

Building My Digital Identity: The Portfolio Blueprint

T4 Capstone – My Digital Portfolio

Grade 3

Meet Aarav's Digital Portfolio!

Robotics & Digital Art

Aarav from Mumbai built a robot car, created a digital painting of the Gateway of India, and recorded his Tabla practice – all in his portfolio!

Tabla Music & More!

A digital portfolio is YOUR special space to show the world what you love, create, and learn. Just like Aarav, you can share YOUR best work!

The Three Pillars of My Digital Identity

Organising My Portfolio

Different Sections for Your Work

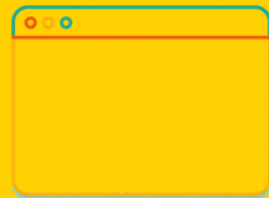

My Studies, My Hobbies, and About Me –
just like a school bag with different
pockets, each section holds your special
work!

About Me: My favourite poem

Let's Draw Our Blueprint!

Draw your Homepage rectangle

Draw a big rectangle and label it "Homepage" at the top.

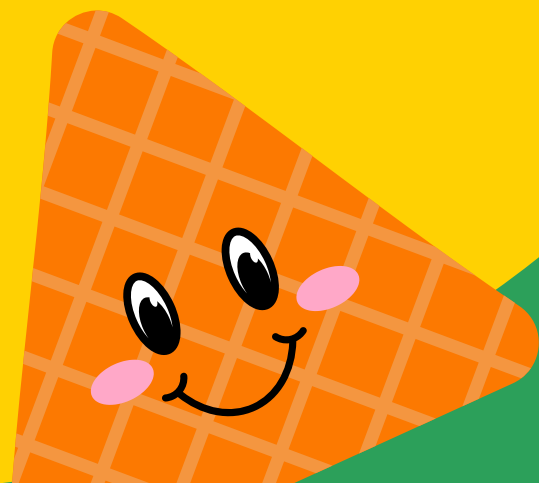

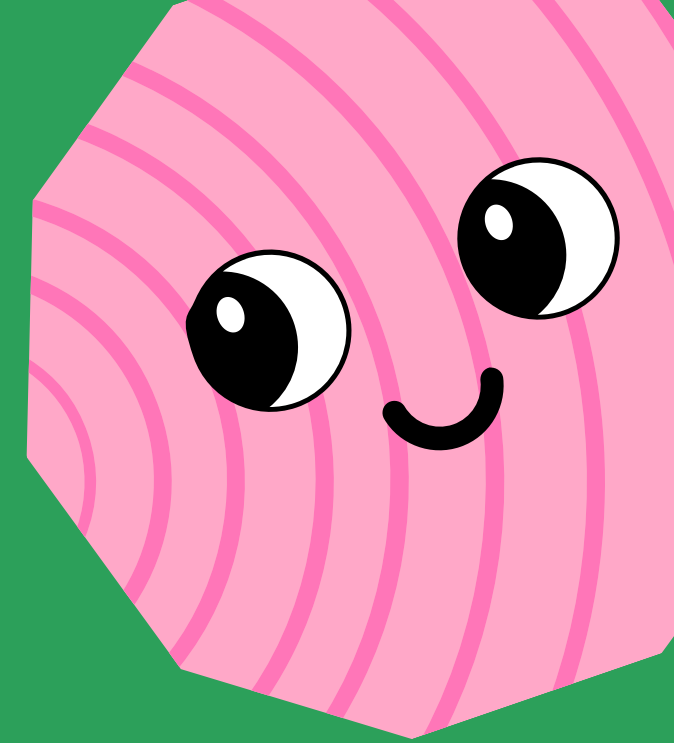

Add three branches below it

Draw branches for My Studies, My Hobbies, and About Me.

Fill in your favourite work or hobby!

Write or draw mountains, a book, music notes, or your art.

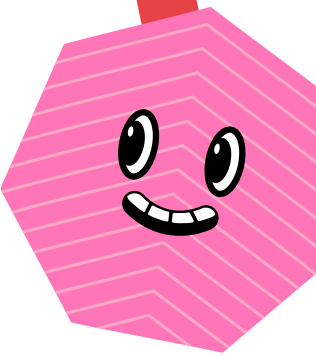

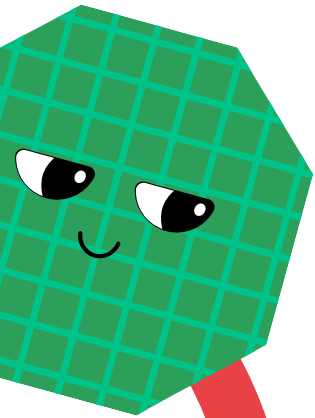

Keeping Safe Online

Never Share Private Info!

Never share your home address, phone number, or school name on your homepage. Keep your private details safe – only trusted adults should know them!

Your Homepage is Like a Baithak!

A baithak (drawing room) is safe, welcoming, and open to guests – but you never let strangers into your bedroom! Your homepage works the same way. Show your work, not your personal details.

Quick Quiz Time! 🎉
