

LED TRAFFIC LIGHT COURSE

WELCOME TO OUR TRAFFIC LIGHT LESSON!

Hello friends! Today we learn about traffic lights.
Let's see how they keep us safe on roads. Are you
ready to become road safety champions?

WHAT IS A TRAFFIC LIGHT?

A traffic light is a signal post at road crossings. It helps cars and people know when to stop or go. The lights change colors to tell everyone what to do. Red, yellow, and green lights keep our roads safe!

RED LIGHT MEANS STOP

Red means STOP! Wait and do not move.

When you see the red light, all cars and people must stop. Look at the auto-rickshaw waiting at the red signal. See the children waiting safely at the school gate.

Always remember: Red light = Stop!

YELLOW LIGHT MEANS WAIT / GET READY

Yellow means WAIT. Get ready to go! When you see the yellow light, it tells us to be careful. Cars slow down and people get ready. Look at the school van getting ready to move and the traffic police uncle signaling everyone to be alert!

GREEN LIGHT MEANS GO

Green means GO. You can move now!

When the green light shows, cars and people can go safely.

Look both ways before crossing. See the bicycle moving
and children crossing the road with big smiles!

TRAFFIC LIGHT RHYME

Red says STOP — don't go yet!
Yellow says WAIT — are you set?
Green says GO — off you go!
Traffic lights put on a show!

WHAT IS LED?

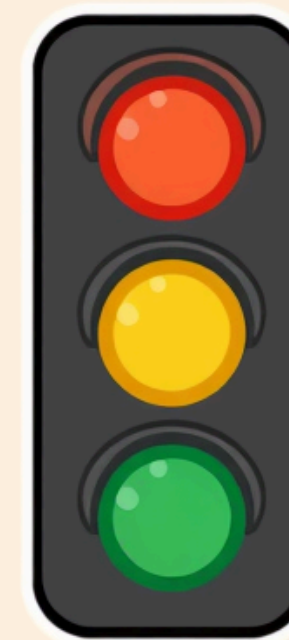

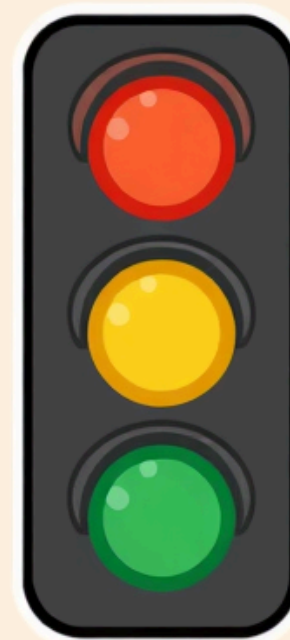

LED means Light Emitting Diode. LED lights are very bright and save electricity. They help us see traffic lights clearly, even at night! LED lights last a long time and keep us safe on the road.

ORDER OF TRAFFIC LIGHTS

Traffic lights change in this order:

RED → YELLOW → GREEN → YELLOW → RED

The lights keep going round and round to keep everyone
safe on the road!

PEDESTRIAN CROSSING (ZEBRA CROSSING)

Zebra crossing has black and white stripes. It helps people cross the road safely. Always look left and right before crossing. Wait for the green light, then walk carefully!

WHY ARE TRAFFIC LIGHTS IMPORTANT?

Traffic lights keep us safe.
They stop accidents.
Traffic moves in order.
Everyone knows when to go or wait.

ACTIVITY 1: COLOR & MATCH

Let's play! Match the color to the right meaning.

Red circle → Stop

Yellow circle → Wait

Green circle → Go

Point to each color and say its meaning out loud!

Stop

Wait

Go

ACTIVITY 2: ROLE PLAY SCENARIO

Let's pretend! You are traffic police or a pedestrian.
Use red, yellow, green cards to tell when to stop, wait,
or go. Practice with your friends and have fun learning
road safety!

QUICK QUIZ TIME!

Q1: What does red light mean? (Stop!)

Q2: What color means go? (Green!)

Q3: What do we see on a zebra crossing? (Black and white stripes!)

Great job! You got it!

SAFETY PLEDGE & CLOSING

Red means Stop. Yellow means Wait.

Green means Go.

I will always follow the traffic light!

Thank you! Stay safe and smart on roads!
