

ELECTRICITY SAFETY WITH PLANRS ACADEMY

By Planrs Academy

Lights Out! Meet Priya

Priya learns how to stay safe when
the lights go out.

The Power Cut Story Begins

One evening, all the lights went out! Click! Everything was dark and quiet. Priya's family stayed calm. Papa found the torch and turned it on. The room glowed with soft light. "Don't worry," said Amma, "we are safe together." Priya felt brave with her family nearby.

Appliances in Priya's Home

Look at all the electrical things in Priya's house! Can you spot the ceiling fan, tube light, mixie, pressure cooker, and TV? These all need electricity to work!

Spot the Appliances!

Can you find these electrical items?

Ceiling fan • Tube light •

Mixie/Mixer-grinder • Pressure

cooker • TV • Geyser • Desert

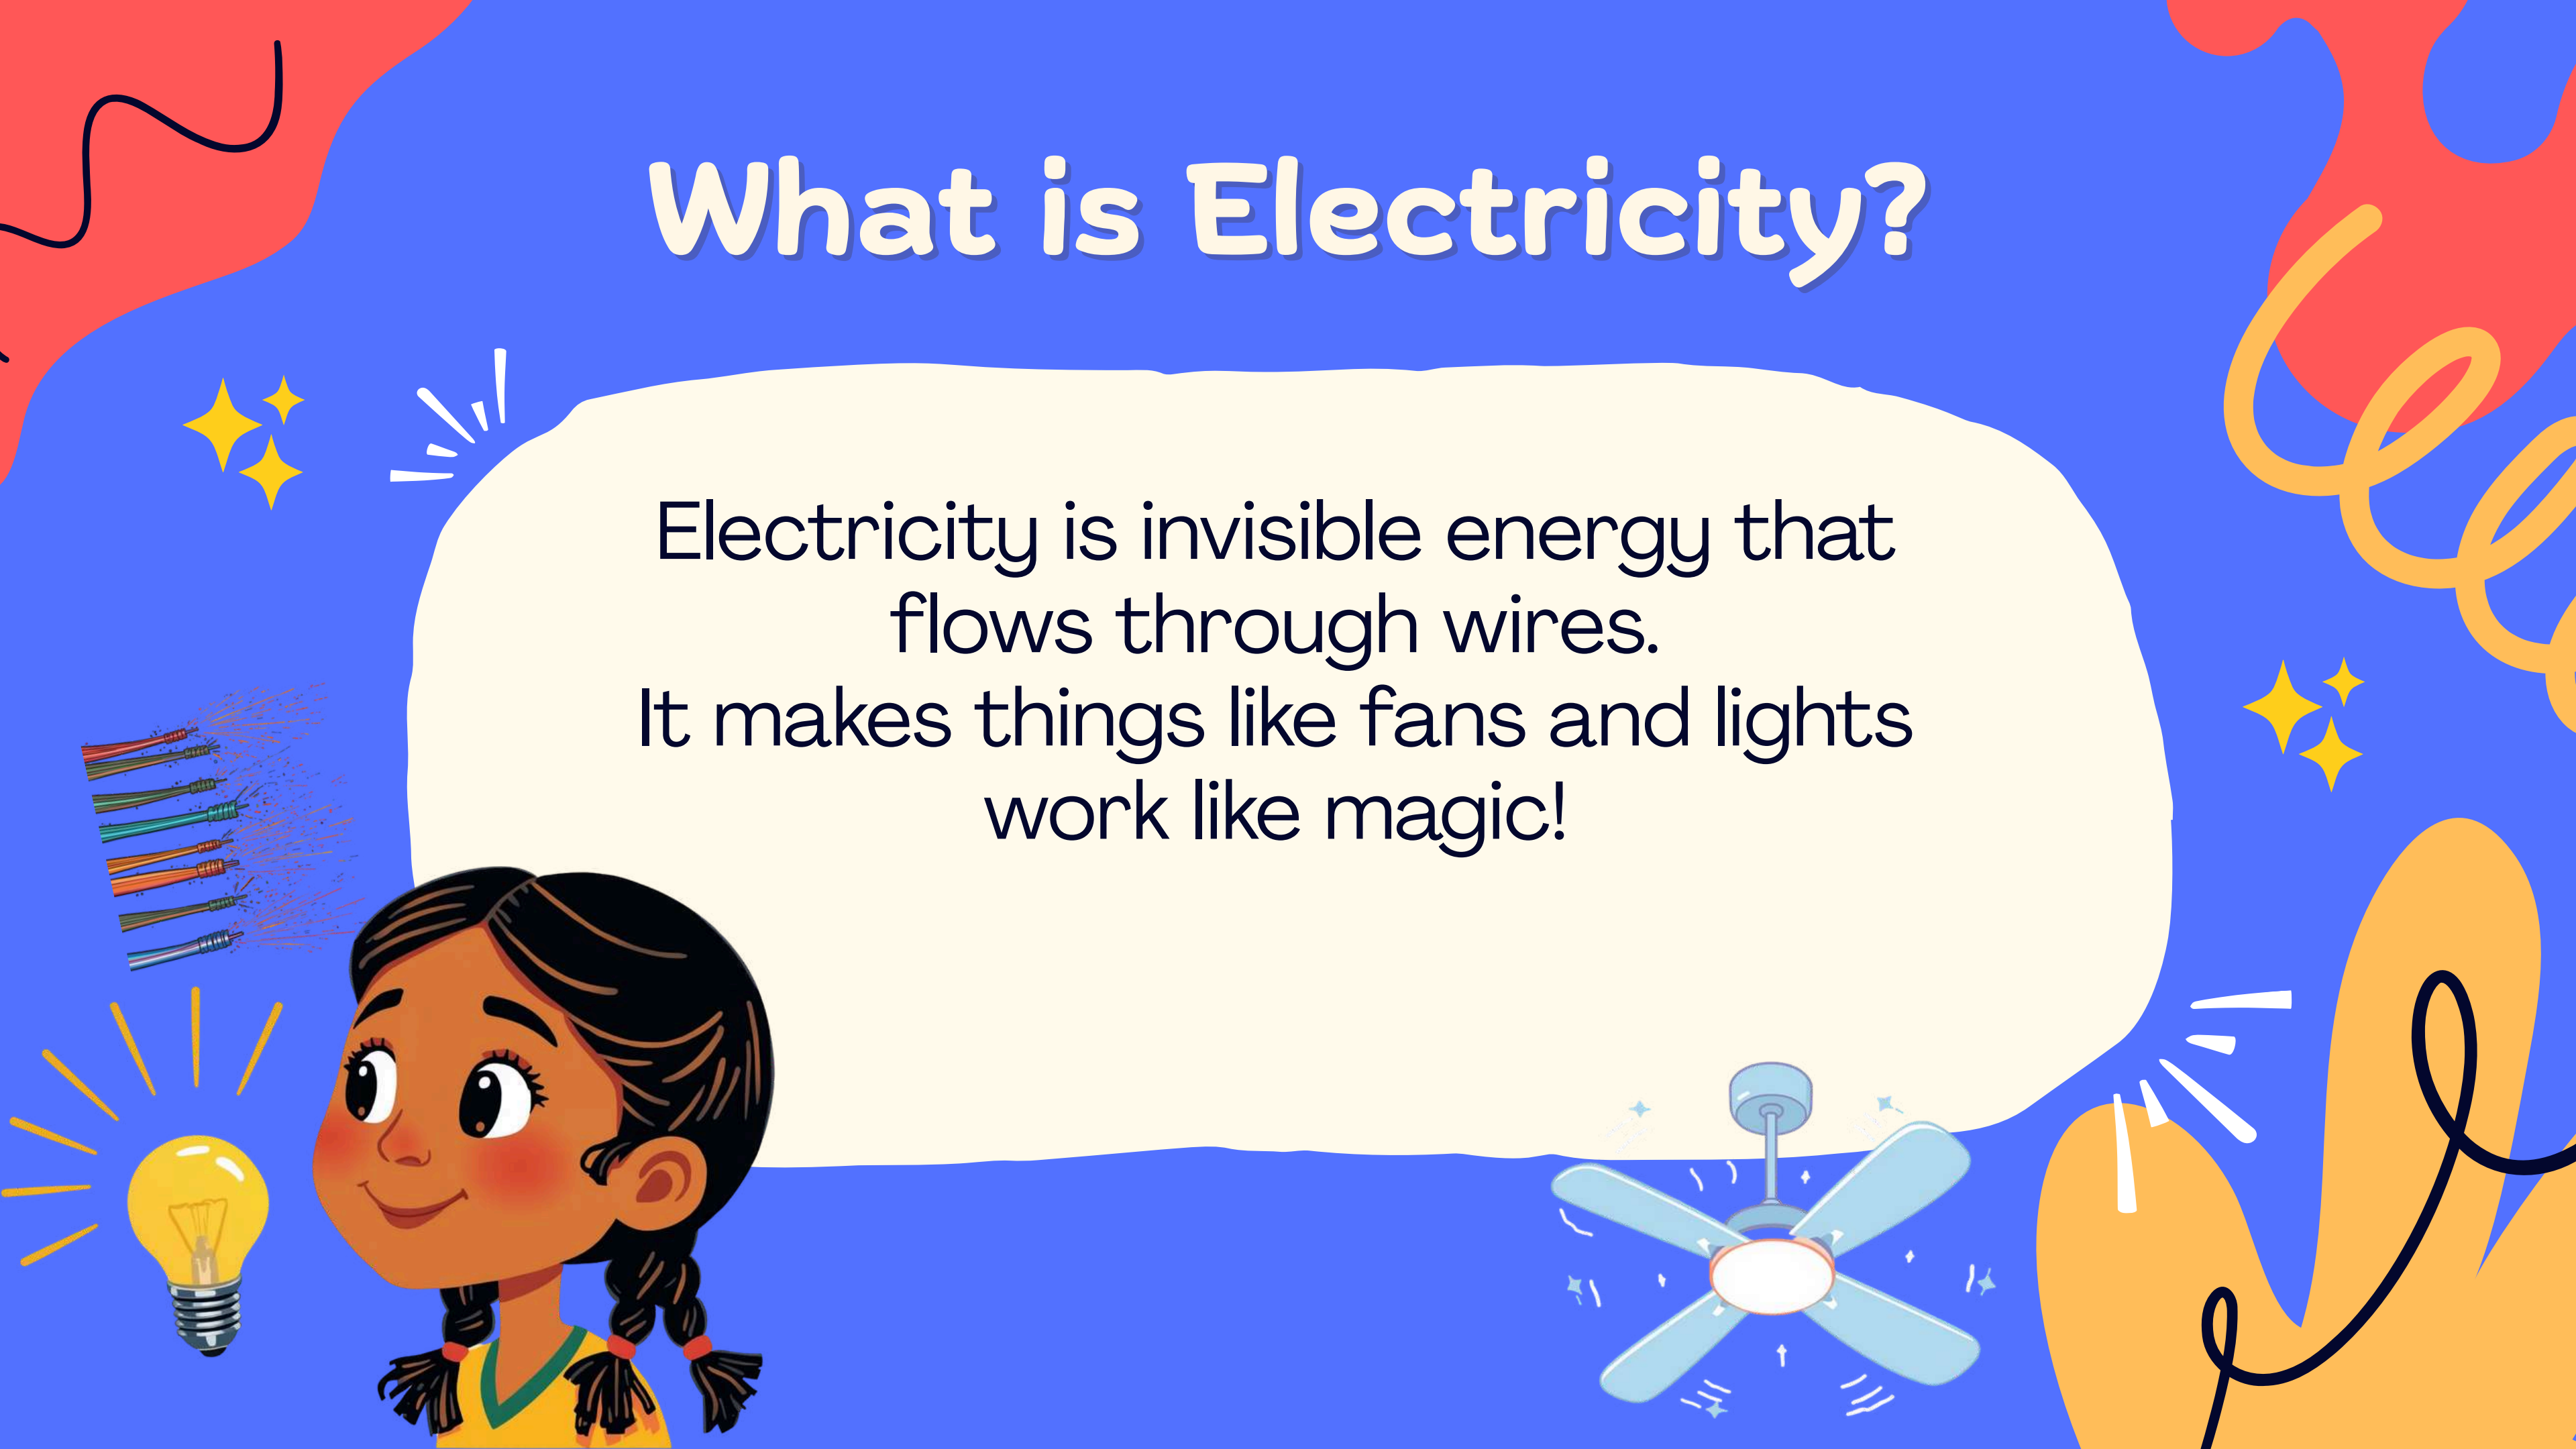

cooler • Mobile charger • Electric

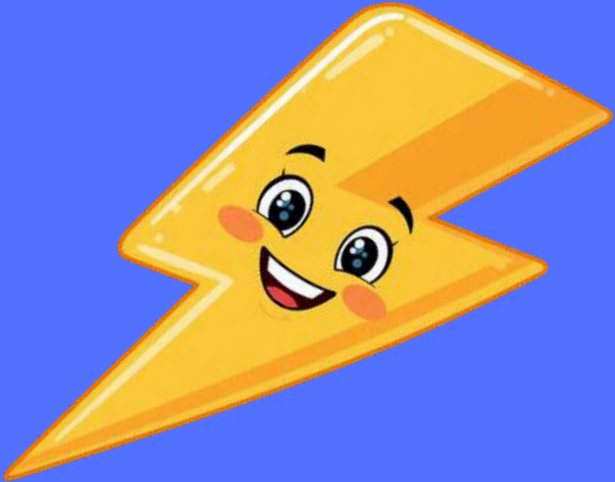

iron • Street light

What is Electricity?

Electricity is invisible energy that flows through wires. It makes things like fans and lights work like magic!

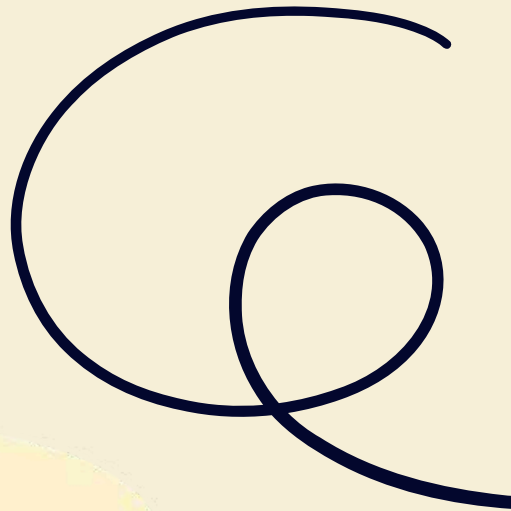

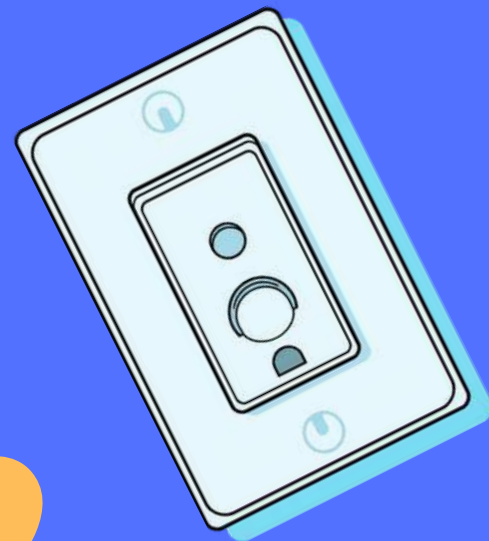

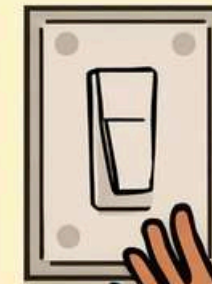

Learning Safe and Unsafe Actions

Let's discover which actions keep
us safe around electricity and
which ones we should never do!

Touching a switch with
dry hands.

Safe or Unsafe?
Think about it!

Using a pencil to poke
into a socket

Safe or Unsafe?

A cartoon illustration of a young boy with dark skin and hair, wearing a yellow shirt and blue shorts, looking surprised or concerned as he pulls a blue cord from a wall outlet. The background is blue with red and yellow abstract shapes, stars, and a pair of scissors. A speech bubble on the left contains the text 'Pulling a wire to unplug an appliance'. Another speech bubble in the center contains the text 'Safe or Unsafe? Think before you answer!'. A separate illustration of a power outlet with a cord is in the bottom left.

Pulling a wire to unplug
an appliance

Safe or Unsafe?
Think before you
answer!

A cartoon illustration of a young boy with dark hair, wearing an orange striped shirt and yellow shorts, holding a flashlight. The background is blue with red and yellow abstract shapes. There are icons of stars, scissors, and a flashlight. Two speech bubbles contain text.

Using a torch during a
power cut

Safe or Unsafe?
Think about it!

Safe or Unsafe? Summary List

- ✓ Always ask a grown-up before touching appliances
- ✓ Keep water away from switches and sockets
- ✓ Unplug charger after phone is charged
- ✓ Tell an adult if you see broken wires
- ✓ Use a torch during power cuts

Safe or Unsafe? DON'Ts

Never poke fingers or pencils into sockets

Never touch switches with wet hands

Never pull wires to unplug

Never play near electric poles

Never fly kites near electric wires

The Golden Rule Song

"Water and electricity — never mix!
Stay safe at home — that's the trick!"

Sing along and clap your hands!
Do the actions with your friends!

$$1+2=3$$

The Golden Rule

Story: Raju's Wet Hands

Raju came running from washing his hands. He was about to touch the light switch — but wait! His mother quickly stopped him. "Never touch switches with wet hands, beta!" Remember: Water and electricity don't mix!

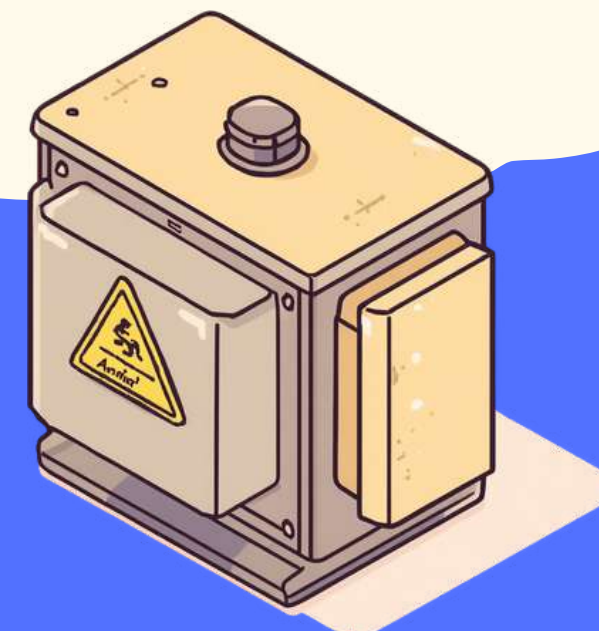

Warning Symbol

What Does It Mean?

This sign means DANGER! Stay away!

You can find this symbol on:

- Electric transformers
 - Electric poles
 - Power equipment boxes
- When you see it, tell an adult!

Practice with Detective Bijli

Get ready to test your electricity safety knowledge! Detective Bijli will help you figure out what's safe and what's not safe.

Detective Bijli's Safe or Not Safe Game

Sort these actions! Which are Safe? Which are Not Safe?

- ✓ Using charger properly — SAFE
- ✗ Touching wire with broken insulation — NOT SAFE
- ✓ Playing away from electric poles — SAFE
- ✗ Flying kite near wires — NOT SAFE

More Detective Bijli Challenges

Safe Actions:

- ✓ Using charger properly
- ✓ Unplugging with dry hands
- ✓ Playing away from poles
- ✓ Asking adults for help

Not Safe Actions:

- ✗ Touching broken wires
- ✗ Flying kites near wires
- ✗ Wet hands on switches
- ✗ Poking sockets with pencils

Reflect on What You Learned

Time to think about all the
electricity safety tips we
discovered today!

A cartoon illustration of a young girl with dark brown hair in pigtails, wearing a yellow short-sleeved shirt with a red bow tie and a green pleated skirt. She is standing on a light beige ground. To her right, a bundle of broken wires lies on the ground. The background is a vibrant blue with large red and yellow abstract shapes. There are also yellow stars, a pair of scissors, and a book icon in the background.

You see a broken wire
lying in the street.
What should you do?

- 
- A simple line drawing of a book with the word "BOOK" written on its cover.
- A) Tell an adult
 - B) Touch the wire
 - C) Ignore it

What Would You Do?
Power goes out while
you are home alone.

Choose: Use a torch /
Play with wires / Call
parents

Your friend is touching
a pole during a storm.
What do you do?

- 
- A) Tell them to stop
 - B) Join them
 - C) Ignore

Emergency Response Steps

Step 1: Don't touch — move away from danger!

Step 2: Shout for help — call Mummy, Papa, teacher, or watchman!

Step 3: Call 112 or the Electricity Board.

Remember: Get help, don't fix it yourself!

Who Can Help?

Mummy & Papa - Always nearby!
Teacher - At school

Watchman - In your building
Electrician - The expert helper
These grown-ups keep you safe!

Safety Pledge

I promise to be a Safety Superhero! I will always ask a grown-up before touching switches. I will keep water away from electricity. I will tell an adult if I see broken wires. I will help my friends stay safe too!

Badge Award

Congratulations! You earned your Safety Superhero Badge! You are now an official Electricity Safety Superhero!

Recap: What We Learned Today

- ✓ Name electrical appliances in your home
- ✓ Know safe and unsafe behaviours
- ✓ Remember the Golden Rule: Water and electricity never mix!
- ✓ Recognize the danger symbol
- ✓ Know who to call in an emergency

Planrs Academy
