

OUR TIFFIN CHART!

Math – Data Collection & Bar Graph (Grade 1)

THE TIFFIN BOX MYSTERY

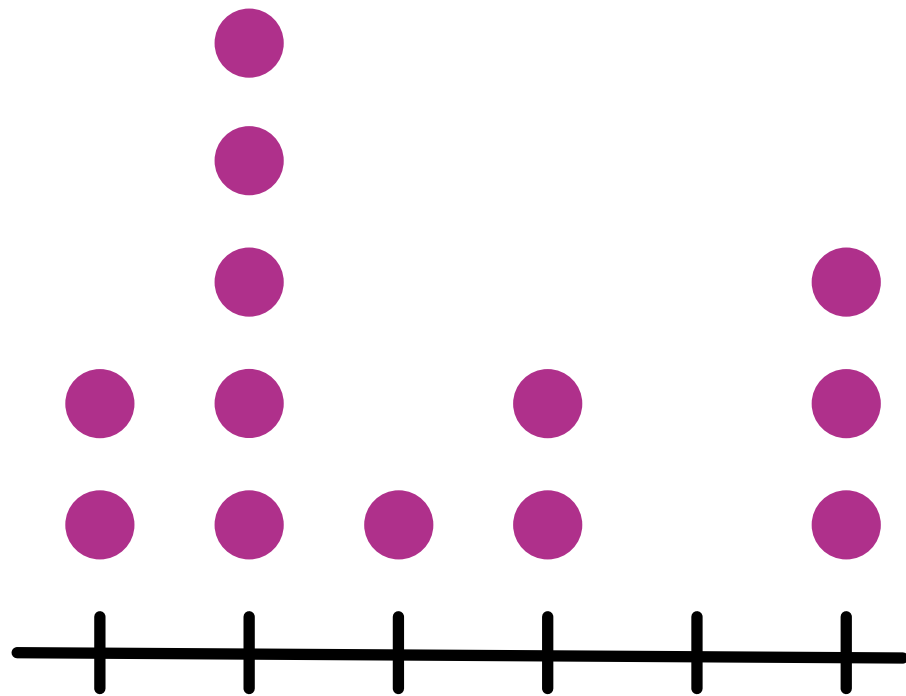

We are **DATA DETECTIVES!**

Ramesh bhaiya the school cook wants to make the BEST tiffin ever — but he needs YOUR help!
Let's solve the mystery together!

WHAT IS DATA?

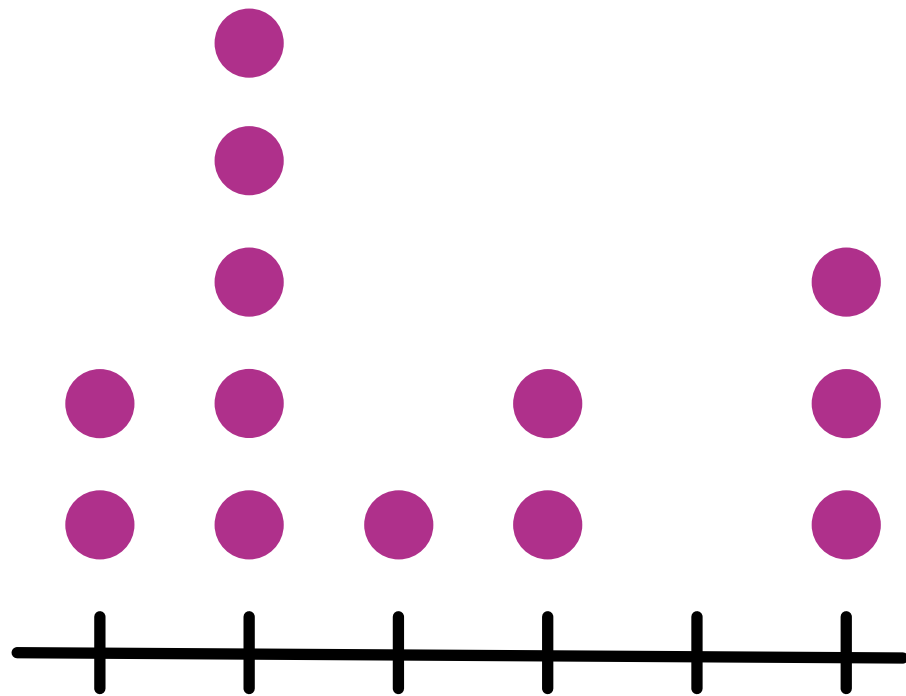

information we collect and count!

Data means information we collect by asking questions or counting things. Like the sabziwala counting how many kilos of tomatoes he sold!

WHAT ARE TALLY MARKS?

Tally marks help us count easily!

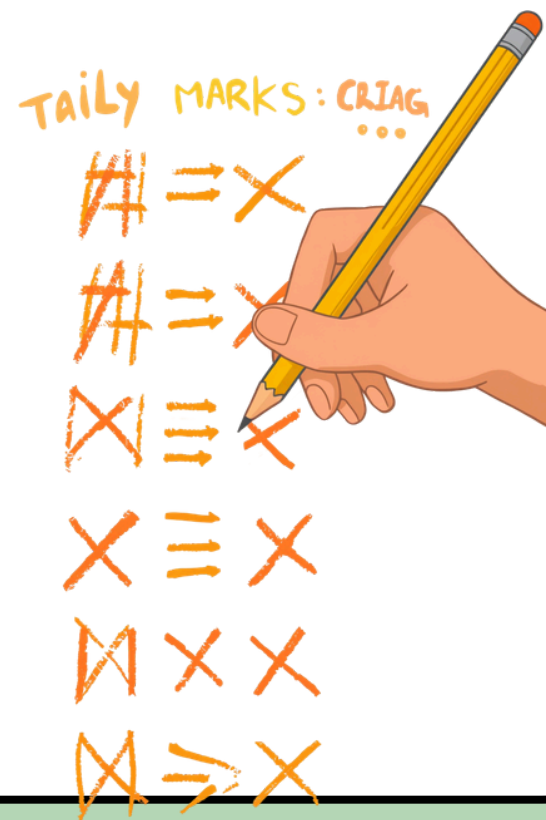

Draw lines to count: | || ||| |||| and cross for 5!

Like kirana aunty marking biscuit packets sold

LET'S PRACTICE TALLY MARKS!

Count it. Draw it.

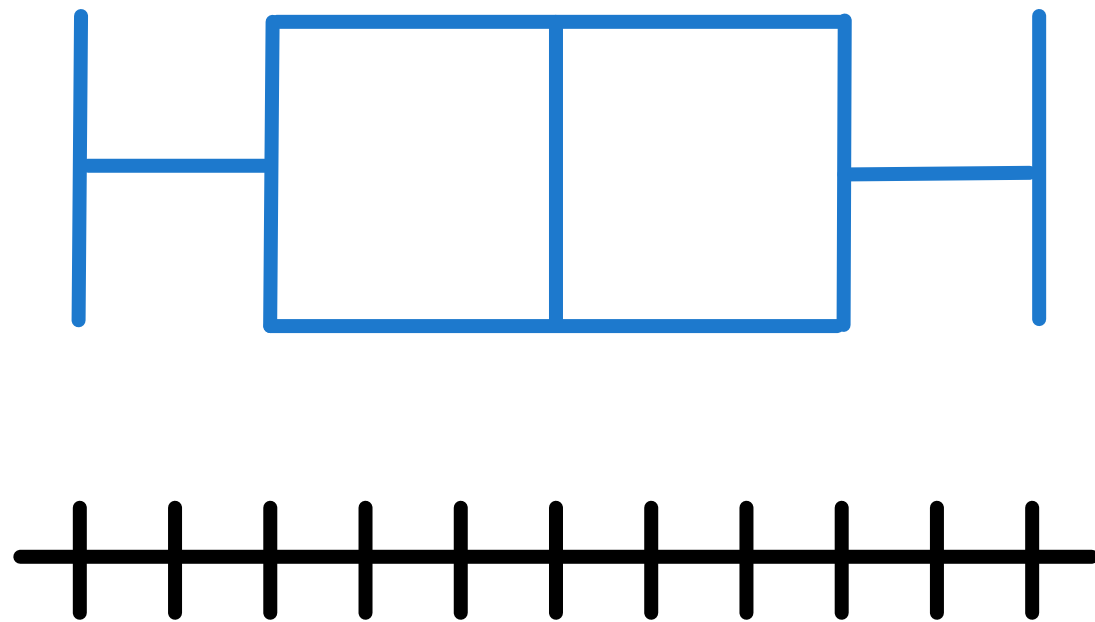

Draw tally marks for these numbers:

1 → 3 → 5 →

WHAT IS A TALLY CHART?

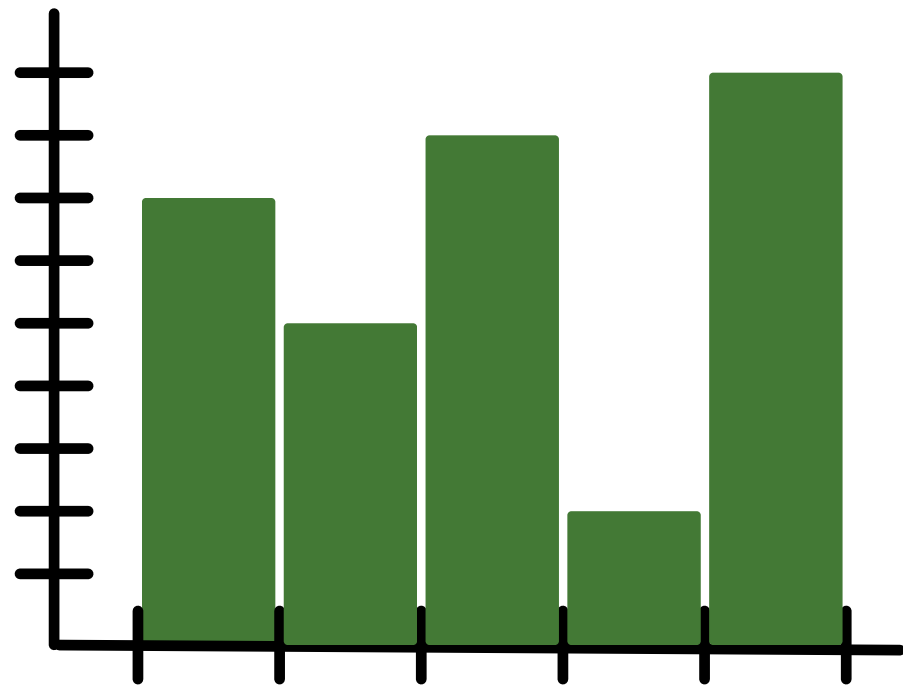

A table to organize our counting!

A tally chart has three parts:
Category | Tally | Total
(What we count) | (Our marks) | (The number)

SAMPLE TALLY CHART

Look! This is how many children like each fruit!

Favourite Fruit Tally Chart:

Mango: |||| (4)

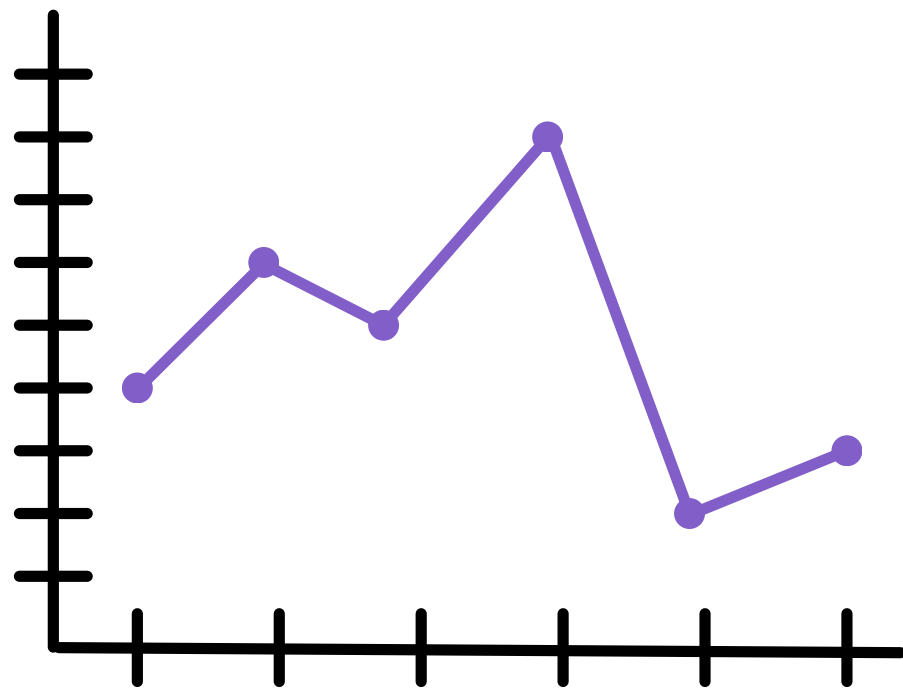

Banana: ||| (3)

Apple: ||||| (5)

Guava: || (2)

FROM TALLY CHART TO BAR GRAPH

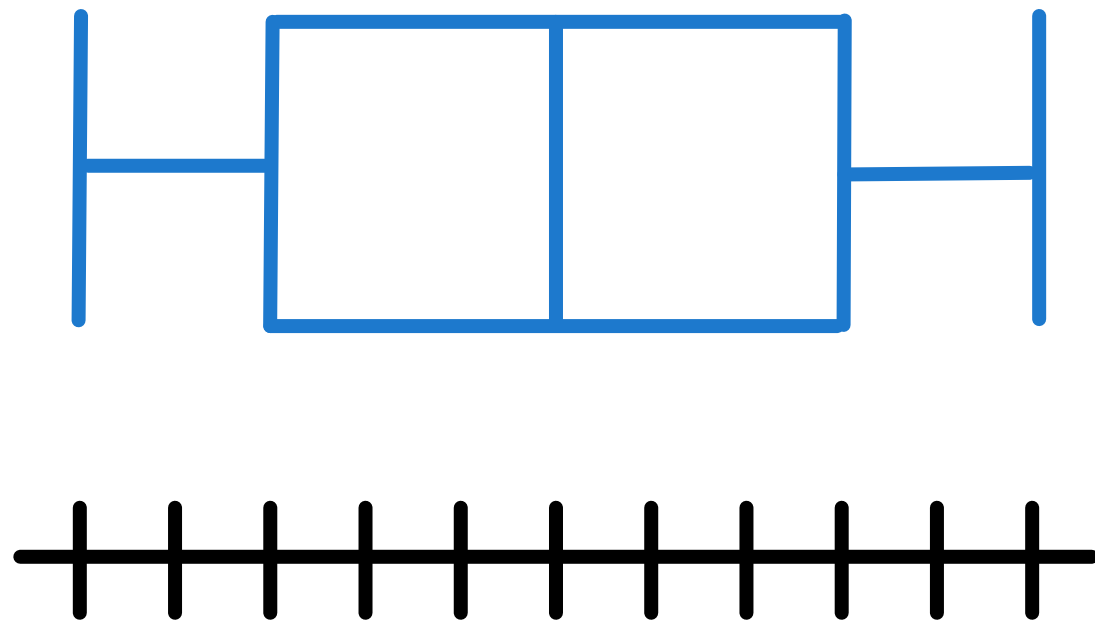

Bars show how many – taller means more!

Turn tallies into colorful bars!
Taller bars mean MORE votes
Shorter bars mean FEWER votes

WHAT IS A BAR GRAPH?

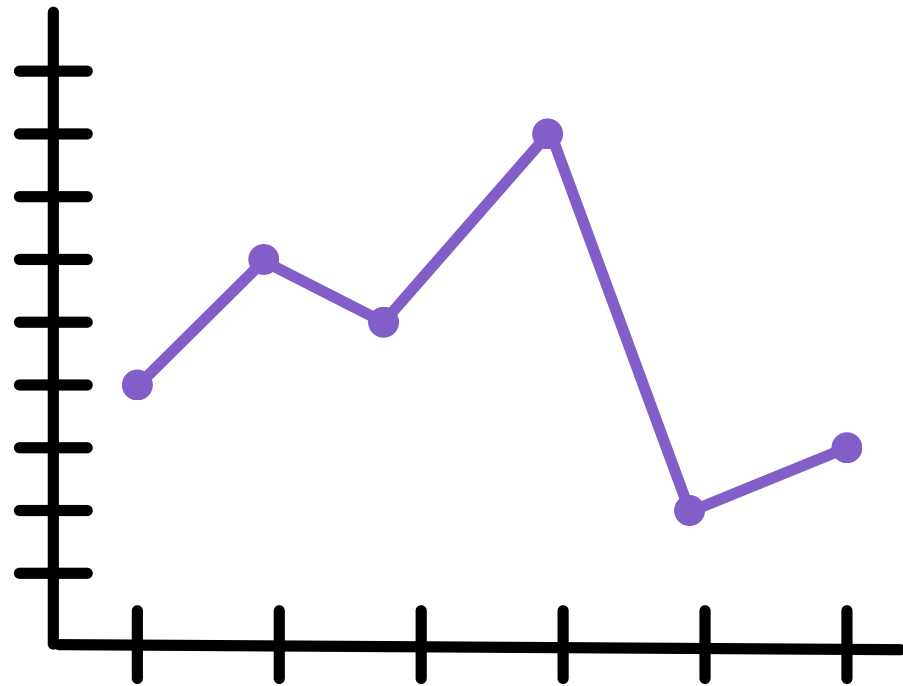

A picture that shows data with bars!

Categories go on the bottom, numbers go on the side (0 to 10)
Like a cricket scoreboard showing player scores!

SAMPLE BAR GRAPH

Which fruit do most children like?

Look at the tallest bar!

Mango is the favourite fruit of most children

Count the squares to find each number

READING BAR GRAPHS!

Look at the Favourite Fruit bar graph and answer:

How many like mango?

Which fruit is most popular?

Which two have same
votes?

LIVE SURVEY ACTIVITY

Instructor Demo

Ask your class: "What's your favourite fruit?" and write down answers!
Build a tally chart together, then color your bar graph on the board!

I AM A DATA DETECTIVE!

Student Activity

Task 1: Read the tally chart showing how children come to school (Walk, Cycle, Auto, Car).

Task 2: Color the bar graph using the same transport data.

Task 3: Ask 5 friends about their favourite tiffin snack (Roti, Idli, Paratha, Sandwich) and make tally marks!

GALLERY REVIEW

Graph A

Bars match the tally chart totals

Graph B

One bar is too tall for its count

Correct?

Which graph is correct?

Mistake?

What mistake do you see?

DATA DETECTIVE CHALLENGE!

Thumbs up or thumbs down? Let's test what you learned!

Tally marks help us count.

Taller bars mean fewer votes.

A tally chart has categories.

DATA DETECTIVE CHANT!

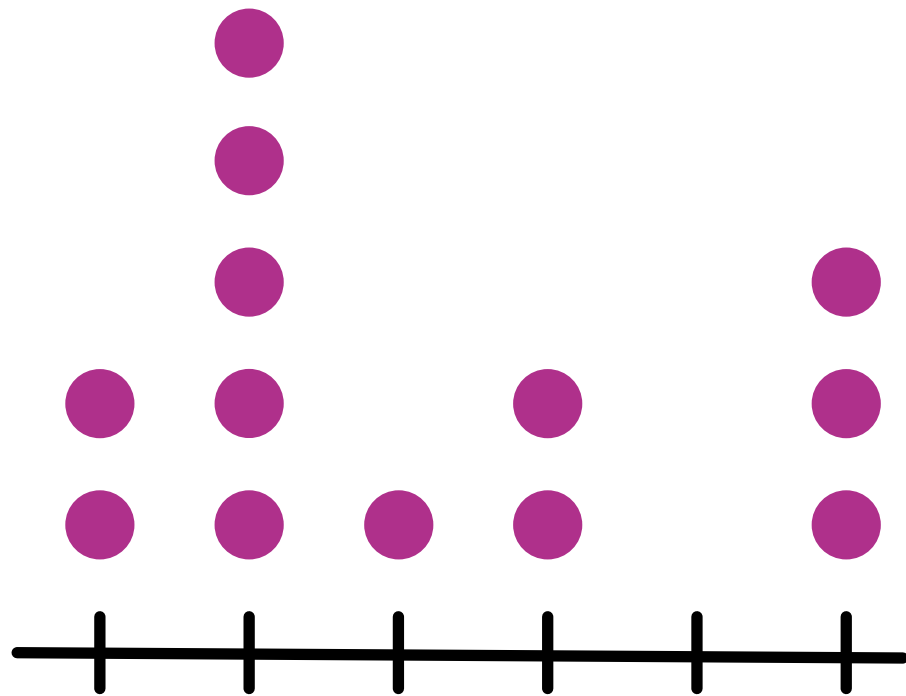

COLLECT it! COUNT it! CHART it! That's
DATA!

You are now a Certified Data Detective!

PARENT CORNER

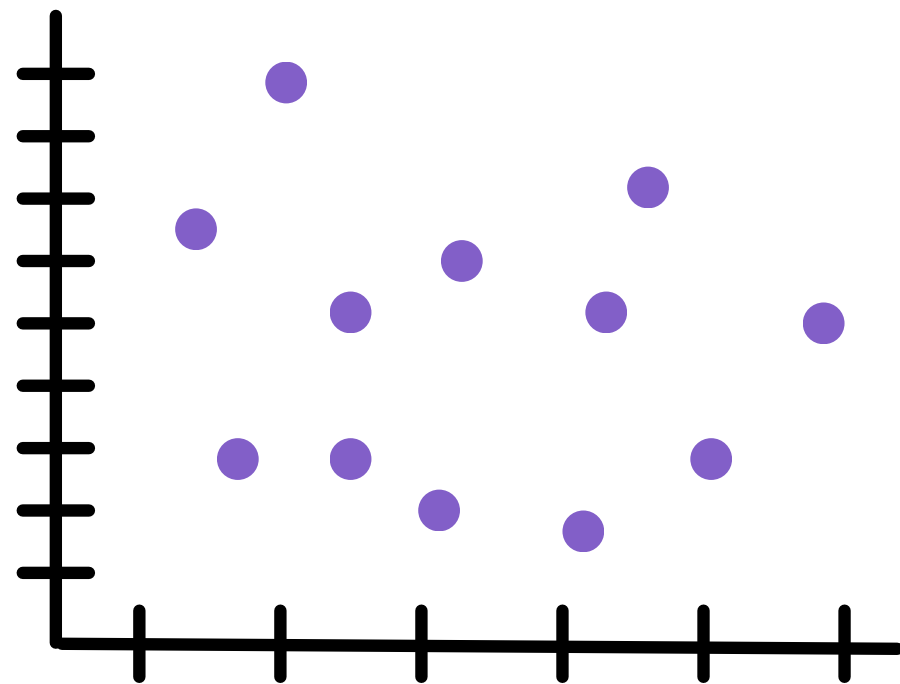

fun activities to try at home!

Try a family survey about favourite snacks!
Make your own bar graph at home with family.

THANK YOU, DATA DETECTIVES!

Keep exploring the world of data!

You learned to COLLECT it, COUNT it,
and CHART it!
Now you're a Certified Data Detective!
