

The Game Maker's Secret: Rules, Tools, and Fun!

The Mystery Box Hook

Go let's invent a game with these!
Can we make a game using these?
What's the idea?

What Makes a Game?

Every game has three magical parts! Think about Subway Surfer and Gully Cricket – they all have these secrets that make them fun to play.

Goal (Lakshya) – What do you want to win or do?

Rules – How do we play fair and have fun?

Components – The pieces or things we use!

Why Rules Matter

Rules are like traffic lights – without them, it's just hungama (chaos)! If someone breaks a rule, the game is not fun or fair. Fair play is important!

The Rule-Breaker Challenge!

Let's play Tag , but with one twist: You can only hop like a frog to catch others! Ready to try?

Hop like a frog – no running allowed!

If you stop hopping, you're out!

How does this new rule change the game? Did you have fun?

Step 1: Pick Your Pieces

What will you use to play your game? Choose your materials! Look around your home for fun items to create your very own game.

Socks, bottle caps chalk

Notebook, spoon, handkerchief

Cups, stones, or old newspapers

Step 2: Give Your Game a Fun Name!

What will you call your game? What name did you choose? Think of something fun and exciting!

Step 3: Make 2 Easy Rules (Niyam)

Keep it simple – only 2 rules! Rules tell players what they can and cannot do. What are your rules? What rules did you make?

"You must hop to move"

"If you drop the cup, you lose a turn"

Think of rules that make your game fun and fair!

Design Lab - Step 4: Test It Out!

Time to play and test your new game! It will be fun! Try your rules and see if everyone has fun.
Are you having fun?

The Inventor's Parade

Share your amazing game with the class! Stand up and tell everyone about your creation. What a thing!, what a great game!

Game Name – What did you call your game?

The Big Goal (Lakshya) – What do players try to do?

Favorite Rule – Which rule makes it fun?

Remember: Fair Play is Fun!

"Rules keep the game fun
and fair for everyone!"
If someone breaks a rule, we
say 'Oops! Let's play fair!'

**You are the
Boss of Fun!**
