

GRADE 6
SHOWCASE
DEMO DAY

WELCOME!

RULES OF ENGAGEMENT

👏 Respect everyone's ideas and efforts

🚫 Mute yourself when not speaking

💛 Support your peers with kind words

👏 Celebrate every presenter!

💡 Icebreaker: "Which Indian innovation

: : : : : inspires you most?"

WHAT IS DEMO DAY?

Showcase creativity, learn from peers & celebrate innovation! Each student gets a 2-min elevator pitch + 1-min Q&A to shine.

4-Part Pitch: Hook & Problem → Solution & Demo → Learnings & Challenges → Future Impact & Conclusion

4
Parts
PITCH

STUDENT SHOWCASE

> MEET OUR INNOVATORS!

Our Grade 6 students will present their amazing projects LIVE! Show your support with applause and kind feedback. Today's projects:

⚡ Smart Home Energy Saver

🎮 Gamified Vedic Math Quiz App

📖 Indian Heritage Digital Storybook

💧 Rainwater Harvesting Calculator

SMART HOME ENERGY SAVER

STUDENT PITCH 1: INNOVATION SPOTLIGHT

● Problem: Indian households waste significant energy due to lights, fans, and appliances left running unnecessarily — leading to higher electricity bills and greater carbon footprint.

💡 Solution: A smart sensor-based energy saver prototype that automatically detects room occupancy and switches off unused appliances — saving energy and benefiting families every day!

STUDENT PITCH 2

GAMIFIED VEDIC MATH QUIZ APP

Problem: Making math fun and engaging for young learners.

Solution: An app with gamified Vedic math quizzes that turn ancient Indian math into exciting challenges.

Key Highlight: Engages students through games inspired by ancient Indian mathematics!

STUDENT PITCH 3

INDIAN HERITAGE DIGITAL STORYBOOK

Problem: Indian cultural stories and heritage tales are fading in the digital age — hard to access and share with young learners.

Solution: An interactive digital storybook featuring rich Indian heritage tales with illustrations, audio narration, and engaging animations.

Key Highlight: Combines art and technology to celebrate and preserve India's vibrant cultural legacy for future generations.

CULTURE

RAINWATER CALCULATOR

STUDENT PITCH 4: COMMUNITY RAINWATER HARVESTING

Problem: Many communities lack awareness about water conservation and how much rainwater can be saved.

Solution: A calculator that estimates rainwater harvesting potential for homes, helping families plan and save water sustainably.

Key Highlight: Supports sustainable water use in communities across India! 💧

CELEBRATION!

Every student brought creativity, courage, and innovation to Demo Day! Let's celebrate the amazing work of our Grade 6 stars. Give a big round of applause for all presenters!

-   **YOUNG INNOVATOR BADGE**
-   **BEST PRESENTER & CREATIVE THINKER**

REFLECTION & LEARNING

THINK ABOUT YOUR JOURNEY

- 💭 What did I learn from this project?
- 🌟 What challenges did I face and overcome?
- 🚀 How will I improve next time?

THANK YOU!
