■ What Is Money?

Money is what we use to buy things we want or need. It comes in coins and notes. When we go to a shop, we give money to get things like food, toys, or books.

■ Money helps us get things we need and want every day!

■ What Does Saving Mean?

Saving means keeping some money aside instead of spending it right away. It's like keeping a treasure safe for later!

Example

If you get **10 rupees** and keep **3 rupees** in your piggy bank, you are saving! The 3 rupees you kept will grow over time, helping you buy something special later.

■ Why Should We Save Money?

Saving money is important for many reasons:

Buy Wants

Save for things you really want — toys, games, or a special treat!

Emergencies

Be ready for surprises! Saving helps when something unexpected happens.

Big Goals

Reach big dreams by saving a little at a time. Patience pays off!

Saving also helps us build **good habits for life**. The earlier we start, the better!

■ Needs vs. Wants

Before we save, it helps to know the difference between things we **need** and things we **want**:

NEEDS: Things We Must Have

- Food to eat
- Clothes to wear
- School supplies
- A place to live

WANTS: Things That Are Fun

- Toys and games
- Sweets and snacks
- Video games
- Extra stickers

■ Needs are important to live. Wants are extra fun things we enjoy when we can afford them!

■ How Can We Save Money?

Here are some easy ways to start saving your money:

Piggy Bank

Use a piggy bank or jar at home to collect coins every day.

Allowance

Ask for a small weekly allowance and save a part of it each week.

Gift Money

When you receive money as a gift, put some of it straight into savings!

Avoid Small Spends

Think before spending small amounts — they add up quickly!

■ Short-Term vs Long-Term Goals

Goals give us something to save towards. There are two types of savings goals:

SHORT-TERM GOALS — Reach Them Soon!

- Favourite storybook
- New stationery set
- Ice cream treat
- A small toy or game

LONG-TERM GOALS — Big Dreams Take Time!

- A shiny bicycle
- A family trip
- School fair or picnic
- A cricket bat

Short-term goals take just a **few days or weeks**. Long-term goals may take **months**, but they feel extra special when you reach them!

■ Steps to Reach Your Goal!

- 1 Decide what you want to save for.
- 2 Find out how much it costs.
- 3 Save a little money regularly — even small amounts help!
- 4 Keep your money safe in a piggy bank or jar.
- 5 Check your progress often and celebrate small milestones!

■ Riya's Saving Journey

Meet **Riya**! She wanted a shiny red bicycle, but it cost **500 rupees**. That seemed like a lot!

Riya made a plan. Every week, she saved **20 rupees** from her pocket money in her piggy bank. She drew a chart to track her savings. After **25 weeks**, Riya had saved enough! She bought her bicycle and felt so proud.

"Small savings add up to big dreams!"

■ What Have We Learned?

01 Money Helps Us

Money is what we use to buy the things we need and want — food, clothes, toys, and more!

02 Saving Is Smart

Saving means keeping money safe for later. We also learned about needs vs. wants!

03 Goals Are Fun

Goals help us save for things we really want. Whether short-term or long-term, saving can be exciting and rewarding!

■ Class Activity: Let's Think!

If you receive **20 rupees**, how much will you save for your goal? Think about it and share your answer with your classmates!

My savings plan:

I will save for: _____ Amount needed: _____ Weeks: _____

Thank you for learning about Saving & Goals! Start saving today! ■
