

My Digital Portfolio Adventure!

A Fun Grade 3 Guide to Showcasing Your Best Work Safely

What is a Digital Portfolio? It is like a **magical digital treasure chest** on your computer! You can use it to store and show off your absolute favorite drawings, amazing stories, certificates, and school projects. Let's build yours in 5 simple steps!

STEP 1 Create a Magical Folder

Tool: Google Drive

Before putting treasures away, we need a chest! Let's make a safe, permanent spot for your work:

- **Open up Google Drive** on your school computer.
- Look for the big plus button on the top-left that says **+ New**, then click **New Folder**.
- Type in the perfect, proud name: **"My Portfolio"** and click Create.
- Now you have a special, organized home ready for your school work!

STEP 2 Write Your "About Me" Story

Tool: Google Docs

Every portfolio needs a friendly introduction so people know whose awesome work they are looking at!

- Open up a brand new, clean document in **Google Docs**.
- Write a short and fun introduction all about yourself!

Safe Details to Share:

- | | | |
|---------------------------|------------------------|----------------|
| ✓ Your First Name | ✓ Your Class/Grade | ✓ Your Hobbies |
| ✓ Favorite School Subject | ✓ A Small Self-Drawing | |

Remember: Keep it safe! Never share secrets, phone numbers, or private last names with strangers.

When finished, save this Google Doc inside your **My Portfolio** folder!

STEP 3**Collect Your Treasures****Tool: Your Best Work**

Time to search your computer or Drive to find your proudest moments and drop them into your new digital folder!

- 🎨 **Beautiful Art:** A drawing, painting, or digital sketch you really love.
- 📄 **Top Projects:** Your best class book reports, science projects, or creative stories.
- 🏆 **Proud Rewards:** Pictures of reading certificates, sports ribbons, or helper badges!

How to Upload: Inside your "My Portfolio" Google Drive folder, click + **New**, then click **File Upload** to select and add files from your computer!

STEP 4**Build Your Digital Showroom****Tool: Google Slides or Google Sites**

Let's arrange your pages neatly so they look like a real website or dynamic presentation slide show!

Step-by-Step Instructions to Create Your Pages:**Option A: Using Google Slides**

1. Create a new Google Slides presentation.
2. **Add 4 Slides:** Click the small arrow next to the + button in the top left corner to choose your slide layouts. Add 4 blank slides.
3. **Name your slides:**
 - Slide 1: **Home** (Your Title slide)
 - Slide 2: **About Me** (Paste your story here)
 - Slide 3: **My Work** (Insert project screenshots)
 - Slide 4: **Certificates** (Show your rewards)
4. **Insert Drive Files:** Click **Insert > Image > Drive** on the menu bar. A sidebar will open where you can search your "My Portfolio" folder to drag and drop your beautiful treasures right onto the slides!

Option B: Using Google Sites

1. Go to **sites.google.com** and click the blank + to start a new website.
2. **Create Your Pages:** Look at the right-side menu panel and click on the **Pages** tab.
3. At the bottom of that panel, hover over the + button and click **New Page**. Create these 4 pages:
 - 🏠 **Home:** Welcoming front door!
 - 👤 **About Me:** Your intro story.
 - 🌟 **My Work:** Your favorite projects.
 - 🏆 **Certificates:** Your rewards.
4. **Add Your Content:** Go to the **Insert** tab on the right, click **From Drive**, select your "My Portfolio" folder, and double-click files to display them beautifully on any page!

STEP 5**Share Your Work Safely**

Tool: Smart Sharing

A portfolio is meant to be shared, but only with people who support, love, and care about you!

-  **Who can you share with?** Your teacher, your parents, and close family members!
-  **The Golden Rule:** Never, ever share your link, password, or portfolio website with strangers online! Keep your digital door locked to anyone you don't know personally.

Great Job, Digital Explorer!

You built a magical folder, created an About Me page, collected your treasures, organized your pages, and learned how to share safely! You are officially ready to show off your awesome work!
