

TIMES TABLE STOMP

Student Lesson Guide: Skip Counting by 2s

Quick Info

Grade Level: Year 1-2 (Ages 5-7)

Subject: Mathematics

Topic: Skip Counting by 2s

Duration: 30 Minutes

Learning Goals

- Recognize even numbers from 0 to 20.
- Use fun physical stomping as a rhythm tool.
- Count real-life paired objects quickly.

Activity Timeline

Phase	Activity	What You Do
Warm-Up	The Stomp Awakening	Wake up your feet and shout your name with a double stomp!
Introduction	What Comes in Pairs?	Call out everyday items that come in pairs of 2.
Practice	Join In Together	Whisper the odd numbers and STOMP loudly on the even numbers!
Game 1	The Idli Game	Track a running total of delicious idlis as they are added to plates.
Game 2	Can You Guess?	Solve missing-number puzzles by stomping out the correct answer.
Rotations	Station Games	Move through fun group games like Stomp the Line and Stomp & Pass.
Closing	The Maths Stomp Pledge	Recite the official team pledge and celebrate your hard work!

Activity Breakdown

1. The Stomp Awakening

- Stand up tall and get ready to move your feet.
- When your name is called out, answer back with a loud **STOMP, STOMP!** and shout your name.
- Shake your legs, wiggle your toes, and get into the math rhythm.

2. Finding Pairs

- Think about things that always come in groups of two: **eyes, ears, hands, and chappals (slippers)**.
- Every time a new pair is named, do a double stomp and chant along: "*STOMP STOMP — TWO!*"

3. Whisper & Stomp

- Count from 0 all the way to 20 using this special rhythmic pattern:
 - *Whisper 1...* 🗣️ → **STOMP 2!** 💥
 - *Whisper 3...* 🗣️ → **STOMP 4!** 💥
 - *Whisper 5...* 🗣️ → **STOMP 6!** 💥
- Notice how your feet only stomp on the **even numbers!**

4. The Idli Game

- Imagine plates of food where every single plate holds exactly **2 idlis**.
- As each new plate is added, stomp twice and shout out the running total:
 - Plate 1: *STOMP STOMP* ➡️ "**2 idlis!**"
 - Plate 2: *STOMP STOMP* ➡️ "**4 idlis!**"
 - Plate 3: *STOMP STOMP* ➡️ "**6 idlis!**"
 - Plate 4: *STOMP STOMP* ➡️ "**8 idlis!**"

5. Can You Guess?

- Look at the number tracks and find the missing numbers:
 - 2, 4, 6, [?] → Stomp 8 times and shout "**EIGHT!**"
 - 0, 2, 4, [?] → Find the answer and stomp it out!
 - 6, 8, 10, [?] → Figure out the missing number.

Station Games

STATION 1

Stomp the Line

Walk or jump along a floor number line from 0 to 20. Make sure you only step and stomp heavily on the even numbers (2, 4, 6, 8...).

STATION 2

Counting Pairs

Gather physical objects like chappals, socks, or bangles. Group them into pairs and practice counting them by 2s, marking down your counts.

STATION 3

Stomp & Pass

Play with a partner! Take turns counting to 20. Partner A says "2", Partner B stomps and says "4", Partner A says "6", and keep alternating.

THE MATHS STOMP PLEDGE

"We are MATHS STOMPERS! (stomp stomp)"

"We COUNT in TWOS! (stomp stomp)"

"Our feet do MATHS! (stomp stomp)"

"And so do YOU!" (stomp stomp)"

Home Connection

- **Chappal Count:** When you take off your shoes or slippers at home, do a double stomp and count your family's footwear by 2s!
- **Breakfast Math:** If you are eating idlis, biscuits, or fruit slices, try grouping them in pairs of 2 before you eat.
- **Pledge Show:** Teach the *Maths Stomp Pledge* to your family and get everyone stomping along with you!
