Let's Add Together!

50

Welcome young mathematicians! Today we will learn to add numbers up to 50 using fun everyday things like toys, fruits, and crayons. Get ready for an exciting addition adventure!

Addition Up To 50

What We Will Learn!

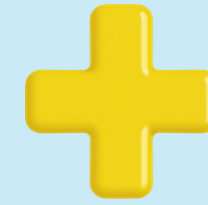

Count and add objects together to find the total up to 50

Use number lines to help us add numbers step by step

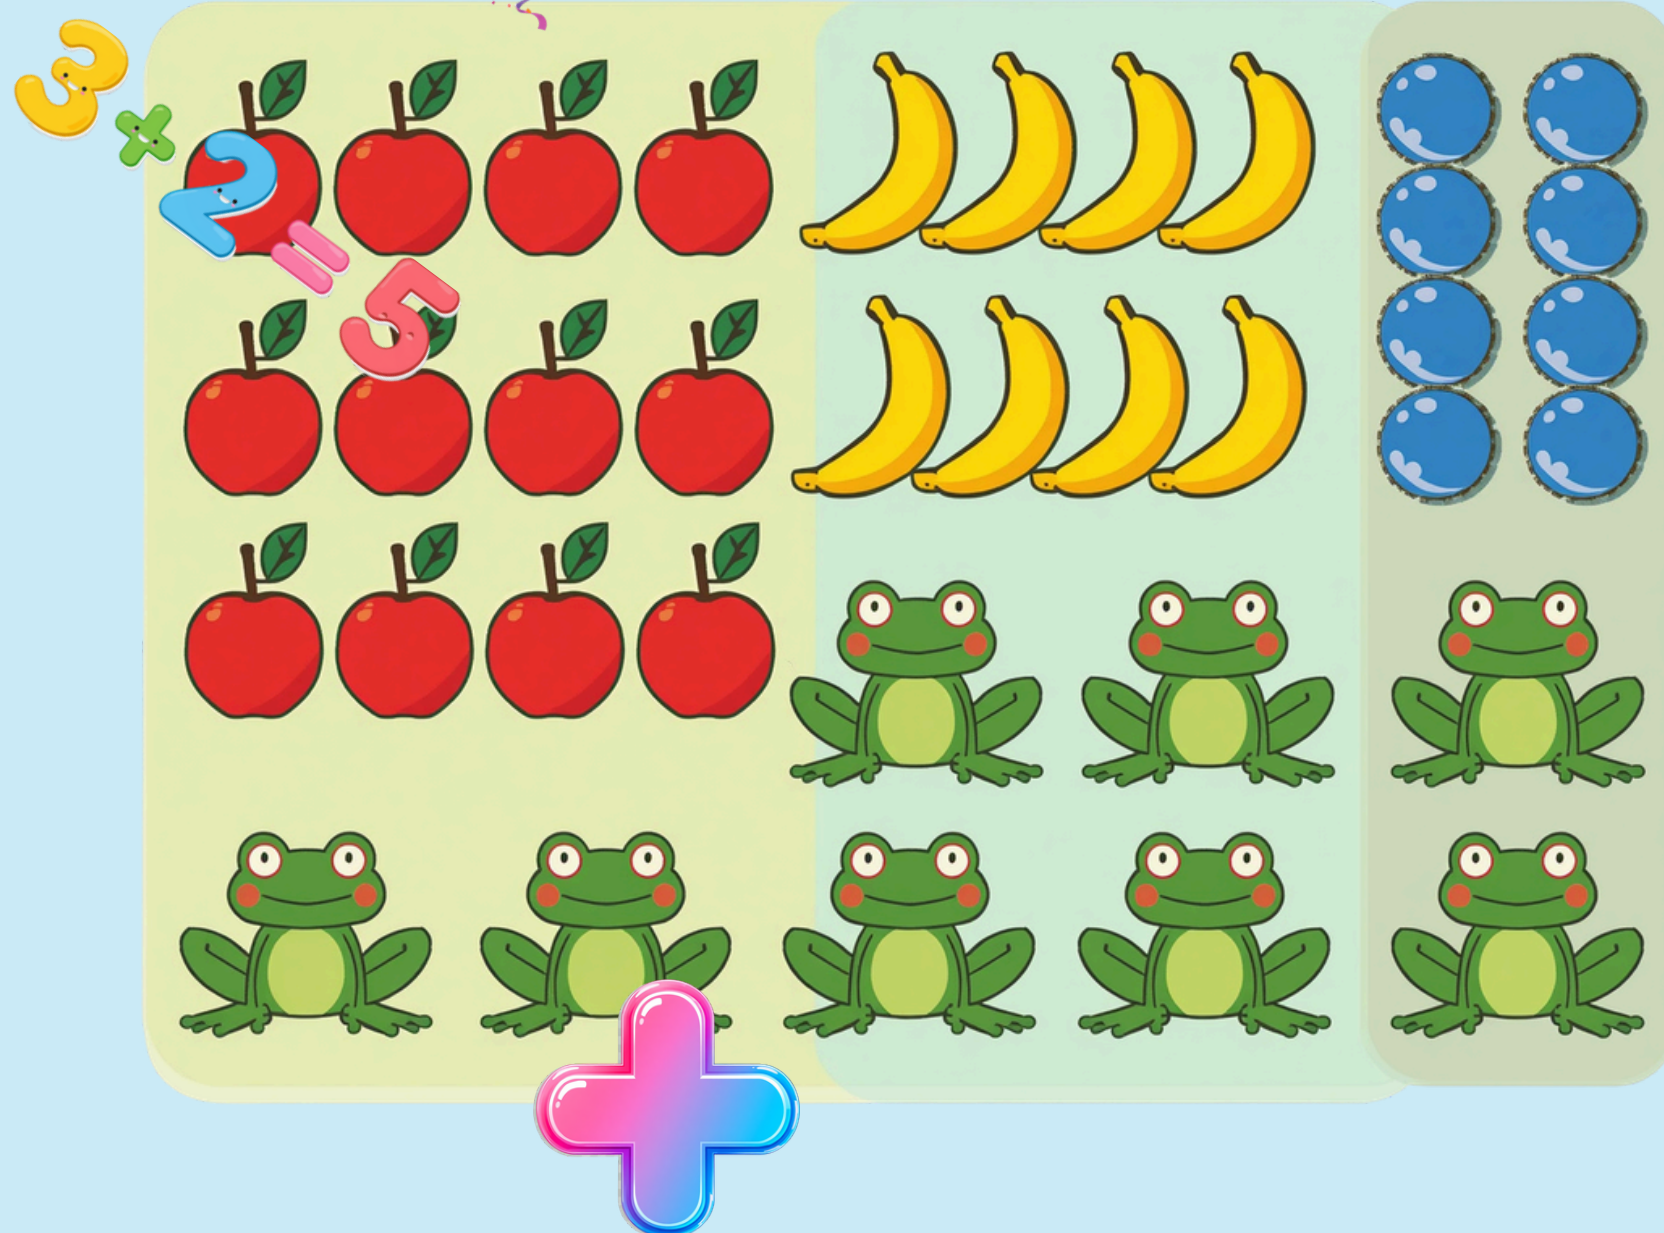

Solve fun word problems with addition

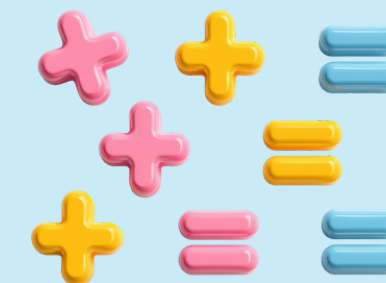

50

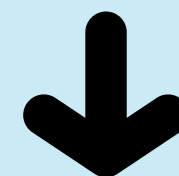

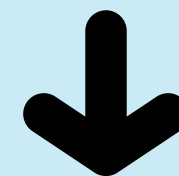

How to Add!

Count the first group

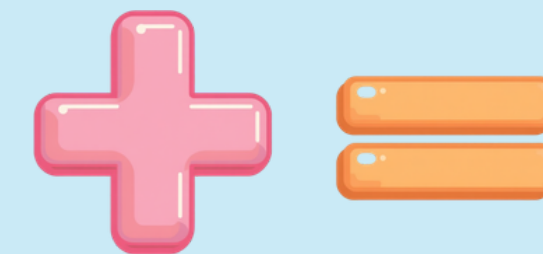

Count the second group

Put them together!

Two Ways to Add!

Using Your Fingers

Your fingers are always with you!
Hold up fingers to count and add
numbers together.

Example: $7 + 5 = ?$

Hold up 7 fingers, then count 5
more: 8, 9, 10, 11, 12!

Using Objects

Use toys, fruits, or crayons to
help you add! Put groups
together and count them all.

Example: $8 + 4 = ?$

Put 8 apples and 4 apples
together, then count: 12 apples!

Let's Practice Together!

Problem 1

$$12 + 15 = ?$$

Count 12 mangoes, then add 15 more. How many mangoes do you have now?

Problem 2

$$23 + 14 = ?$$

You have 23 colorful bangles. Your friend gives you 14 more. How many bangles in total?

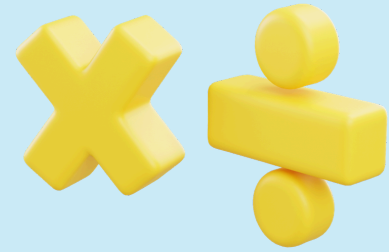

Problem 3

$$31 + 18 = ?$$

There are 31 diyas on one table and 18 on another. How many diyas altogether?

Did You Know?

Adding 10 to any number is super easy! Just change the tens place and keep the ones place the same. Try it: $23 + 10 = 33$!

50

Great Job Today!

Remember: Addition means putting groups together to find the total! You learned to add numbers up to 50 using things you know and love. Keep practicing and you'll become an addition superstar!

You're Amazing!
