

Spreadsheets: Our Super Data Helpers!

What Is a Spreadsheet?

A spreadsheet is like a magic table that helps us organize and understand information.

It has rows, columns, and cells where we can put words and numbers!

DAY	DAY	WY	FT	RUCK
1				Rf
2				Rf
3				Rf
4				Rf
5				Rf
9				Rf
10				Rf

Why Use Spreadsheets?

Spreadsheets help us in so many ways!

Keep track of your pocket money

Organize who feeds the class pet

Record your favorite foods

Meet the Rows and Columns

Rows go left to right (like reading a book!)

Columns go top to bottom (like a tall building!)

Where a row and column meet, we get a cell!

	A	A	B	C	C
1					
2					
3					
3					

How Do We Enter Data?

Step 1: Click on a cell

Step 2: Type the word or number

Step 3: Press Enter

That's it! Your data is saved in the cell.

Let's Track Pocket Money!

Here is Priya's pocket money for the week:

Monday: Rs 10

Tuesday: Rs 5

Wednesday: Rs 15

Thursday: Rs 10

Friday: Rs 20

See how neat and organized it looks!

DAY	DAY	WY	FT	RUCK
1				Rf
2				Rf
3				Rf
4				Rf
5				Rf
9				Rf
10				Rf

Adding Up Our Money

We can add all the amounts together!

$$10 + 5 + 15 + 10 + 20 = 60$$

Priya saved Rs 60 in one week!

Spreadsheets can do this math for us automatically using a SUM formula.

1	2	3	3	5
4	5	5	5	5
5	5	8	5	9
		1		

Organizing Our Class Pet Schedule

Who feeds the class rabbit this week?

Monday: Arjun

Tuesday: Meera

Wednesday: Rohan

Thursday: Ananya

Friday: Dev

A spreadsheet keeps it fair for everyone!

Sorting Our Favorite Foods

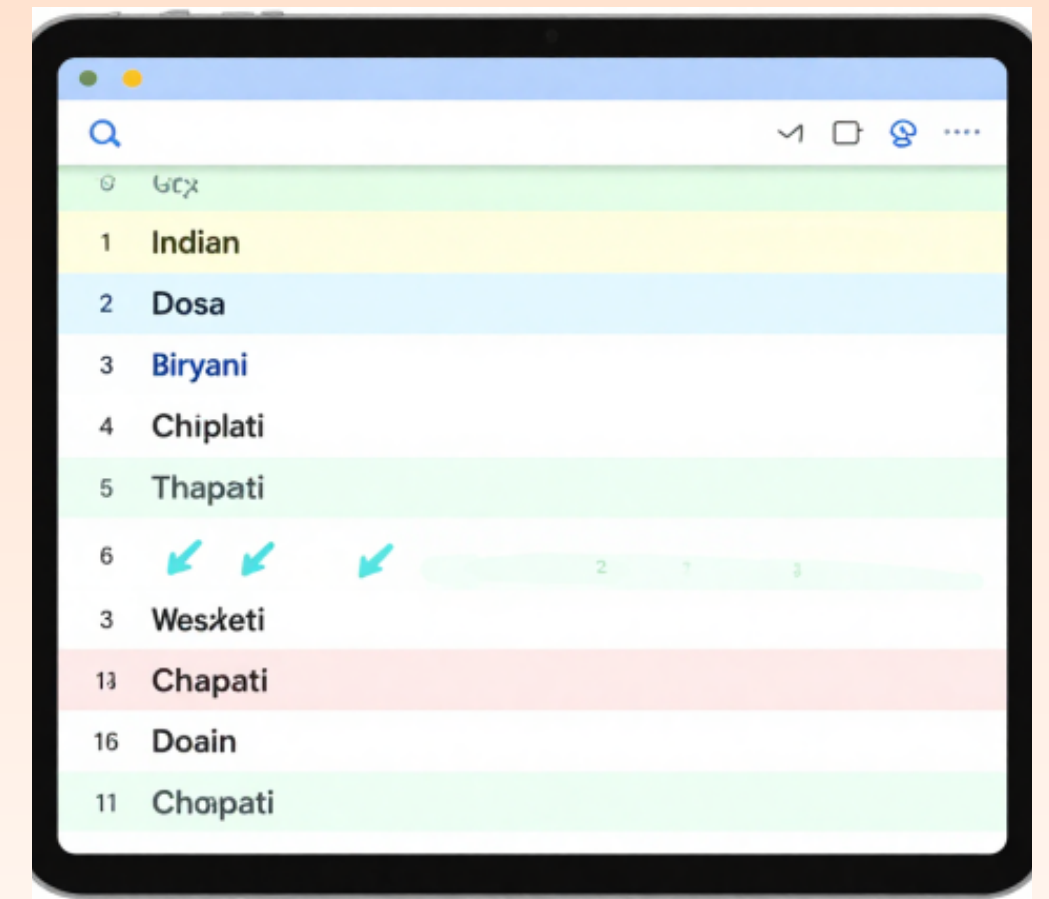

Before sorting:

Pizza, Dosa, Biryani, Apple, Chapati

After sorting (A to Z):

Apple, Biryani, Chapati, Dosa, Pizza

Sorting helps us find things quickly!

Highlighting Important Data

We can use colors to mark special data!

Use yellow to show the highest score

Use green to show completed tasks

Colors make data easier to read!

Fun with Numbers and Words

Spreadsheets can hold both text and numbers!

Text data: Names, foods, colors

Number data: Ages, scores, money

You can mix them in one sheet!

	810	335
沙菲子	350	138
米糊味	145	129
磨梓子	565	138
荷小澳	127	127
王贝象	118	122
十邦肉	124	190
乐半甬	150	188
浓汤王角	167	418
王场豆雨	280	156
泰辻鱼	120	150

How Can Spreadsheets Help You?

Easy to organize information

Helps with simple math

Makes teamwork easier

Helps us understand our data better

Let's Practice Together!

Try making your own spreadsheet!

Track your daily reading time

List your favorite games and scores

Plan a party guest list

Remember These Tips!

Keep data neat and tidy

Use simple words and numbers

Always check your totals
