

SORTING FUN WITH PLANRS ACADEMY

RIYA'S MESSY BOOKSHELF

OH NO!

Riya's books are all mixed up!
Big books, small books, colorful books...
they're everywhere on her shelf!
Can you help Riya sort her books?

WHAT IS SORTING?

ORDER!

Sorting means putting things in order!
Like tiffin dabbas stacked biggest to smallest,
or standing in assembly line
from shortest to tallest.
Sorting helps us organize everything!

WHY DO WE SORT?

- 1 Sorting helps us find things fast!
Riya found her Panchatantra book quickly.
- 2 It saves time! No more searching
through messy piles.
- 3 It avoids confusion! Everything
has its own place.

Remember!

sorting makes
life easier!

SORTING RULES

Smallest to biggest (ascending) -
like rupee coins ₹1, ₹2, ₹5, ₹10!

Biggest to smallest (descending) -
like stacking laddoos!

Grouping same items together -
like sorting diyas by color!

Remember!

these three rules
help us sort!

GUIDED PRACTICE

SORTING TIFFIN

DABBAS

Look at the three tiffin dabbas.
Which one is the biggest?

Point to the biggest dabba first.
Then find the medium one.
Finally, find the smallest dabba.

Now arrange them: Biggest → Medium →
Smallest. You did it!
