Understanding Insurance for Our World

Grade 6 | Financial Literacy

The Shared Umbrella

Imagine everyone in your housing colony contributes just ₹10 each to buy a giant umbrella. [cite: 90]

"When it rains, anyone who needs shelter can use it!" [cite: 91]

Insurance works the same way. We all share a little bit of money so everyone is protected when trouble comes. [cite: 92]

What is Insurance?

Insurance is like a **safety net** that protects your family's money from unexpected problems. [cite: 99]

Just like a circus net catches performers if they fall, insurance catches your family when life brings surprises. [cite: 100]

The Strong Shield

When something bad happens—like an accident or illness—insurance helps pay for it. [cite: 101]

This means your family's savings stay safe and secure! [cite: 101]

Important Words: Premium

Premium 💰

A **Premium** is a small amount of money you pay regularly to keep your insurance active. [cite: 103, 174]

Think of it like paying ₹100 every month to stay protected! [cite: 103]

Important Words: Policy

Policy

A **Policy** is the promise or contract from the insurance company to help you when you need it. [cite: 109, 175]

It is your official "Safety Net Agreement"! [cite: 109]

The Three Shields

Insurance protects families in different ways. We can think of these as three powerful shields! [cite: 124, 176]

2. **Shield 2:** Health Insurance 🏥
3. **Shield 3:** Vehicle Insurance 🚗

Vehicle insurance helps pay for car or scooter repairs after accidents. [cite: 149]

Did you know? In India, third-party insurance is **mandatory** for all two-wheelers and four-wheelers. [cite: 150]

This shield protects your family's savings from unexpected road mishaps! [cite: 151]
