

My Digital Portfolio Adventure!

A Fun Grade 3 Guide to Showcasing Your Best Work Safely

What is a Digital Portfolio? It is like a magical digital treasure chest on the computer! You can use it to store and show off your absolute favorite drawings, amazing stories, certificates, and school projects. Let's learn how to build one together in 5 simple steps!

The 5 Easy Steps

STEP 1

Create a Magical Folder

Tool: Google Drive

Before putting treasures away, we need a chest! Let's make a safe spot for your work:

- Open up **Google Drive** on your computer.
- Look for the big plus button that says **New**, then click **Folder**.
- Type in the perfect name: **"My Portfolio"**.
- Now you have a special home ready for your school work!

STEP 2

Write Your "About Me" Story

 Tool: Google Docs

Every portfolio needs a friendly introduction so people know whose awesome work they are looking at!

- Open up a new page in **Google Docs**.
- Write a short and fun introduction all about yourself!

Safe Details to Share:

- ☐ Your First Name ☐ Your Class/Grade ☐ Your Hobbies ☐ Favorite Subject ☐ A Small Drawing of You

Remember: Keep it safe! Never share secrets or private information with strangers.

STEP 3

Collect Your Treasures

 Tool: Your Best Work

Time to find your proudest moments and drop them into your new digital folder!

- **Beautiful Art:** A drawing or painting you really love.
- **Top Projects:** Your best class work, stories, or science experiments.
- **Proud Rewards:** Reading certificates, sports ribbons, or badges!

STEP 4

Build Your Digital Showroom

 Tool: Google Slides or Google Sites

Let's arrange your pages neatly so they look like a real website or dynamic presentation slide show!

- Create columns or slides to organize everything beautifully.
- **Page Ideas to Make:**
 -  **Home** (The welcoming front door!)
 -  **About Me** (Your introduction story)
 -  **My Work** (Your favorite projects)
 -  **Certificates** (Your rewards and ribbons)

STEP 5

Share Your Work Safely

 Tool: Smart Sharing

A portfolio is meant to be shared, but only with people who support and care about you!

- **Who can you share with?** Your teacher  and your parents .
- **Golden Rule:** Never, ever share your link or portfolio with strangers! Keep your digital door locked to anyone you don't know.

Quick Quiz Time!

1. Which tool helps you make a folder?

- ☐ Google Drive ☐ Google Docs ☐ Google Slides

2. Which tool helps you write your About Me page?

- ☐ Google Drive ☐ Google Docs ☐ Google Sites

3. Which tool can help you build or show your portfolio?

- ☐ Google Slides ☐ Google Photos ☐ Google Calendar

Folder, Docs, add work, build, share safely! Great job! You are a digital explorer!
