CONTENT CREATION GUIDE

6-Step Workflow | Every Course | Every Session

April 2026

🔑 GOLDEN RULES — READ BEFORE YOU START

Follow these rules for EVERY course and EVERY session. No exceptions.

- Always start a NEW Claude chat for each step — never continue in the same chat
- Save every Claude output as a text file before closing — you cannot recover it
- Complete steps in order — Step 1 first, then 2, then 3... never skip
- Paste Step 1 Master Brief at the top of every new chat before the step prompt
- If Claude output looks wrong or incomplete — regenerate in a fresh chat
- Name your files correctly — see naming guide below
- When in doubt — ask Vidhya. Do not guess or assume.

📁 File Naming Convention

Step 1 Output	CourseName_Session1_Brief.txt
Step 2 Output	CourseName_Session1_Canva.txt
Step 3 Output	CourseName_Session1_Script.txt
Step 4 Output	CourseName_Session1_Activity.html
Step 5 Output	CourseName_Session1_YouTube.txt
Step 6 Output	CourseName_Session1_PDF_Content.txt
Canva Slides	CourseName_Session1_Slides.pdf
Final PDF	CourseName_Session1_StudyGuide.pdf

THE 6-STEP WORKFLOW AT A GLANCE

Step	What You Create	New Chat?	Input Needed	Save As
1	Master Course Brief	Yes — always	Course details only	_Brief.txt
2	Canva Slide Content	Yes — always	Step 1 Brief	_Canva.txt
3	Narrator Script	Yes — always	Step 1 + Upload Slides PDF	_Script.txt
4	HTML Activity	Yes — always	Step 1 + Step 2	_Activity.html
5	YouTube Videos	Yes — always	Step 1 only	_YouTube.txt
6	Study PDF Content	Yes — always	Step 1 + Step 2 + Step 3	_PDF_Content.txt

STEP 1 — MASTER COURSE BRIEF

This is the **FOUNDATION** of everything. All other steps depend on this. Do this first and do it carefully.

What to do:

1. Open Claude.ai in a new chat
2. Fill in the course details below — replace CAPITALS with real information
3. Paste the complete prompt into Claude
4. Wait for Claude to generate the full Master Brief
5. Copy the entire response
6. Save as: CourseName_Session1_Brief.txt

IMPORTANT: Do not skip any field. Every field you fill in makes all other steps better.

Information you need to fill in:

Course Name	e.g. Internet Safety Basics
Category	e.g. Cybersecurity / Coding / AI / Robotics / Finance
Sub-Category	e.g. Cyber Safe / Code Lab / AI Explorer
Target Grade	e.g. Grade 3-5
Session Number	e.g. Session 1 of 4
Session Title	e.g. What is the Internet?
Duration	e.g. 30 minutes
Course Depth	Beginner / Intermediate / Advanced

Step 1 Prompt — Copy and paste this into Claude:

You are a curriculum designer for Planrs Academy, an Indian EdTech platform for school students KG to Grade 12. Create a detailed Master Course Brief for all content production.

COURSE DETAILS:

Course Name: [ENTER COURSE NAME]
Category: [ENTER CATEGORY]
Sub-Category: [ENTER SUB-CATEGORY]
Target Grade: [ENTER GRADE]
Session Number: [e.g. Session 1 of 4]
Session Title: [ENTER SESSION TITLE]
Duration: [e.g. 30 minutes]
Course Depth: [Beginner / Intermediate / Advanced]

Generate: Learning Objectives, Key Concepts with Indian examples, Session Outline with timing, Minimum Expectations for each output type, Indian Context references, Tone and Style Guide, Things to Avoid, and Success Criteria.

STEP 2 — CANVA SLIDE CONTENT

Claude tells you exactly what to put on every slide. You then build the slides in Canva using this content.

What to do:

7. Open Claude.ai in a NEW chat
8. Paste your Step 1 Brief at the top
9. Then paste the Step 2 prompt below it
10. Claude generates content for every slide
11. Build slides in Canva using the content Claude gives you
12. Save Claude output as: CourseName_Session1_Canva.txt
13. Export finished Canva slides as PDF — needed for Step 3

Brand Guidelines: Heading Font — Baloo 2 | Body Font — Quicksand | Pastel colour combinations |
No mascot in slides | Indian diverse characters | 1920x1080px

What Claude will give you for each slide:

- Slide type and purpose
- Background pastel colour combination
- Exact heading and body text — max 30 words per slide
- Detailed cartoon or illustration description
- Ready-to-use AI image generation prompt
- Animation instructions for Canva
- Highlight and glow directions
- Speaker notes — feeds into Step 3

After building slides in Canva — export as PDF before moving to Step 3. This PDF gets uploaded to Claude in Step 3.

STEP 3 — NARRATOR SCRIPT (HeyGen / Riya or Garu)

Upload your finished Canva slides PDF to Claude. Claude reads every slide and writes the complete narrator script.

What to do:

14. Export Canva slides as PDF
15. Open Claude.ai in a NEW chat
16. Upload the slides PDF to Claude
17. Paste Step 1 Master Brief
18. Then paste the Step 3 prompt
19. Claude reads every slide and writes script slide by slide
20. Save as: CourseName_Session1_Script.txt
21. Use script in HeyGen with Riya or Garu avatar

Narrator selection guide:

Riya	Coding, AI, Science, Robotics, Finance, Entrepreneurship
Garu	Cybersecurity, Life Skills, Safety topics
Either	Creative Tech, Languages, Mathematics, Chess

Claude writes the script based on YOUR actual slides — not a template. Every concept on every slide is covered in full depth. Students learn everything from the narration.

What Claude gives you per slide:

- Slide number matching your PDF exactly
- Narrator name — Riya or Garu
- Estimated speaking duration
- Complete script — exactly as narrator speaks
- Natural transition to the next slide

HeyGen Rules: No stage directions. No exclamation marks. Use ellipses for pauses. Use em dash for emphasis. Speak TO the child using you and we.

STEP 4 — HTML ACTIVITY WITH ANIMATIONS

Claude creates a complete interactive HTML activity file with animations, glow effects, and colourful background matching the topic.

What to do:

22. Open Claude.ai in a NEW chat
23. Paste Step 1 Master Brief
24. Paste Step 2 Canva content output
25. Then paste the Step 4 prompt
26. Claude generates complete HTML file
27. Save the file as: CourseName_Session1_Activity.html
28. Open in Chrome to test — must work perfectly
29. Upload to GitHub Pages
30. Copy the URL and embed in Edmingle via iframe

Background animation by topic:

Coding / AI	Dark navy, electric blue, glowing cyan particles
Cybersecurity	Dark teal, green matrix particles, shield glows
Science / STEM	Sky blue, golden sunbursts, floating molecules
Finance	Warm gold, green, floating rupee symbols and coins
Entrepreneurship	Vibrant orange, yellow, rising rockets and stars
Life Skills	Soft lavender, mint green, floating hearts and stars
Robotics	Dark steel, orange sparks, floating gears and circuits
Languages	Rainbow gradient, floating letters and speech bubbles
Mathematics	Purple, gold, floating numbers and shapes
Chess	Deep burgundy, gold, floating chess pieces

Every card and button must have a glowing border that pulses. Correct answers trigger confetti. Wrong answers shake and show a hint. Completion screen shows stars and fireworks.

STEP 5 — YOUTUBE VIDEO CURATION

Claude curates 5 carefully selected YouTube videos — 2 core videos, 2 extension videos, and 1 fun video related to the topic.

What to do:

31. Open Claude.ai in a NEW chat
32. Paste Step 1 Master Brief only
33. Paste the Step 5 prompt
34. Claude gives you 5 videos with search queries
35. Search each video on YouTube using the query
36. Watch at least 2 minutes to verify it is appropriate
37. Click Share → Embed on YouTube → copy embed code
38. Add to Edmingle course page with clear labels
39. Save the list as: CourseName_Session1_YouTube.txt

Video labels in Edmingle:

Core Video 1 & 2	Watch First: [Topic]
Extension Video 1 & 2	Go Deeper: [Topic]
Fun Video	For Fun: [Topic]

IMPORTANT: Always verify every video yourself before adding to Edmingle. Claude may suggest a video that has changed or is no longer appropriate. You are responsible for checking.

STEP 6 — STUDENT STUDY PDF

Claude creates complete content for a student study guide PDF. You then design it in Canva and export as PDF for Edmingle download.

What to do:

40. Open Claude.ai in a NEW chat
41. Paste Step 1 Master Brief
42. Paste Step 2 Canva slide content
43. Paste Step 3 Narrator script
44. Paste the Step 6 prompt
45. Claude generates complete PDF content — all sections
46. Save as: CourseName_Session1_PDF_Content.txt
47. Design in Canva using Baloo 2 and Quicksand fonts
48. Use pastel colours matching the session slides
49. Export as PDF — 8 to 12 pages
50. Upload to Edmingle as downloadable resource

PDF contains these sections:

Section 1	Cover Page
Section 2	What You Will Learn — objectives
Section 3	Key Concepts — every concept with Indian examples
Section 4	Lesson Summary — flowing prose
Section 5	Did You Know — 3-5 India facts
Section 6	Quick Quiz — 10 questions with answer key
Section 7	Activity Guide — how to use the HTML activity
Section 8	Think and Discuss — 5 open ended questions
Section 9	Try This at Home — 3 offline activities
Section 10	Glossary — all technical words explained
Section 11	What is Coming Next — next session preview

The PDF must be self-contained. A student must be able to learn everything from the PDF alone — even without watching the video. Write fresh — never copy paste from slides verbatim.

☑ QUALITY CHECKLIST — Before Submitting to Vidhya

Complete this checklist for every session before telling Vidhya it is done.

Step 1 — Master Brief

- All course details filled in correctly
- Learning objectives are clear and measurable
- Indian examples listed
- File saved as _Brief.txt

Step 2 — Canva Slides

- All slides built in Canva
- Pastel colour combinations used
- Diverse Indian characters in illustrations
- No mascot added — Vidhya adds separately
- Maximum 30 words per slide
- Exported as PDF for Step 3
- File saved as _Canva.txt and slides as _Slides.pdf

Step 3 — Narrator Script

- Slides PDF uploaded to Claude
- Script written for every single slide
- Narrator chosen correctly — Riya or Garu
- No stage directions anywhere
- No exclamation marks
- Every concept covered fully
- Duration estimate on every slide
- File saved as _Script.txt

Step 4 — HTML Activity

- Activity opened and tested in Chrome
- Animated background matches topic
- Glowing edges on all cards and buttons
- Confetti works on correct answers
- Shake animation works on wrong answers
- Completion screen shows stars and score
- Works perfectly in iframe — tested
- Minimum 5 questions based on slide content
- File saved as _Activity.html

Step 5 — YouTube Videos

- All 5 videos personally verified by you
- Each video watched for at least 2 minutes
- Videos embedded in Edmingle with correct labels
- No inappropriate content in any video

- File saved as _YouTube.txt

Step 6 — Study PDF

- All 11 sections completed
- Quiz has 10 questions with answer key
- Glossary covers all technical words
- Home activity is safe and doable
- PDF designed in Canva — 8 to 12 pages
- Uploaded to Edmingle as download
- File saved as _PDF_Content.txt and _StudyGuide.pdf

Do it with care. Do it with quality.
