

Passwords & Privacy

Keeping Your Secrets Safe!

Today you will be Privacy Detectives!

Your mission: Learn to protect your digital secrets!

Things to Keep Private

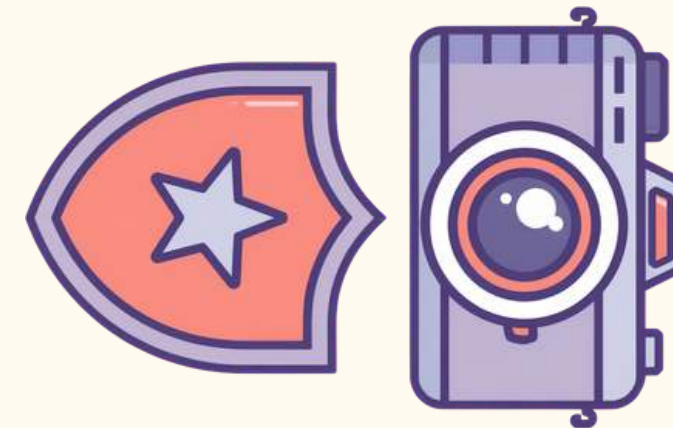

Your Full Name

Home Address

School Name

Your Photos

What is a Password?
A secret code only YOU
know!

Good Password Rules:

Make it long like a magic spell!

Keep it secret in your heart.

Don't share it with anyone.

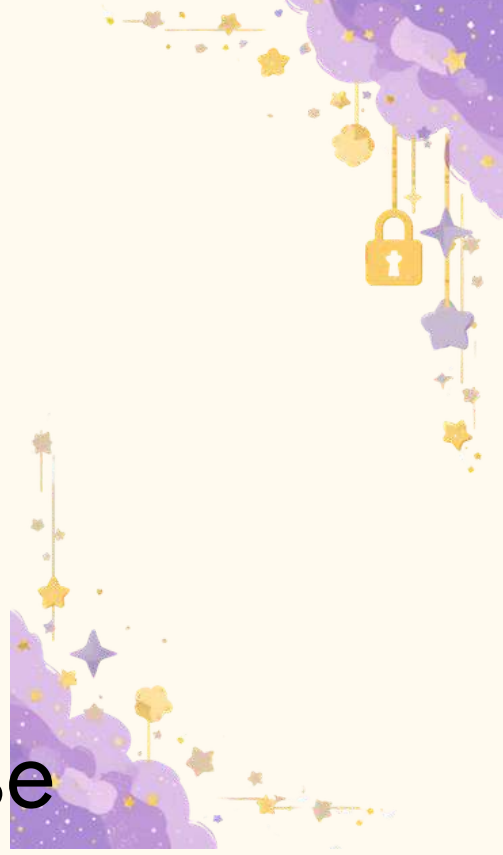

Password Examples

Good Password

Rainbow7Star! is strong because it mixes letters and numbers.

Bad Password

123456 is weak because it is too easy to guess!

Remember: Private information stays
private - like a treasure in a locked box!

Think About It!

Can you think of something that should stay private? What makes a good secret keeper?

Share what you learned!
Talk to your family about
staying safe online.
