

BE THE ROBOT!

WARM-UP: FREEZE ROBOT GAME!

**Let's play
Freeze
Robot!**

**Make
movement
fun.**

WHAT IS A ROBOT?

A robot is a machine that listens and does exactly what we tell it!

Can robots think like us?

ROBOTS NEED EXACT INSTRUCTIONS

**Like a
delivery
person in
your mohalla
— they need
exact
directions!**

**Robots
can't guess
— they
need exact
steps!**

FOUR BASIC ROBOT COMMANDS

MOVE
FORWARD

MOVE
BACKWARD

TURN LEFT

TURN RIGHT

MORE ROBOT COMMANDS!

Spin Left

Spin Right

DEMO TIME: TEACHER AS PROGRAMMER!

**I will be the
programmer.
You will be
the robot!**

**Listen
carefully,
one step at
a time!**

MAIN ACTIVITY: NAVIGATE THE GRID

**Use your
commands
to guide the
robot!**

**Can you
reach the
STAR?**

SEQUENCING COMMANDS

STEP 1

Move Forward 2
Steps

STEP 2

Turn Right

STEP 3

Move Forward 1 Step

Instruction: "Move forward 2 steps, turn right, then move forward 1 step to reach the star!"

DEBUGGING: FIXING MISTAKES

**If the robot
goes the
wrong way,
we check the
steps!**

**You found
the
mistake —
that's
debugging!**

THAT'S A REAL PROGRAMMER!

**You just
thought like
a real
programmer!**

**That's
exactly
what
robots
need!**

REFLECTION TIME

What commands do robots understand?

Why do robots need exact instructions?

How did you fix mistakes?

AWARDING ROBO-STAR BADGES!

**You earned your
Robo-Star
Badge!**

**Well done,
little
programmers!**

WHAT WE LEARNED TODAY

Robots follow exact instructions, no guessing!

Four basic commands to move a robot.

Commands must be in the right order.

WHAT WE LEARNED TODAY

**Debugging:
Finding & fixing
mistakes!**

**Precise Language:
Helps robots work
perfectly!**

THANK YOU!
