

■ MONEY MATHS

Indian Coins – A Complete Lesson

■ Subject	Mathematics – Money
■ Duration	45 – 60 minutes
■ Topics	Identifying Coins · Ordering · Counting · Making Amounts
■ Learning Objectives	1) Identify ■1, ■2, ■5 and ■10 coins by appearance and value 2) Order coins in ascending and descending order 3) Count identical and mixed coins to find totals 4) Make a given amount in multiple ways

■ MATERIALS NEEDED

Real or printed ■1, ■2, ■5, ■10 coins | Worksheet (provided) | Whiteboard & markers | Story props (candy, eraser, samosa picture, notebook)

SECTION 1 · WHAT IS A COIN?

A **coin** is a small, round piece of metal used as money to buy things. In India, coins are issued by the **Reserve Bank of India (RBI)** on behalf of the Government of India.

COINS ■	NOTES ■
Made of metal	Made of paper / polymer
Small and round	Rectangular
Lasts a very long time	Wears out faster
Values: ■1, ■2, ■5, ■10	Values: ■10, ■20, ■50 ...

Remember: Coins are METAL · Notes are PAPER

■ *Example: Amma gave Riya a shiny ■5 coin to buy peanuts.*

■ TEACHER TIP

Show students real coins. Ask them to touch and feel the difference between coins and notes. Let them sort a mixed pile into coin and note groups.

SECTION 2 · MEET INDIA'S COINS

India uses four main coins in everyday transactions. Let's learn to recognise each one!

Value: One Rupee (₹1)

Colour: Silver
Material: Stainless Steel
Design: Rupee symbol, Lion Capital of Ashoka
Example: One small candy costs ₹1!

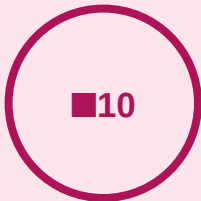

Value: Two Rupees (₹2)

Colour: Silver
Material: Stainless Steel
Design: Rupee symbol, Peacock motif
Example: One small eraser costs ₹2!

Value: Five Rupees (₹5)

Colour: Golden / Yellow
Material: Brass / Cupro-Nickel
Design: Lion Capital, Five-petal flower
Example: One samosa costs ₹5!

Value: Ten Rupees (₹10)

Colour: Bi-colour: Gold outside, Silver inside
Material: Outer: Brass · Inner: Steel
Design: 15 spokes, 'Satyameva Jayate'
Example: One notebook costs ₹10!

■ FUN FACT about the ₹10 coin

The ₹10 coin is bi-coloured – like two-flavoured ice cream! The outer ring is brass (golden) and the inner disc is stainless steel (silver). It has 15 spokes on the reverse.

SECTION 3 · ORDERING COINS

Ascending Order (smallest → biggest value)

■1	→	■2	→	■5	→	■10
Candy		Eraser		Samosa		Notebook

Remember: Ascending = going **UP** — from smallest to biggest, just like climbing stairs! ■

Descending Order (biggest → smallest value)

■10	→	■5	→	■2	→	■1
Notebook		Samosa		Eraser		Candy

Remember: Descending = going **DOWN** — from biggest to smallest, like sliding down a slide! ■

— ■ PRACTICE – Put in Ascending Order

1.	■5, ■1, ■10, ■2	Answer: _____
2.	■2, ■10, ■1, ■5	Answer: _____
Put in Descending Order		
3.	■1, ■5, ■2, ■10	Answer: _____
4.	■10, ■2, ■5, ■1	Answer: _____

SECTION 4 · COUNTING COINS

4A – Counting Identical Coins

When all coins are the same, **multiply** the value by the number of coins.

Coin	How many?	Calculation	Total
₹1	5	$₹1 \times 5$	₹5
₹2	4	$₹2 \times 4$	₹8
₹5	3	$₹5 \times 3$	₹15
₹10	2	$₹10 \times 2$	₹20

4B – Counting Mixed Coins

When coins are different, **add** their values. Start with the highest value coin — it's faster!

Coins	Working	Total
₹5 + ₹2 + ₹2 + ₹1	$5 + 2 + 2 + 1$	₹10
₹10 + ₹5 + ₹1	$10 + 5 + 1$	₹16
₹2 + ₹2 + ₹2	$2 + 2 + 2$	₹6
₹10 + ₹2 + ₹1 + ₹1	$10 + 2 + 1 + 1$	₹14

4C – Story Problems

■ Story Problem 1

Rohan has two ₹5 coins and one ₹2 coin. How much money does he have?

$₹5 + ₹5 + ₹2 = ₹12$ ■ Rohan has ₹12 in total!

■ Story Problem 2

Priya has one ₹10 coin and three ₹1 coins. How much does she have?

$₹10 + ₹1 + ₹1 + ₹1 = ₹13$ ■ Priya has ₹13 in total!

■ Story Problem 3

Arun has five ₹2 coins. How much does he have?

₹2 × 5 = ₹10 ■ Arun has ₹10 in total!

SECTION 5 · MAKING AMOUNTS IN DIFFERENT WAYS

The same amount can be made using **different combinations** of coins. This is very useful in real life!

TARGET	WAY 1	WAY 2	WAY 3
₹5	One ₹5 coin	Two ₹2 + one ₹1	Five ₹1 coins
₹10	One ₹10 coin	Two ₹5 coins	Five ₹2 coins
₹8	₹5 + ₹2 + ₹1	Four ₹2 coins	₹5 + three ₹1

■ HANDS-ON ACTIVITY – Coin Hunt

Work with a partner. Use real or cut-out coins. Try to make exactly: 1. ₹7 – write all the ways you can! 2. ₹12 – how many ways can you find? ₹7:

_____ ₹12:

SECTION 6 · RECAP CHANT

■ Sing this chant together as a class!

*One rupee, two rupee, five and ten,
These are India's coins — say it again!
Silver, silver, golden, and two-tone too,
Count them up — what can you do?*

You can also clap the rhythm: one clap per syllable. Repeat 3 times, getting faster each time!

SECTION 7 · QUIZ TIME! ■

Answer all 5 questions. Read each one carefully.

Q1 Which coin is golden/yellow in colour?

- A) ₹1 coin
- B) ₹2 coin
- ✓ C) ₹5 coin
- D) None of these

Answer: C)

Q2 Which coin has TWO colours (bi-colour)?

- A) ₹1
- B) ₹2
- C) ₹5
- ✓ D) ₹10

Answer: D)

Q3 True or False: ₹10 is worth more than ₹5.

- ✓ A) True
- B) False

Answer: A)

Q4 Arjun has two ₹5 coins and one ₹2 coin. Total?

- A) ₹7
- B) ₹9
- ✓ C) ₹12
- D) ₹10

Answer: C)

Q5 A samosa costs ₹5. Kabir gives a ₹10 coin. Is it enough?

- A) No
- ✓ B) Yes, and he gets ₹5 change

Answer: B)

SECTION 8 · TAKE-HOME WORKSHEET

Name: _____ Class: _____ Date: _____

Part A – Fill in the Blanks

1. A coin is made of _____ .
2. The ₹5 coin is _____ coloured.
3. The ₹10 coin has _____ colours.
4. ₹2 + ₹2 + ₹1 = ₹ ____ .
5. The coin with the peacock motif is the ₹ ____ coin.

Part B – Count the Coins

Coins	Total
Three ₹5 coins + one ₹2 coin	₹ _____
Two ₹10 coins + two ₹1 coins	₹ _____
Four ₹2 coins + three ₹1 coins	₹ _____
One ₹10 + one ₹5 + one ₹2 + one ₹1	₹ _____

Part C – Make the Amount

Write two different ways to make each amount using ₹1, ₹2, ₹5, and ₹10 coins.

Amount	Way 1	Way 2
Make ₹8	Way 1: _____	Way 2: _____
Make ₹15	Way 1: _____	Way 2: _____
Make ₹20	Way 1: _____	Way 2: _____

Part D – Real-Life Word Problems

1. Meena wants to buy a pen for ₹5. She has one ₹2 coin and four ₹1 coins. Does she have enough money?

Answer: _____ Working: _____

2.

Raju has one ₹10 coin. He buys a candy for ₹1. How much change should he get?

Answer: _____ Working: _____

3.

Diya has three ₹2 coins and two ₹1 coins. She wants to buy an eraser for ₹5. Can she?

Answer: _____ Working: _____

ANSWER KEY (Teacher Copy)

Quiz Answers

Q	Answer	Explanation
Q1	C) ₹5 coin	The ₹5 coin is brass / golden-yellow in colour.
Q2	D) ₹10	The ₹10 coin is bi-coloured: brass outside, steel inside.
Q3	A) True	₹10 > ₹5, so ₹10 is worth more.
Q4	C) ₹12	₹5 + ₹5 + ₹2 = ₹12.
Q5	B) Yes	₹10 ≥ ₹5, so it is enough. Change = ₹5.

Worksheet Answers

Part A – Fill in the Blanks

1. metal 2. golden / yellow 3. two 4. ₹5 5. ₹2

Part B – Count the Coins

1. ₹17 2. ₹22 3. ₹11 4. ₹18

Part C – Make the Amount (sample answers)

₹8: (₹5+₹2+₹1) or (₹2×4) · ₹15: (₹10+₹5) or (₹5×3) · ₹20: (₹10×2) or (₹10+₹5+₹5)

Part D – Word Problems

1. Yes – ₹2+₹1+₹1+₹1+₹1 = ₹6 ≥ ₹5 2. Change = ₹9 3. Yes – ₹2+₹2+₹2+₹1+₹1 = ₹8 ≥ ₹5

■ Well done, young Coin Counter! Keep learning and keep counting! ■
