

THE CLOCK CHALLENGE!

Time Races with Lambu and Chotu

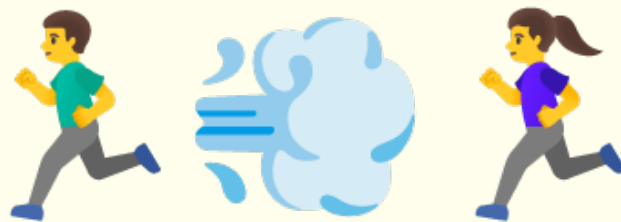

My Fun Time-Reading Book

Oh No, Arjun!

Beep! Beep! Honk! Honk!

Arjun opened his eyes. He jumped out of bed and ran to the window. Oh no! The big yellow school bus was already driving away down the road!

Arjun missed the school bus! But why? Because he did not check the clock. Let's help Arjun learn how to read a clock so he is never late again!

Meet Mr. Clock!

Look closely at the face of a clock. It is a big, friendly circle!

Look at all the numbers going around in a perfect ring. It starts with 1 at the top right, goes all the way around, and ends at 12 at the very top.

Every single number has its own special, fixed seat on the clock face. Let's point and count them together: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12!

Lambu and Chotu

A clock has two spinning arms called hands. Let's meet our two clock friends:

Meet Lambu!

Lambu is the **Long Hand**. He is painted bright blue. He is very tall and shows us the minutes!

Meet Chotu!

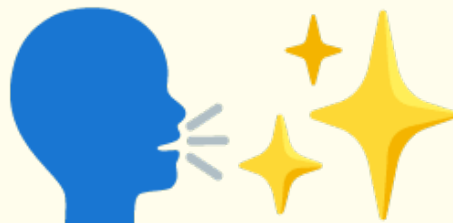

Chotu is the **Short Hand**. He is painted bright red. He is shorter and shows us the hour!

The Secret Word: O'Clock! 🤔

When our tall friend Lambu (the long blue hand) walks all the way to the top and points straight up at the number 12, something magical happens.

Whenever Lambu is pointing directly at 12, we shout the magic word: **"O'Clock!"**

Then, we look at little Chotu (the short red hand) to see what hour it is. If Chotu points to 3 and Lambu points to 12, we say it is **3 o'clock!**

7 O'Clock - Bus Time!

Wake up, Arjun! It is time to see the clock in action.

Look where the hands are pointing:

- Little red Chotu points straight at the **number 7**.
- Tall blue Lambu points straight up at the **number 12**.

Because Lambu is at 12, we say "O'Clock". Since Chotu is at 7, it is **7 o'clock**! This is the exact time the school bus arrives to pick you up.

12 O'Clock - Lunch Box Time! 🍱

Ring! Ring! It is time for a break. Your tummy is rumbling!

Look at the clock face now. Something funny is happening!
Both hands are pointing to the exact same place!

- Short red Chotu points straight up to **12**.
- Long blue Lambu also points straight up to **12**.

They are hiding behind each other! This means it is exactly **12 o'clock**. Open up your tiffin box and eat your delicious lunch!

1 O'Clock - Fun Learning!

Lunch time is finished, and it is time to do some fun drawing and reading.

Let's check our clock buddies again:

- Short red Chotu has moved a little bit. He now points directly at the **number 1**.
- Long blue Lambu is still standing straight up at the **number 12**.

Can you guess the time? Yes! It is exactly **1 o'clock**. You are getting so good at this!

3 O'Clock - Activity Time! 🎈

The school day goes by so fast when we are having fun.

Let's look at the clock on the classroom wall:

- Short red Chotu has marched down to point at the **number 3**.
- Long blue Lambu is still resting straight up at the **number 12**.

Since Chotu is at 3 and Lambu is at 12, it is **3 o'clock!** Time for our afternoon sports, games, and fun projects!

9 O'Clock - Sweet Dreams! 🌙

The stars are out, the moon is shining bright, and it is time to rest our bodies after a fantastic day.

Where are our clock hands pointing before we sleep?

- Short red Chotu is pointing over to the **number 9**.
- Long blue Lambu is pointing way up to the **number 12**.

It is exactly **9 o'clock**! Good children hop into bed, turn off the lamps, and have sweet dreams about their next adventure.

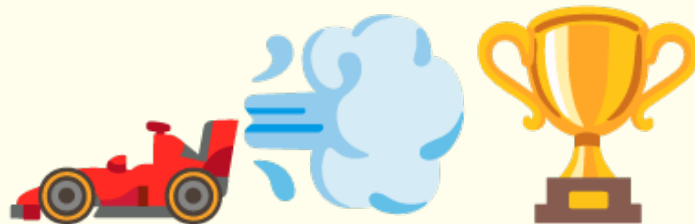

The Clock Challenge Race!

Are you ready to test your awesome new clock superpowers?
Welcome to the **Clock Challenge Race!**

We have fun questions for you. Look closely at the clues, pick the best answer, and earn a bright gold star for each one you get right!

Ready, Set, Go! Let's read the clocks as fast as we can!

Race Question 1

Look at this clue carefully:

Our long blue hand **Lambu** points straight up to **12**.
Our short red hand **Chotu** points directly at **9**.

What time is it?

A) 12 o'clock

B) 9 o'clock (Correct!)

C) 4 o'clock

Race Question 2 ★★

Let's check the next clock face:

Our long blue hand **Lambu points to 12.**
Our short red hand **Chotu points to 5.**

What time does this clock show us?

A) 5 o'clock (Correct!)

B) 6 o'clock

C) 12 o'clock

Race Question 3

Here is a tricky one for our clock experts:

Our long blue hand **Lambu** points directly at 12.
Our short red hand **Chotu** points directly at 8.

What time is it?

A) 12 o'clock

B) 8 o'clock (Correct!)

C) 4 o'clock

Home Fun Activity

You did an amazing job today! Now you have a fun home mission as a true Clock Expert:

- Take a blank piece of paper and draw a big, beautiful round clock circle.
- Write the numbers 1 to 12 all around the circle in their correct seats.
- Draw a long blue hand pointing to 12, and a short red hand pointing to your favorite time!
- Show it to your mom, dad, or friends and tell them the magic time!

 **Hooray! You are a Clock Champion!**
