

BUBBLES OF LIFE: WATCHING PLANTS BREATHE UNDERWATER

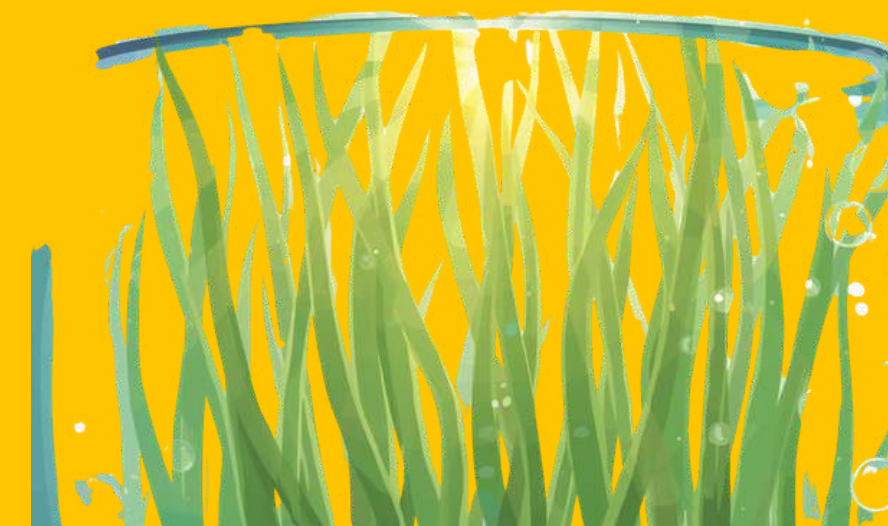

THE MAGIC TANK AT THE MELA

WOW!

"Look! The plant is making tiny bubbles.
What are they?" asked Ishaan excitedly.
Ishaan and Grandmother watched the bubbling
Hydrilla plant at the village fair nursery.

HOW PLANTS MAKE FOOD

PLANTS ARE LIKE LITTLE CHEFS MAKING
FOOD AND AIR!

PLANTS COOK FOOD LIKE ROTIS IN THE RASOI!

THEY NEED WATER, AIR, AND SUNLIGHT.

THESE ARE THEIR KITCHEN HELPERS!

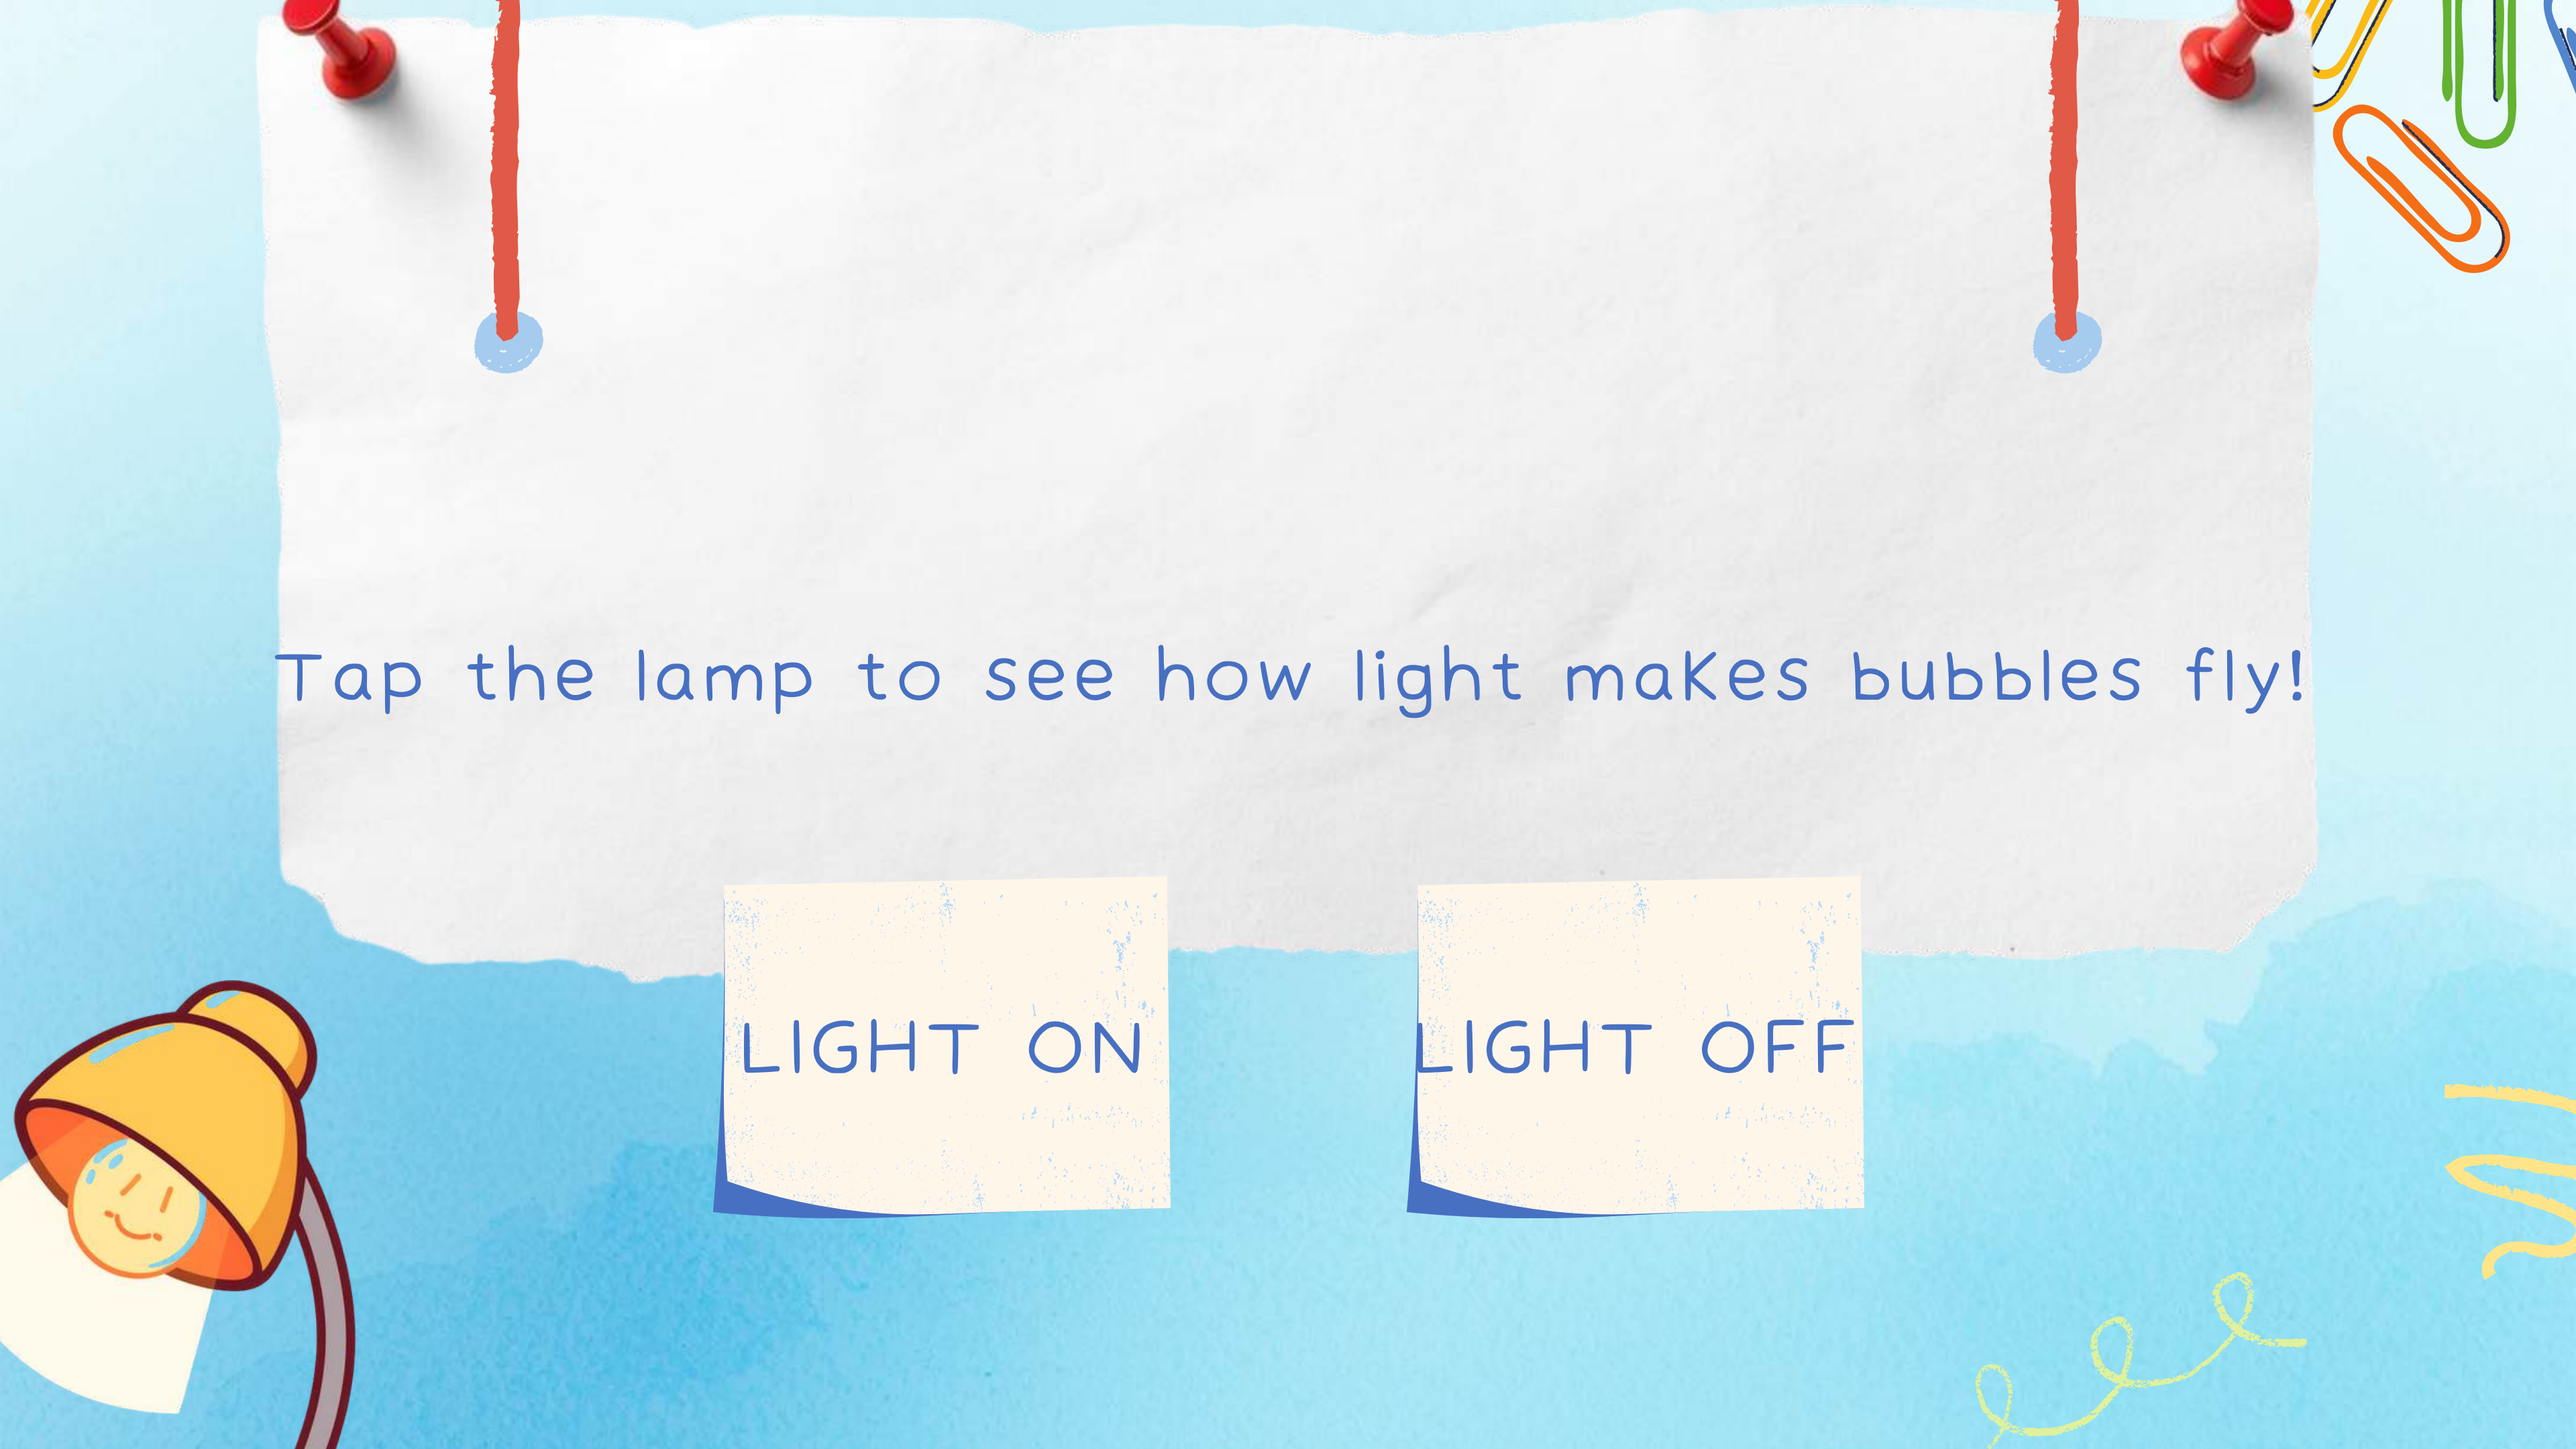

WHEN THEY COOK, BUBBLES COME OUT.

THESE BUBBLES ARE OXYGEN FOR US!

1.

HYDRILLA - UNDERWATER
SUPERHERO!

Tap the lamp to see how light makes bubbles fly!

LIGHT ON

LIGHT OFF

BUBBLE COUNTER CHALLENGE

BE AN ECO-DETECTIVE!
FOLLOW THESE STEPS.

COUNT BUBBLES FOR 10 SECONDS

TRY BRIGHT SUN LIGHT

TRY MEDIUM LIGHT

TRY NO LIGHT AT ALL

RECORD YOUR COUNTS!

BRIGHT SUNLIGHT BUBBLE COUNT

25!

Bright sun makes the leaf Kitchen work
fastest!
We counted 25 bubbles in just 10 seconds!
The plant is cooking food super quickly
and sending out lots of oxygen bubbles!

ee

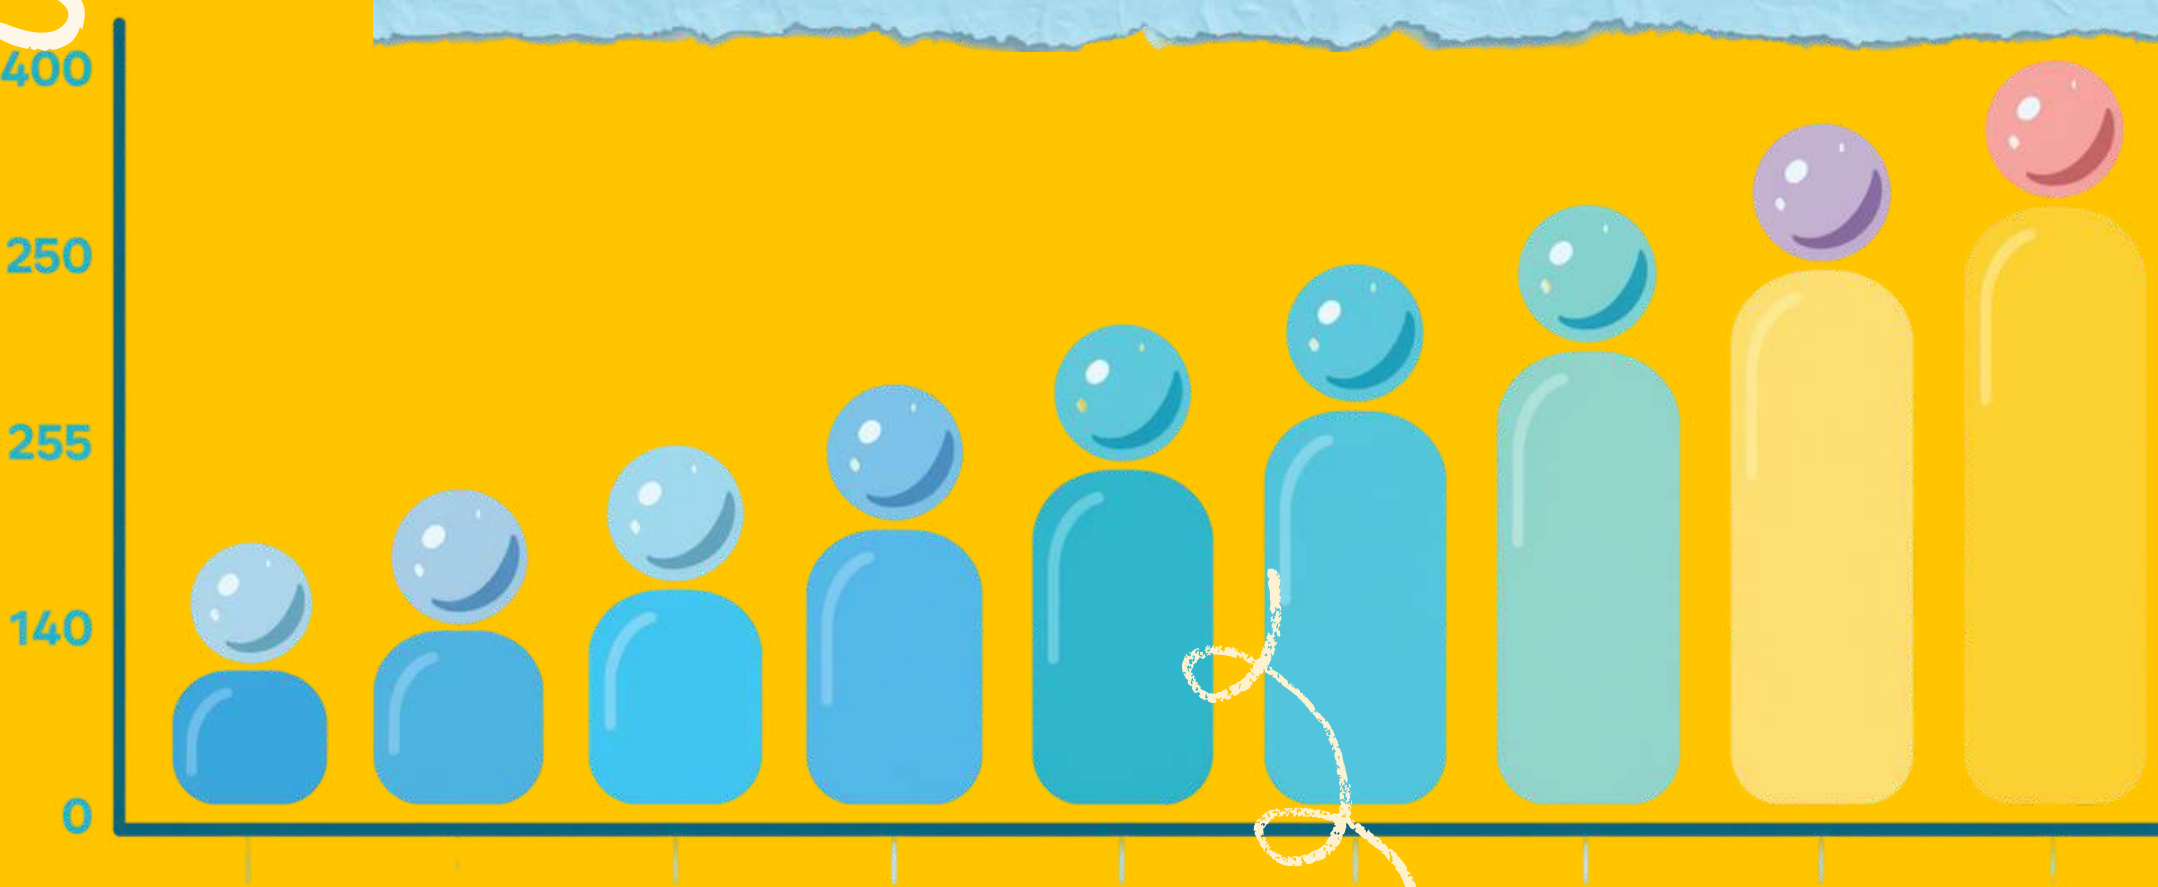

MEDIUM LIGHT BUBBLE COUNT

12

ee

Medium light cooks bubbles at medium speed!
With medium light, the Hydrilla plant made 12 bubbles in 10 seconds. The leaf Kitchen is working, but not as fast as bright sun.

NO LIGHT BUBBLE COUNT

0-2

No light means the plant's Kitchen stops
bubbling!
Without sunlight, Hydrilla cannot cook food.
Only 0-2 bubbles appear in 10 seconds.

QUIZ TIME!

WHAT ARE THE BUBBLES
MADE OF?

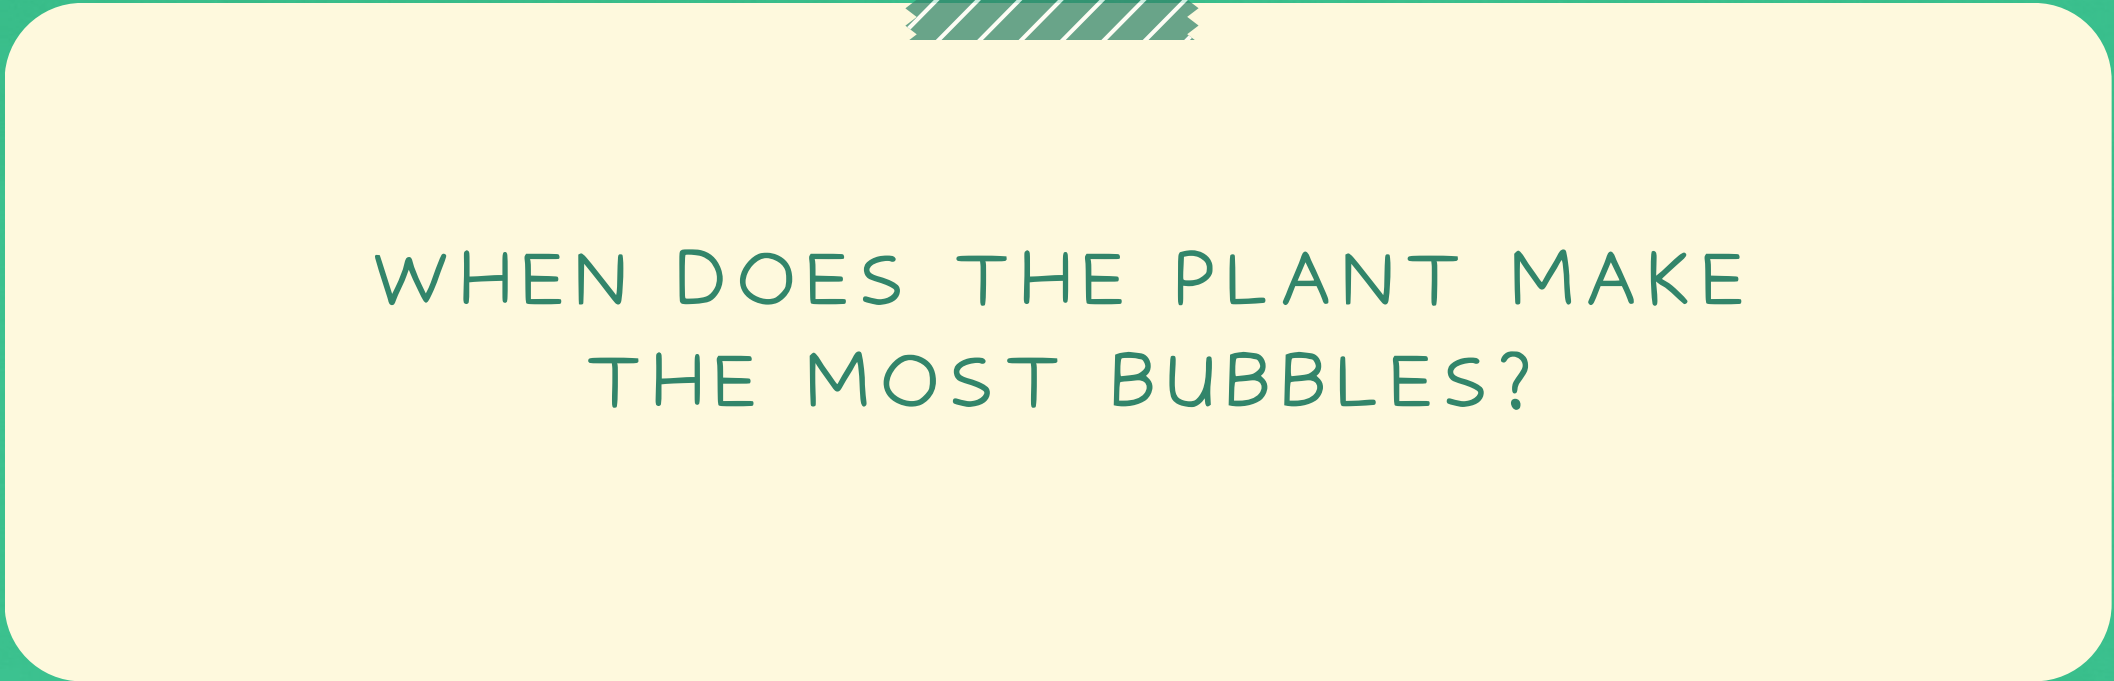

A. OXYGEN

B. CARBON DIOXIDE

C. WATER VAPOR

D. AIR

MULTIPLE CHOICE

WHEN DOES THE PLANT MAKE
THE MOST BUBBLES?

A. BRIGHT SUN

B. MEDIUM LIGHT

C. NO LIGHT

D. ALL THE SAME

SORTING ACTIVITY

DRAG EACH ITEM TO THE
CORRECT BOX!
