes, children will build addition fluency through exciting card play.

**Learn + Play = Fun!**

# LEARNING OBJECTIVES

## GOAL 1

Add two single-digit numbers (1-10) and add three single-digit numbers together.

## GOAL 2

Compare sums using greater than ( $>$ ), less than ( $<$ ), and equal to ( $=$ ) symbols.

## GOAL 3

Understand the winning condition: higher sum wins! Practice fair play and taking turns.

# KEY CONCEPTS

## ADDITION

Putting numbers together using the + and = signs.  
Example:  $3 + 2 = 5$

## SUM

The total you get after adding numbers together.  
When we add  $4 + 3$ , the sum is 7!

## COMPARE

Finding which number is bigger or smaller using > (more than), < (less than), = (equal to)

# KEY CONCEPTS

ADDING THREE NUMBERS means adding the first two numbers together, then adding the third number to that result. For example:  $2 + 3 + 4 = ?$  First add  $2 + 3 = 5$ , then add  $5 + 4 = 9$ !

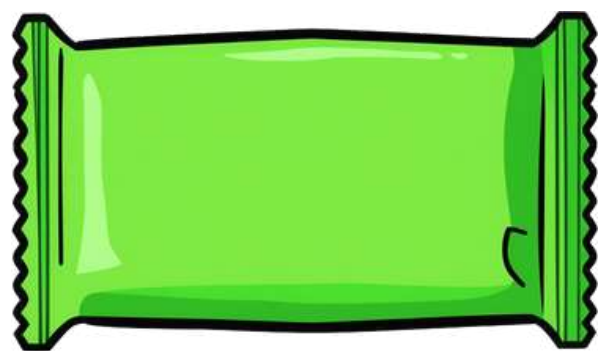

$$2 + 3 + 4 = ?$$

# SESSION OUTLINE

## WARM-UP 4 MINS

Show flashcards 1-10.  
Students call out  
numbers quickly to build  
recognition speed.

## CONCEPT INTRO 5 MINS

Explain addition  
concepts with visual  
aids. Use number lines  
and counters to show  
how numbers combine.

## GAME SETUP 3 MINS

Explain game rules  
clearly. Demonstrate  
card flipping, adding,  
and comparing sums.

# SESSION OUTLINE

## ROUND 1

Flip 2 Cards (8 mins):  
Each player flips 2  
cards and adds them.  
Higher sum wins!

## ROUND 2

Flip 3 Cards (7 mins):  
Players flip 3 cards  
and add all three  
numbers together.

## WRAP-UP

Reflection (3 mins):  
Discuss what was fun  
and which sums were  
tricky!

# KEY TEACHING MOMENTS

## SAY IT ALOUD

Always say addition sentences aloud: "4 PLUS 5 EQUALS 9!"  
This builds fluency.

## ENCOURAGE

Encourage finger counting if needed. It helps students visualize numbers and build confidence.

## CELEBRATE

Celebrate every correct answer with enthusiasm! Clap, cheer, or give high-fives to motivate learners.

# TEACHING TIPS

## CONNECT

Use Indian context examples naturally during play, like kirana store shopping or cricket runs.

## REINFORCE

Reinforce turn-taking and fair play. Remind students: "Wait for your turn" and "Be a good sport!"

## CELEBRATE

Praise every effort! Say "Well done!" even for small wins to build confidence and enthusiasm.

# SUCCESS CRITERIA

## GOAL 1

80% of students add two single-digit numbers correctly.

## GOAL 2

Students use the word "SUM" when describing their answers.

## GOAL 3

60% of students successfully add three numbers in Round 2.

A cartoon illustration of a young boy with dark brown hair, large expressive eyes, and a wide smile. He is wearing a yellow t-shirt and holding several playing cards in his hands. The background is split, with a white area on the left and an orange area on the right.

# BUILDING NUMBER SENSE

Quick recognition of card values boosts fluency! When students can instantly see that a card shows 7 or 4, they add faster. Practice through repetition and fun games like Addition War helps build this skill naturally. Soon, students feel confident with numbers 1 to 10!

1, 2, 3... 10! 

# REFLECTION TIME

## FUN

What was the most fun part of playing Addition War today?

## CHALLENGE

Which addition sums were easiest for you? Which ones were hardest?

## FAIR PLAY

How did you practice fair play and taking turns with your partner?
