

HTML BASICS FOR YOUNG CREATORS

MEET KABIR AND RHEA

Rhea

Kabir and Rhea make a digital card for Dadi's birthday. They want to add a list of sweets and a family photo — just like a scrapbook, but on a webpage!

Kabir

FROM PAPER TO WEBPAGE

A webpage is like a digital scrapbook!
Just like you paste photos and write on
paper, a webpage uses special tags to tell the
computer what to show.  

WHAT IS A LIST?

01

`<ul>` means shopping bag (unordered list).
It holds all your items together!

02

`<li>` means list item. Each thing in
the bag gets its own `<li>` tag.

03

Example list from Dadi's kirana shop:
• Maggi • Milk • Mangoes

LET'S MAKE A LIST!

01

start the list bag with `<ul>` — this opens your shopping bag!

02

Add items using `<li>Sweet Mangoes</li>` and `<li>Crunchy Murukku</li>` inside the bag.

03

Close the bag with `</ul>` — this is how we write a list in HTML!

WHAT TAG STARTS OUR LIST BAG?

A

(A)
Is this the tag that starts a list bag?
Think carefully!

B

(B)
☒ Yes! This is the correct answer! starts
our list bag!

C

(C)
Hmm, is there a tag called ? Check
your notes!

THE MAGIC PHOTO FRAME

TAG

is a magic photo frame! It shows pictures on your webpage. Just like a frame holds a photo on the wall, the tag holds a picture on your page.

SRC = PHOTO DRAWER

src tells the computer where the photo is kept!

Example:

No closing tag needed!

HOW TO SHOW A PICTURE

01

The tag has the src attribute written inside quotes to find your picture file.

02

Example code: — this tells the browser where to find the image!

03

The tag does NOT need a closing tag. It is a self-closing tag — just one tag does the job!

GUIDED PRACTICE: WRITE A HEADING

Write a heading for your page!
Type the tag, write your title,
then close it. Try it yourself!

MAKE A LIST!

01

Make a list of 3 sports items.

02

Add each item inside a tag!

03

Close the list with !

ADD AN IMAGE!

Add a picture of your
playground.
This tag does not need a closing
tag!

MY DIGITAL SCRAPBOOK PREVIEW

TAG

Write to open and to close your shopping bag list.

TAG

Every thing in your list gets its own and tags.

TAG

is your magic photo frame! It shows pictures on your webpage. No closing tag needed!

SRC ATTRIBUTE

src tells the computer where the photo is kept!
Example:
Always use quotes!

TYPE CAREFULLY!

Tags need < and > brackets.
Quotes go around src values.
Small mistakes matter —
check your typing!

REVIEW TIME!
